THE NEWS and THE PRESS.

OCTOBER 1, 1869.

☞ *Those of our subscribers who are in arrears, or whose subscriptions are now expiring, will please remember that we are expecting to hear from them. Just now their remittances will be unusually pleasing to us. The weekly expense necessary to the publication of the* INTELLIGENCER *is quite large; and we trust those now indebted to us, will not allow us to be caused unnecessary anxiety or embarrassment. This may be done by immediate payment of all arrears, together with prompt renewals, for which we are looking, and which we most respectfully urge upon all concerned.* ☜ (2w.)

The examination of witnesses before the Coroner's Inquest, on the Black River murder, is now nearly complete. Mrs. Crear, the sister of Miss Vail, arrived from Halifax on Wednesday. Her evidence is to be taken to-day (Thursday), and it is supposed will only be corroborative of that already given. The missing trunks were found in the International S. S. Company's Warehouse, Boston, and will arrive by the *New York* on Friday evening. The examination will probably be completed on Saturday, and verdict rendered. Most absurd rumors and stories have been afloat in the community during the past week, having particular reference to this painful case, many of which are entirely without foundation. We publish a very full report of the evidence taken by the Coroner, which contains all the facts elicited.

ITEMS.—The Horse Railway is now completed from Reed's Point to Indiantown. Six cars have been placed on the line, and appear to be very liberally patronized. Their trips are made very regularly and in good time; and our citizens are quite proud of this new acquisition to our "institutions."

A Coroner's Inquest was held this week in Dorchester, on the body of a woman whose sudden death excited a suspicion of foul play. The result of the inquest we have not learned.—The *Daily Telegraph* is now printed on paper manufactured at Penobsquis.—L. Carvell, Esq., Supt., has dismissed a number of the old officials on the Nova Scotia Railway, and appointed new ones in their stead.—Efforts are being made to resuscitate the Chamber of Commerce of this city.—It is proposed to organize a Dry Dock Company, and steps are now being taken to secure a site near the Ballast Wharf.

No wonder that the mechanics now so hate the very name of Confederation, believing, as they do, that it has helped so materially to reduce them and theirs to such a deplorable condition.—*Freeman.*

It is utterly false to say that our mechanics "hate the name of Confederation," and Mr. Anglin knows this. Its fiscal arrangements are, one and all, favourable to our manufacturing industries, and most favourable to the most depressed of them, namely, ship building; while but for the wider market opened up by Confederation, many mechanics and labourers would have been driven from our shores who now find ample employment. There is probably not one city between Portland and Chicago where artisans and labourers are so fully employed, or can live so well as in St. John. There is not a city between the two cities named in which there are not many persons who can find no employment. There are none such here. If there are, where are they?—*Tel.*

ANOTHER MURDER.—A correspondent writing from Woodstock, under the date of 24th inst. (Friday), informs us of a murder committed some two year ago, in the Parish of Kent, at a place known as Munquart Settlement. It appears that a party of eight men were on their way home from an election, and among them one named Thomas Holland, an Englishman, and a discharged soldier. They requested Holland to sing, and on his refusing, they ill-treated him in the most shocking manner, and finally murdered him. A man looking for his cows found the remains in the woods, and the murderers have since been discovered. The Sheriff with a strong force left Woodstock on Thursday evening to make arrests, and Deputy Hammond has gone to arrest two of the party, named Cox and Gilman, now in Aroostook.

Another correspondent sent us the following telegram on Saturday night:—

Peter and James Gee, James Demerchant and Wm. Cox arrested—two or three others are not yet obtained. Witnesses only attest to the general rumour of the murder and disappearance of Holland. They have no personal knowledge of the deed. Witnesses are all near relatives of the prisoners. One participant is said to have confessed. He is expected tomorrow, but is now over lines in Maine. Finding bones denied. Prisoners assert no murder at all—say Holland half crazy—went off because Ellen Gee would not marry him. Two witnesses say Holland seen at Tobique three weeks after suspected murder, working at Lally's Mill. Probably mistake about Cox being man meant in confession. Very mild looking man, in good reputation.—*Telegraph.*

THE CARLETON MURDER CASE.—The preliminary examination of witnesses in the Marquart murder case, has resulted in the commitment of James Gee, William Cox, Peter Gee, and James de Merchant, to gaol to await their trial. A special despatch to the *Globe* announces that Mr. Needham, Q. C., acts for the crown, and has advised that the case go to the Grand Jury of the Court now in session. The two men Gilman and Cox, who were arrested at Madawaska, Maine, on a warrant of a Trial Justice at Fort Fairfield, have been committed to Houlton gaol, but no action has been taken with regard to their surrender to the Province authorities.—*News.*

DRY DOCKS.—A preliminary meeting was held yesterday afternoon, in the office of C. N. Skinner, Esq., to take into consideration the matter of erecting Dry Docks in this Port. Lachlan Donaldson, Esq., was requested to take the Chair, and Mr. Fredk. McLaughlin acted as Secretary. Several gentlemen spoke as to the necessity of having a Dock somewhere in the city, and signified their willingness to do the utmost in their power to have the matter pushed forward. It was then

Resolved—That Messrs. T. M. Jenkins and Fredk. McLaughlin be a committee to solicit subscriptions to stock.

It was also

Resolved—That Messrs. Henry Vaughan, T. W. Daniel, Edwin Fisher, Thos. McLeod, and James Robertson, be a Committee to confer with the Common Council with reference to the selection of a site; and that they have power to call a meeting.

The meeting then adjourned.—*News.*

DESERTION.—A placard was posted in the Police Station on Saturday, descriptive of two men who deserted on the 21st inst., from H. M. S. *Defiance*, at present stationed at Halifax. They are named respectively Nicholas Davey and Wm. Buckles. A reward of £3 stg. is offered for the apprehension of the former, and £1 stg. for that of the latter. Eleven other desertions took place on the 22d inst. from the same vessel, six of whom were Blue Jackets and five Marines.

We are now enjoying very fine harvesting weather, and the harvest is far advanced. Pastures are suffering, however, for lack of rain; and mills throughout the country are stopped for want of water.—*Woodstock Acadian.*

DISTINGUISHED SUCCESS OF A LATE GRADUATE OF THE UNIVERSITY OF NEW BRUNSWICK.—We learn from private sources that the late election for the Maine State Legislature, P. C. Keegan, Esq., A. B., a Fredericton graduate of 1868, was elected a representative for the flourishing County of Aroostook. At a Convention of nearly 500 members, Mr. Keegan, received 417 votes, the two remaining candidates receiving 40 together. At the election which came off a few days ago, Mr. Keegan led his opponent by a large majority. It will be remembered that this gentleman was Victoria scholar in '65 and '66, Douglas Gold Medalist in '67, and French Prizeman in '68. In this, we note the fact that wealth and position are not always necessary for worldly success. Mr. Keegan is eminently one of the people, and owes his good fortune entirely to his ability and earnest endeavours to place himself in the front rank of educated men. The announcement will be most gratifying to the members of Mr. Keegan's class, as well as to all graduates and well wishers of the University.—*Tel.*

CHEAP SCHOOLING.—The total number of pupils registered in Philadelphia last year, was 80,313. The actual expense of the public schools for the year was $1,092,970.17. The annual cost per pupil, amounts to the small sum of $14.48. The Mayor reports that no city in the United States educates its children at as low a cost as the city of Philadelphia.

New Brunswick has 40,666 children at school for whose education she pays $191,097.71, equal to $4.72 per pupil. Whatever other merit our system may possess, it can unquestionably claim that of cheapness. If its efficiency were equal to his cheapness, we should be a highly favored people. But in education as in other things, the cheapest article in the end. We often think we are doing great things for the culture of the rising generation, but the liberality and spirit of our neighbors ought to put us to blush. —*Telegraph.*

☞ A friend who has travelled in Germany, reports the following incident, for which he vouches: During the summer, Dr. J. C. Ayer spent some weeks at Dresden, in conference with the chemists of Central Europe, where he was heralded as the inventor of the world renowned medicines that bear his name, and considered one of the American celebrities. While riding, one day, his open carriage fell in with the cortege of the King of Saxony, on a drive from the review. The Doctor soon became the chief attraction, and received the marked attention of the people, who were even more demonstrative in their courtesies to him than to the King himself, whom they see so constantly. King John, observing this, wrapped his military cloak around him and reclined upon his seat, while our great American medicine man did the honors for the royal retinue, graciously bowing, hat in hand, on every side, until wearied by his excessive condescension to this old monarch's people.

EFFECTUAL AID.—It is a source of highest satisfaction that an easy and expeditious remedy has been found to conquer and check the constantly recurring disorders, termed pulmonary. The propriety of disturbing the nervous and mucous membrane of the stomach by sickening and nauseating mixtures was long ago questioned, before Dr. Wilson was able to prove the practicability of revealing the overcharged lungs by means of his Pulmonary Cherry Balsam. This Balsam gives the utmost security and comfort in Influenza, Acute and Chronic Cough, Pleurisy, and other similar and dangerous diseases.

Each quarter of the year tests the constitution and discovers its weakest part. By our variable temperature, the human system is severely tried. Bilious complaints, with disordered liver, are generally more or less frequent. The wise will save both pain and hazard by the use of Dr. Wilson's Family Anti-bilious Pills.

Neuralgic and Rheumatic disorders will prevail more or less at this changeable season. Al aches and pains in the nerves, muscles and bones, which often compels the man of business to neglect his usual avocations, may be speedily subdued by Dr. Dow's Sturgeon Oil Liniment.

A storekeeper from King's County writes, "Clark's Derby Condition Powders are giving perfect satisfaction to all who have bought them. One of our lumber merchants who had but little faith in any such powders, gave them to a span of horses that had been overfed with oats, with immense benefit. There are several other cases in our neighborhood which I could name where the powders are used with the same excellent results. Please send me more immediately."

BRITISH AND FOREIGN.

LONDON, Sept. 24.—The Hon. George Patton, Lord Justice Clerk of Scotland, has been murdered. His body was yesterday found in the Tay.

Whitworth, the inventor of the rifled cannon bearing his name, has been created a baronet, as also has Mr. Fairbairn, the eminent engineer.

LONDON, Sept. 26.—One hundred and forty thousand pounds in specie has been withdrawn from the Bank of England for New York, and a large sum from the Bank of France also, for the same destination.

Gen. Sickles has notified Serrano that the United States may withdraw their offer of mediation, leaving with Spain the consequences of the issue of the action.

LONDON, Sept. 27.—An attempt was made at Barcelona to disarm some of the volunteers. It caused a slight insurrection. Barricades were thrown up, and a conflict took place in the streets between the government troops and the volunteers. The latter were beaten, and seventy were taken prisoners. Among them are two deputies to the Cortes. The troops now hold all parts of the city.

LONDON, Sept. 27.—The daily News reports that the object of Lord Clarendon's visit to Paris was to announce to Napoleon an arrangement between Austria, Prussia, Russia and England, to preserve the peace, and check the contagion of revolution in France in case of the Emperor's death, but not to hwart German unity.

Mr. Gladstone, in reply to the petition for amnesty to the condemned Fenians promises to submit the petition to the Queen, but does not pledge the government to any particular action on the subject. He acknowledged the soundness of judgment exhibited by the petitioners in attaching the true character of the offence committed.

Jefferson Davis sailed for America on Saturday in the steamer *Baltimore.*

LONDON, Sept. 28.—The London *Times*, in an article on the French situation, declares that the Legislative reforms being inaugurated during the indisposition of the Emperor is unfortunate, for the work would have geen advanced if the Emperor could have aided the remorms bo the energies he carried into the Italian campaign.

Louis I., King of Portugal, is not to abdicate in order to accept the throne of Spain.

Victor Emmanuel, King of Italy, will go to Venice to receive the Empress of France on her arrival at that city.

LONDON, Sept. 29.—30 vessels laden with petroleum were burned at the wharf in Bordeaux, France, last night.

Madrid advices assert that Gen. Sickles, American Minister, has withdrawn his note to the Spanish Government relating to Cuba.

The mediation of the Great Powers of Europe in the matter at issue between Turkey and Egypt has been satisfactory. None of the points presented, save one, offered any difficulty.

UNITED STATES.

NEW YORK, Sept. 27.—Dr. Charles F. Hall, the distinguished Arctic explorer, has returned after an absence of five years. He found the skeletons of many of Sir John Franklin's men, and brings home many interesting relics of that ill-fated expedition.

Halloway Gates, the absconding book-keeper of the Bank of Montreal, at Hamilton, was arrested at Buffalo on Saturday. The money was secured.

NEW YORK, Sept. 28.—Prince Arthur with the Governor General of Canada and suite, spent several hours yesterday in Buffalo in drives about the city. They lunched at the Tiff House in company with Ex-President Fillmore.

The embarrassments caused by the extravagant fluctuations last week seriously affect transactions.

Foreign exchange remains quiet but firm, and in the present juncture quotations are nominal.

NEW YORK, Sept. 29.—The Gold Exchange Bank has been placed in the hands of the Receivers.

Two-thirds of the town of Port Dalhousie, Ont., was destroyed by fire yesterday morning. Ten stores and dwellings were consumed.

NEW YORK, Sept. 29.—Prince Arthur was in Simcoe, Ontario, yesterday on his way to Long Point, Lake Erie, where he will spend a few days fishing and duck shooting.

Gold 132. Money 7 per cent. Exchange quiet at 108¼.

There is no disease flesh is heir to more troublesome to manage than Rheumatism. It comes when you least expect it, and generally remains till it gets ready to go away. The most conspicuous remedy for this complaint is "Johnson's Anodyne Liniment."

Softening of the brain is becoming uncomfortably prevalent. Statistics show that in ten years, 1856-66, 11,685 deaths were registered from this cause in England alone.

This disease emanates from overtaxing the brain, and not supplying substance to replace the waste. By the use of Fellows' Syrup of Hypophosphites the material for thought is supplied, the mind made vigorous, and the body fortified against disease.

Sold by Apothecaries. Price, $1.50 per bottle, or six for $7.50. James I. Fellows, Chemist, Manufacturer, Saint John, N. B.

Two or three doses of "Sheridan's Cavairy Condition Powpers" will cure a horse of any common cough or cold, and the very worse casrs may be cured in a few weeks. We know this from experience.

And bore our babe away.

In Fredericton, on the 22nd ult., Annie M., aged 1 year, child of John and Martha Edmonds.

In Lewiston, June 28th, Caroline Tapley, aged 24 years, daughter of Sherman Tapley of Alva.

With white hands folded on her breast,
Death's seal on lip and brow,
How calmly doth the sleeper rest
In dreamless slumber now.

Youth strewed her path with garlands, such
As hope or pleasure weaves;
The reaper came—beneath his touch
They lay but withered leaves.

The reaper spoke—with bated breath,
She heard her early doom
To leave her friends—the bride of death,
Her bridal couch the tomb.

"I fear," she cried with sudden dread,
"My strength and courage fail;
What friendly form with me will tread
The dark and gloomy vale?"

"Jesus," she prayed, "as here I stand
Beside the chilling wave,
Clasp in thine own my trembling hand,
A contrite sinner save."

And as for sweet forgiving love,
And dying grace she prayed,
Down from the blissful courts above
Descended needed aid.

She calmly rests, she sweetly sleeps,
All undisturbed by fears,
Dear kindred friends above her weep,—
She heeded not their tears.

The casket, in its coffin-bed,
Beneath the sod is lying;
Back to its God her spirit fled,
Beyond the fear of dying.

Weep for the parents, those bereft,
Their hearts with anguish torn;
Weep for the kindred spirits left
In bitterness to mourn.

But shed no tears for her we love—
Her sorrows all are o'er;
Amid the blood-washed throng above
She dwells forevermore.

Pray, as she prayed, ere yet you stand
Beside death's chilling wave,
That Christ may clasp your trembling hand,
When summoned to the grave.

With white hands folded on her breast,
Death's seal on lip and brow,
We leave her to her peaceful rest,
Her dreamless slumber now. M. A. R.
