Locity.

BT RUTH MAITLAND. I know that slowly, softly falls The dark foreshadowings of night ; I feel the holy Sabbath calm, But cannot see the waning light ; I catch a low, unpassioned strain Of music, wondrous rich and sweet : Snatches of song and loving tones. And pattering of little feet. I hear the sobbing sorges break Along the lonesome, sandy shore-Cold, creeping, sullen waves that seem To marmur, never, nevermore.

Ah! nevermore; the very gloom Seems echoing the sad refrain ; Echoes that fill my eyes with tears, And thrill my soul with bitter pain ; For ob, the Father's chast'ning hand, Smote me with blindness; dreary fate, That holds me in its iron grasp, And writes my future, desolate. Aye, whisper on ye sighing winds, And surges sound the parting knell ; To all things joyous, glad, and bright, Aud beautiful, I've said farewell.

And yet the world is passing fair; I loved each royal noontide hour, Each silver moon, each golden morn, Each budding leaf and blushing flow'r ; The fadeless glory of the stars, The glowing, szare-finted sky : The gorgeous, summer sanset cloud. Each show-white sail that flutters by ; The path across the shifting sands : The restless, ever changing sea ; The brooding, balmy, fragrant wood, Had each its sacred spell for me.

But it is past; and nevermore For me, shall moon or stars arise ; Twe looked my last on field and wood, On stormy sea and sunset skies ; Uncheered, unblest, unsatisfied ; Bereft of all I hold most sweet ; The homely joys and holy dreams That made life perfect and complete. Alone with blindness ; and my way Lies desolate and shadowy ; Haunted with memories that thrill And mock me in my agony.

Ob, could the Saviour's loving hand

#### CAUTION! CAUTION ! CAUTION! THE Proprietor of PICKSTONE'S WASHING AND CLEANSING CRYSTAL, deems it his duty to caution the public against spurious imitations of his highly celebrated Washing Crystal, which is the most harmless DEG to direct attention to their NEW SPRING compound extant. It is free from Lime, Vitriol, and all other deadly mixtures so common to be found amongst washing compounds. Try Pickstone's Washing Crystal, if you want ease, comfort, and economy in washing, which vashes every thing, and has rapid sale. It will be found invaluable for the following domestic

·...-

purposes, viz. :- It washes all fine things, such as Muslin Lace, Crotchet Work, Baby Linen, &c,; cleaning Sponges, Combs, and Brushes; removing stains from the hands, and rease from Carpets, Cloth, Flannel, &c. It makes Hard Water Soft, and may be used with good effect in Baths, as immediately removes all condensed perspiration from the skin. A small quantity should also be used in the foot pan. It forms a cooling and cleansing wash for the head, by dissolving a teaspnonful of the Crystal in a quarter of a pint of water ; and for cleansing the Mouth, Teeth, and Gums, it is quite a luxury, by adding a teaspoonful to a sumbler of water. It renders linen beautifully white, and inlike other preparations, at the same time preserves the fabric. It contains nothing injurious to life. A child eating it by mistake, will not be injured.

If you have not used this Cleansing Crystal, lose no time in obtaining it. Nothing has ever been introduced nto this country which has effected such a wonderful change upon Washing Days. It saves your time-saves our clothes-saves your money; and it does not injure the most delicate hands. Pickstone's Cleansing Crystal makes washing a pleasure, reduces the cost of fuel, the wear and tear of labor, and improves every article washed. For Linens, and heavy washes, it cannot be surpassed ; for Laces, and fine fabrics, it is unequalled. It does not injure the color of Prints, but strengthens and improve ! them -- by its use they retain their original brilliancy. Flannels become white and soft like new. White things are much improved, and keep their color, even if put by for months. Thousands of Families made happy! No misery on a Washing Day, with PICESTONE'S Cleansing Crystal. Fold by most respectable Grocers and Chemists, in Packets THREE CENTS EACH, sufficient for 20 Gallons of water, or Tweive for Thirty Cents, also in Boxes containing 144 Packets, price Three Dollars each. 227 Be sure to ask for PICESTONE'S Washing Crystal, as there are spurious imitations. Do not condemn it untried. Make one trial! Pao-TECTED BY ACT OF PARLIAMENT. Sole Agent for New Brunswick

such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estima-tion, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a se of the lungs and throat, have made it known as a re-liable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a pro-vision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them. Although settled Consumption is thought in-curable, still great numbers of cases where the dis-

ease seemed settled, have been completely cured. and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When noth-ing else could reach them, under the Cherry Pectoral they subside and disappear. Singers and Public Speakers find great pro-

tection from it Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses. So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully
