It has been asserted that all the rumors about the discovery of gold at Eel River has a very slight foundation. The Woodstock *Acadian* says:

It is well that the very truth should be known. We understand that Gold has been found in the locality named. Of the existence of extensive quartz there can be no doubt. Whether this quartz contains gold in sufficient abundance to make its crushing profitable business is the point, and it is a point which is as yet utterly undecided. But means are in operation by which the value of the quartz will be thoroughly tested, and that soon. Meanwhile it is scarcely worth while for any one to take the gold fever severely.

BRITISH AND FOREIGN.

LONDON, July 8—Evening.—In the House of Lords to-night the bill providing for the creation of life peerages was rejected, 77 to 106.

The new Bankruptcy Bill was read a second time.

In the House of Commons Mr. Ayton called attention to the application for a government loan for the Canadian Intercolonial Railway, and moved a resolution that in the opinion of the House such an application of the public funds was contrary to the terms of the act authorizing the road, and that no further guarantee should be given, except in such form as will insure direct application to its construction. Messrs. Baring and Hunt opposed the resolution. Mr. Gladstone said that in his opinion no case had been presented which called for the interference of the House, and recommended the withdrawal of the resolution.

Prince Alfred will leave August 14th for Halifax.

Latest advices from the "Great Eastern" state that she expected to reach shoal water to-day at noon.

In the House of Commons last night Mr. Gladstone requested Sir Henry Bulwer to postpone his notice in regard to the Alabama claims, and gave the reasons for his action. Sir Henry acquiesced, and the subject is virtually postponed until the next Parliament.

The resignation of the French Ministry is reported. The new Cabinet will probably contain representatives of the new reform party, which is not inimical to the Government, but which desires a curtailment of the Imperial powers and enlargement of the liberties of the Legislative branch of the Government.

The Emperor Napoleon and his Ministers are said to have agreed to grant the political reforms demanded by the Corps Legislatif, and for this purpose the Senate will be immediately convened.

The yacht "Dauntless," commanded by Mr. J. G. Bennett, has reached Queenstown in less than thirteen days from New York.

Lisbon is disturbed by the political agitation so widespread in Europe.

The resignation of the Spanish Minister of Justice has been accepted.

LONDON, July 10.—At Smithfield recently, a whole family, consisting of father, mother and six children, the eldest thirteen years and the youngest fourteen months, were found poisoned. The father was the author of the tragedy, and left a note stating that he did it to escape beggary.

LONDON, July 12.—Dispatches through the new cable from the Great Eastern are up to this morning. The steamer was off Newfoundland, 30 miles from the spot where the splice is to be made.

Bright and Forster have withdrawn their resignations which they recently tendered to the Reform Club.

BELFAST, July 12.—There was a riot here yesterday between Orangemen and Catholics, and for a time mob law was Supreme. Much excitement prevailed. At length the rioters were dispersed.

GALWAY, July 12.—Fenian outrages are of daily occurrence. Last night Capt. Lambert was shot near his own house in this vicinity and fatally wounded. The assassin was promptly arrested.

LONDON, July 12.—The *Times* in an article on the progress made by Russian power in the East, regards the absorption of petty Mussulman States by Russia as a benefit to the world, but says her presence in Asia must be consistent with the maintenance of British authority India. With India prosperous and contented, continues the *Times*, we are safe. When the security of our power in India is felt, and all fear of Russia is dissipated, both countries may unite to develope the vast regions committed to their care.

The Emperor Napoleon sent a message to the Corps Legislative in which he made known his decision to convene the Senate for the consideration of the reforms demanded to-day.

Dispatches through the new cable from the Great Eastern are up to this morning. The steamer was off Newfoundland, 30 miles from the spot where the splice is to be made.

Bright and Forster have withdrawn their resignations, which they recently tendered to the Reform Club.

LONDON, July 13.—The Irish Church Bill was again discussed in the House of Lords last night, and the Government was sustained in voting down one or two important amendments.

A despatch to-day from St. Pierre announces the arrival of the *Great Eastern* and the successful landing of the cable.

LONDON, July 13.—In accordance with the Emperor's decision, the French Senate will convene on the 2nd of August, and the Corps Legislatif will be immediately prorogued.

The Tiers parti have withdrawn their interpellation.

The London *Star* says that Spain has as much cause for complaint against the United States, on point of their attitude towards Cuban revolutionists, as we have against the United States in the Alabama case.

A serious riot occurred yesterday in Sheffield.

The announcement that the French cable had been landed at Miquelon was premature. It was cut near the shore and buoyed, dense fog delaying the landing.

All the French Ministers have resigned. The resignations of M. Rouher and Lavalette have been accepted by the Emperor. The other members of the Cabinet remain. The new ministry will be a transitional one.

A new ministry has been organized in Spain with General Prim at its head.

LONDON, July 14.—The Irish Church Bill was read third time in the House of Lords on Monday night, and after adoption of two important amendments and the incorporation of the principle of concurrent endowment, the Bill was passed. The first amendment cancels the clause permitting bishops to retain their seats in the House of Lords, and the second is in the form of a proviso for furnished residences and glebes for the Catholic and Presbyterian clergy.

UNITED STATES.

AMERICAN COMMERCE.—A table recently published, giving the tonnage of American vessels engaged in foreign trade for the past nine years, shows a more favorable condition of things than was generally anticipated. The tonnage in 1860 was 5,903,780. By 1864 it had decreased to 3,000,342. But in the next four years, to 1668, it had increased to 5,724,766. Thus the decrease in eight years was only 179,013 tons. If to the present tonnage was added all the vessels that sail under foreign flags, though owned by Americans, there would be a still more favorable exhibit, especially when we consider how steamships have taken the place of sailing vessels during the last ten years, and that one steamer does the work of two or three ships.—*Boston Herald, June 20.*

The Indians are still at their murderous work. Two white men were killed by a small band of Indians, supposed to be Sioux, on the 15th inst., near Lone Tree, on the Platte River. The steamers Nile and Ida Rees, from Fort Benton, report the Indians above to be fighting among themselves, and killing the whites when found alone, but making no demonstration against the boats or forts. A Hays City dispatch says that the Indians are robbing and massacreing the settlers near Minneapolis, forty miles west of Salina. A special from Ellsworth to the Leavenworth, Kansas, *Times and Conservative*, dated June 15th, says that about thirty-five miles north of Solomon City two men are reported killed. A party of men followed the Indians, but, discovering a large force of them, they did not attack them. Governor Harney arrived at Salina yesterday, and left this morning for the scene of the outrages. A quantity of arms was received at Solomon city and Salina, for the protection of the settlers. A force of armed men left Salina yesterday, and another party to-day. Captain Whitney leaves to-morrow for Spillman Creek, with his company of scouts. Most of the settlers are armed and on their guard.—*American Paper.*

The State of California offers a bounty of $300 for each 100,000 good, merchantable silk cocoons, and $250 for each plantation of 5,000 trees, or more, two years old, set out at proper distances, for permanent silk culture.

Splinters from six "last ties" of the Pacific Railroad have been sold, and the supply is still equal to any possible demand.

NEW YORK, July 9.—A late Havana despatch says Captain General De Rodas has issued a proclamation closing a large number of Cuban ports and declaring armed vessels and their crews cruising in Cuban waters pirates.

An important Spanish victory is reported.

WASHINGTON, July 10.—The presence here of the Hon. John Rose, Minister of Finance of the Canadian Government, has caused the return of Mr. Thornton, the British Minister, from Newburyport, where he had taken his family.

The visit of Mr. Rose is induced by a desire to consult with the United States authorities respecting a new Reciprocity Treaty, but more especially on business connected with the Hudson Bay Company Claims Board, of which he is the representative of Great Britain.

NEW YORK, July 14.—Sterling exchange 109 7-8. Gold steady.

We copy the following from an exchange, which is important if true:—Chronic diarrhœa of long standing, also dysentery, and all similar complaints common at this season of the year, can be cured by the use (internally) of "Johnson's Anodyne Liniment." We know whereof we affirm.

The cathartics used and approved of by the Physicians comprising the various medical associations of this State, are now compounded and sold under the name of "Parsons' Purgative Pills."

THE MICROSCOPE.—One of the most interesting experiments, and one which is easily performed, is to watch the change in the blood of a delicate or very pale person, while using Fellows' Syrup of Hypophosphites.

The colourless or dead corpuscles are steadily removed from the system, and are replaced by the red or vitalized particles, so necessary to vigorous existence.
