This exhortation to promptness is timely. The 'children of this world," who are engaged in developing the material resources of the great West, are on the alert, seizing with sagacious foresight every promising point in the region through which the Pacific Railroad passes; and the "children of light," who would place the Gospel in the van of our civilization, must seize the present happy moment, and by such vigorous progressive measures as Dr. Patterson proposes, plant churches in all the young and growing towns of the far West.

Not a single member of the church is an object of charity; all are not only supporting themselves by honest labor but are doing their share towards ministering to the wants of the pagan poor on every side of us. We have found that the plan of contributing at least one tenth of their income for helping the needy and carrying on the Gospel work among and around them has greatly quickened the industry and thrift of our people, and what is most pleasing to us is that all gratefully acknowledge that the Scripture promise is really fulfilled to them in that they accomplish more and enjoy more with what remains after giving unto the Lord than they did before with all they had with- the seeds of the life giving truth ? out giving. Commencing the first of November, full four months are devoted to travelling and preaching among the people. The following figures may serve to indicate the extent of territory visited, and the ample opportunities enjoyed for publishing the glad tidings of salvation to the common people :

Our first trip occupied 53 days; 61 villages were visited and 18 markets attended. The second trip | a new and lovely land-even Jehovah's land.

occupied 44 days; 24 villages were visited, 18 markets and 3 Juttras attended. The third and last trip occupied 14 days; 18 villages were visited and 3 markets attended. In these villages we have preached to Bengalis, Mussulmans, Oriyas and Santals, to each in their own tongue the unsearchable riches of salvation. In the markets many hundreds, even thousands, have listened to the gospel. And in the cock and himself, has had some prosperity during Jattras even greater numbers were reached by the the year, though the apparent good accomplished is ordered the nun to be clothed, and went himself for Madawaska, and the Eagle Branch, before we arrive lages in the neighborhood of our camp have been visited, and an hour or more spent in religious conversation with the people.
