

the match by firing the first shot. During the evening the public buildings and many private ones, were illuminated, fireworks were displayed, and the citizens turned out en masse to do honor to the son of our noble Queen.

A Levee, Dinners, Pie-Nics, etc., are on the programme for his amusement, during his stay in Halifax. He will leave Halifax to-morrow, A. M., for Charlottetown, and return again to that city on Tuesday next. He will spend a day or two in mouse hunting, and visiting several points of interest in Nova Scotia. On Monday, 6th inst., he will leave Halifax by special train to Pictou, and take steamer thence to Shediac, and arriving in this city by train, on Tuesday, Sept. 7th. Committees have been appointed by Common Council and County Sessions, to prepare addresses and make arrangements for the proper reception of His Royal Highness.

A public meeting, with a view to make preparation for his reception in Fredericton, was held in the City Hall of that City, on Tuesday evening last. There seemed to be an unwillingness to appropriate city funds, and a committee was appointed to solicit subscriptions.

It is to be hoped that neither St. John or Fredericton will be behind any other places in attending to the Prince's right hearty welcome. New Brunswick is second to no portion of the Dominion in loyalty, and should in the reception give Prince Arthur, evidence of our attachment to his worthy mother, the Queen, and our desire to perpetuate the relation existing between the Mother Country and the Dominion.

The *Religious Intelligencer*, which called upon its readers to vote for Confederation as the best means of destroying the Rensselaers, has been at the alarming increase of the power of Rome in the Dominion. Even in this respect did our blind contemporary deceive its readers.

The above paragraph from the *Globe* is in keeping with its usual style. Its editor having long since ceased to feel the influence of that inward monitor—conscience, is fully prepared to sell his country, denounce his creed, or write mean, senseless untruthful paragraphs about any who prefer principle to profit. So proficient has he become in this particular line that he now excels his former patron.

MURDER.—A correspondent of the *Telegraph*, writing from Newcastle, furnishes the following particulars of a murder committed on the Kenos River.

A party of young men on the evening of the 8th inst. were drinking at Schofield's, who lives in the lower part of Blackville and near Indiantown, South West. From all that can be learned they were all less or more intoxicated when they left for their homes on the Kenos River. James Heywood, one of the number, started on horseback; the others on foot. Heywood never reached home, or rather the home of his employer, which was then his home. His non-appearance excited the fears of his friends, and a search was made in the night, but no trace of his body was found in a swamp not far from the road that leads up the Kenos River and about one and a half miles from Schofield's.

An inquest was held which showed that the body was found near McGowan's, and that a knife, key and some other things belonging to the deceased were found in McGowan's yard. A deep cut was found in his right side, and a wound on the right breast. The whole matter was involved in mystery, until McGowan made a confession as stated in the following telegram to the *Telegraph* of Tuesday.

"McGowan, on whom suspicion rested as the murderer of Heywood, cut his throat yesterday, but is still living. He made a confession to day that Heywood came to the night, demanding to get in and wanting liquor; he refused to let him in, when he tried to kick open the door; that he, McGowan, took a knife, and opening the door, stabbed Heywood in the breast, and afterwards dragged him to where he was found.

"There are two wounds in McGowan's throat, and it is thought he cannot recover.

"The inquest closed the investigation to-day."

CROPS.—Of the crops in Carleton County, the *Advertiser* writes hopefully: "Hay, it says, is in quantity short of last year, though not much below the average. The quality is excellent. The weather has been remarkably good for securing it in good condition. Grain crops are not yet ready for the scythe.

A few fields may be sufficiently advanced, but the body of the crop appears to be backward. We think that the wheat crop, though limited in area is nevertheless very important, it is beyond doubt good—little affected by weevil and rust."

The yield is advancing, and potatoes are not forward. We very much fear for this crop.

A correspondent writes to the *Farmer* from Jerusalem Queen's County, that:—"The crops in this part of Queen's County are looking well, with the exception of buckwheat. Oats and potatoes look well. No symptoms of blight as yet. Hay is better than last year, and all has been got in good order. It has been an unusually fine hay season."

ST. JOHN RIVER LIGHTS.—The six new lights for St. John River, situated on 1st Greenhead, 2nd Sand Point, 3rd Oak Point, 4th No Man's Friend, 5th Ormoo Shoals, and 6th Wilmo's Bluff, have been completed, and they will be put in operation about Thursday, 20th. The lights are of the best quality built, are painted white. Each is about 40 feet high, and at night the lanterns will be elevated to the top. During the day the lanterns will remain in a "house" which stands on the platform, about 26 feet from the ground. The lanterns were made in Montreal by Chanteloup, who is perhaps the best artisan of the kind on the Continent of America. The lamps are furnished with circular burners. A clear, white light will be kept burning every night during navigation, and will thus afford additional security to the large fleet of steamers, rowboats, and rafts that ply continually on the River.—*Telegraph*.

FIRE IN FREDERICTON.—The *Farmer* says: Another fire, evidently the work of an incendiary, occurred on Friday morning about half past one o'clock. The property destroyed was of large range of outbuildings and barns connected with the Oddell homestead in Brunswick Street, and extending through to George Street. These buildings were entirely consumed, together with a considerable quantity of hay which had recently been stored in one of the barns. The two-story dwelling house on George Street belonging to the Oddell estate, was with difficulty saved, it being on fire in various places.

Dr. Wilson's Pulmonary Cherry Balm combine both tonic and expectorant powers in a high degree. By the former it is able to prevent weakness is understood, and by the latter its capability to cast off all noxious matter. With this remedy at hand, no invalid need be at fault to keep himself or herself free from the many pulmonary disorders to which they are subject during our long and inclement winter. Coughs, Colds, Whooping Cough, &c., can be successfully treated by taking this Balm. During close and heavy weather, asthmatic sufferers will experience the utmost possible relief, by simply using the remedy.

Many impurities enter the human body during the summer, from the decomposition of animal and vegetable matter, which often taint the air and render the food noxious. The good qualities displayed by Dr. Wilson's Family Anti-Bilious Pills, in expelling out and expelling all pernicious particles from the system, constitutes them the best medicine for averting indigestion, Bilious Attacks, Diarrhoea, Cholera Morbus, and all the various affections of the alimentary canal constantly recurring in our variable climate.

Clark's Derby Compound Powders are now extensively used, and, as far as we can learn, with universal satisfaction.

ACCIDENT.—There was an explosion in Dr. Ayer's Laboratory, yesterday, which caused some excitement in the vicinity. Ayer's Pills are manufactured under an enormous pressure, in cylinders, like cannon, which sometimes prove too weak for the compressed forces, and burst with terrific violence. Fortunately the pieces do not fly far, so that no one has ever been hurt by them. The action is more like ice than powder; but it makes Pills which all the world acknowledge are PILLS.—(Daily Journal, Lowell.)

Sprains, Stiffness of the Joints, &c., of the most formidable character have been cured by Dr. Ayer's Sturgeson Oil Liniment. Rheumatic Pains, which have proved incurable by any other known embrocation, have yielded under the stimulating powers of this excellent Liniment. The powers of this remedy enables it to cope with all external pains, and to cure, at least relieve, martyrs to Rheumatism.

BRITISH AND FOREIGN.

LONDON, Aug. 19.—The bank of England announces a reduction in discount of a half per cent. The rate is now 2½ per cent.

The Times on the Spanish situation expresses surprise at the late executions, and says that blood will be as wastefully shed to put Carlism down as was contributed to build them up.

The order lately promulgated by the Regent of Spain obliging Bishops to warn the clergy against the Carlism has been referred to the Papal See by a Bishop denying the jurisdiction of the Government.

A gentleman in the eastern part of the State, who was about having his leg amputated on account of its being bent at right angles and stiff at the knee, heard of "Johnson's Anodyne Liniment." After using it a short time, his leg became straight, and is now as serviceable as the other.

PHYSICIAN'S REPORT OF A REMARKABLE CASE. *Gazette, New Brunswick, July 22, 1868.*

MR. JAMES I. FELLOWS, Chemist.—

DEAR SIR—Allow me to bear my testimony in favor of your Compound Syrup; I have used it myself for Tuberculosis with marked benefit, and have given it to a great number of my patients, with the same result as I experienced from its use. During the last seven years, I have devoted myself almost exclusively to the treatment of Consumption, having cases under my care in all parts of the Province; so that I am enabled to speak from experience of the benefit derived from its use.

The most marked, was a case which was under my care in March last. This was a patient who had been under treatment nine months with no beneficial results. When I first saw him, he was so feeble that he could not get up long enough to be examined by heart and lungs examined. What disease he had been treated for, did not appear, but I found him suffering under Chronic Spentitis. He had a severe Cough, Dyspnea, Palpitation of the Heart, Impaired Digestion, and consequent general emaciation. I put him under treatment, and in a few weeks he was able to move about a little, but still the debility continued.

I then prescribed your Compound Syrup of Hypophosphites, and after using four bottles, he was able to attend to his farm, and is now perfectly well. In March, he was again up by four physicians, respectively, in May he assisted in ploughing eighteen acres of land, and had run up in flesh, from 136 to 145 pounds weight.

I send you this for the purpose of making what use you please of it, and of showing you all success in your efforts to relieve suffering humanity.

Strongly recommending the use of your Compound Syrup to all who suffer in any way from disease or weakness of the Lungs, Bronchial Tubes, or general debility. Believe me, your obedient servant,

J. H. W. SCOTT, M. D.

Sold by Apothecaries. Price \$1.50 per bottle, or six for \$7.50. JAMES I. FELLOWS, Chemist, Manufacturer, Saint John, N. B.

SEVENTH DISTRICT MEETING.—The Churches composing the Seventh District Meeting will please to particular to send by their delegates their full statistical report, viz: Date of formation; No. of church members; No. in Sabbath School, &c. It is very desirable that the reports should be complete, that the District may be represented constitutionally, as provided by revised Constitution. The Session will be held with the church at Beaver Harbour, commencing third Saturday in September, at 10 o'clock, A. M. W. PERCY, Clerk District.

NOTE.—Rev. A. Taylor informs me that the people at Beaver Harbour, who have a vessel at Eastport, on Friday 17th September, to take all persons from there to the place of meeting free of charge, and at the close of the session will go back with them to Eastport. Parties from Saint John, Woodstock, Calais or the Islands, would do well to take conveyance to Eastport, and accept the above kind offer. The Church, at Beaver Harbour, extend a cordial invitation to the ministers and brethren generally.

W. P.

NOTE.—The next session of the Sixth District Meeting, will be held with the church at Upper Sussex, the first Saturday in September, 1869. Ministering brethren from other districts invited to attend.

By her death the Church has lost a faithful member, a family a good counsellor, her neighbors a good friend. The people to her as she will awake in the likeness of Christ, and be satisfied.

We have mingled in tears of the silent dead; When her voice, in sweet language, joined with our own, In the songs that we sang, when our hearts were as free, As the soft sighing zephyr that floats o'er the sea.

That voice is no silent; that heart now is still! The place that is vacant no other can fill; Oh we miss the dear one, who has past to the tomb, But we trust she has found a more glorious home.

Farwell dear sister! we bid thee adieu; Fond memory will weave a sweet garland for you; The toils and sorrows on earth are all o'er; Farewell, sister, and may thy spirit be free.
