of the Society .- Telegraph. John Tobin, Esquire, of Halifax was found dead in his garden on Wednesday morning at an early hour. Various reports are in circulation. His death it is supposed was caused by the shot of a gun, but from the fact of both hammers of the gun being up when the body was found there can be but little doubt that the sad affair was the result of accident. Verdict of Coroner's Jury was "Accidental Death."

In the House of Commons, Sir Harry Verney inquired what the policy of the Government would be

toward the American Colonies. Mr. Monsell, under Secretary for the Colonial Department, replied at considerable length, and while he declined to enter on the general subject of the colonial policy of the Government, he in imated that part of the policy was to throw the cost of self-defence on each colony. Measures to that end had been partially taken, and they would be extended next year. He had no doubt that the arrangement for the cession of the Hudson Bay Company's Territory would receive the ratification of the Canadian Government. The question was not one of purchase only, but also of development of colonization and civilization, which had hitherto been virtually closed. If the scheme was successful, the Dominion would be able to extend from the Atlantic Ocean to the Pacific. He believed that all the interests of British Columbia lay in connection with those of Canada, and every facility would be given to forward them. June. Ayer's Hair Vigor,

hair. Faded or gray

hair is soon restored

For restoring Gray Hair to its natural Vitality and Color. A dressing which is at once agreeable, healthy, and effectual

with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor cau only benefit but not harm it. If wanted

merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does

not soil white cambric, and yet lasts

long on the hair, giving it a rich glossy lustre and a grateful perfume. Prepared by Dr. J. C. Ayer & Co., PRACTICAL AND ANALYTICAL CHEMISTS,
