in on Monday—and they had never been brought in, so far as we know. The trunk, also, which he had stated was sent with her to Boston, had remained lying there uncalled for; the trunk had been identified as that in the possession of the deceased, and the contents were proved to have belonged to Sarah M. Vail. These were some of the strong and leading facts for their consideration. They must be satisfied that the remains were those of this woman. They must be satisfied that she had been killed by the prisoner with malice aforethought, either expressed or implied. His Honor then explained expressed and implied malice; and said they must also decide whether she had come to her death by unlawful means. They had heard the facts of the prisoner's going on that day with the woman to the spot where the remains were found, and that she had not come back. It had been shown in evidence, that a pistol had been purchased by the prisoner. A hole had been found in the skull of the woman, which, on its edges, by the testimony of a medical man, showed traces of lead, and that the hole was made by a bullet. The Jury must be satisfied that the remains were those of Sarah M. Vail, by the peculiarities in the teeth, and by the fact that the clothing found, corresponded with those worn by her. They must bear in mind the fact of the peculiar connection between Munroe and this woman; that she had never been seen since they were left together at the place where the remains were found; then his account of her going to Collins', and the evidence of her never having gone there. They must weigh these things well in their minds before making a decision. The prisoner, of course, would make a defence, if he had any. His Honor said that he had made more remarks than he would have done, were it not for the impression to which he had referred, in the beginning, relating to circumstantial evidence. Of course, direct evidence was best; but circumstantial evidence, when well made out, was sufficient to convict. Indeed, when anything was established by a large number of witnesses making, out a strong chain of evidence, it was sometimes stronger than the direct and positive testimony of one or two persons. In the two indictments, one for the murder of Sarah Margaret Vail, and the other for that of her child—one case being proved, the other would follow.

On Wednesday true bills were found by the Grand Jury against John A. Munroe, and the trial was fixed to commence on Tuesday, 30th inst.

ITEMS.—The Local Legislature will meet for the despatch of business about the 10th of February.—The new Trout Creek Bridge at Sussex is nearly completed.—The Dominion government has paid Mr. Grant, C. E., the agent of the contractors, $352,500 on account of Eastern Extension, the balance, $95,000, being retained until the Commissioners report on the condition of the road.—The recent elections in Newfoundland have resulted adversely to the Confederate party.—One night last week a number of rowdies were drinking and gambling in a tavern in Portland, some of them poured kerosene over the head of one James Mitchell and then set fire to it. The victim's scalp and face was badly burned. Nine of the party have been arrested by the Police. We hope the Magistrate will punish such inhuman barbarity with the severest penalty.

There is no doubt whatever of the Dominion Government having approved the Act of the New Brunswick Legislature passed last session, relating to Western Extension, and against which a number of stockholders have protested.—*Tel.*

The Hon. John McAdam, Rev. Mr. Houston, and a number of other gentlemen, came from St. Stephen to this city by rail on Tuesday. The *breaks* in the road were made on *lauries*.

Forty-one witnesses have been held to give evidence in the prosecution of John A. Munroe for the murder of Sarah M. Vail and child. On Tuesday a number of them visited the scene of the murder, at the instance of the Grand Jury.

THE YOUNG MEN'S CHRISTIAN ASSOCIATION of Carleton, having secured the upper flat of Messrs. Adams & Son's building, on Union St., near the Post Office, will hold their second meeting in that place on Thursday evening next, the 18th inst., at 7.30 p. m.; also each successive meeting at the same time and place, until further notice. Young men wishing to join the Association may do so by either forwarding their names to any of the members or presenting themselves on the nights of meeting.

RAILROAD FROM RIVERE DuLOUP TO WOODSTOCK.—The *Carleton Sentinel* says: "An agitation having in view the building of a railroad to fill the gap between Woodstock and Rivere duLoup, has been commenced in a quarter from which the people is induced that the construction of such road will before very long be undertaken. There is only a distance of 180 miles to be built, and for that distance the route would be through the most desirable agricultural and manufacturing sections of the Province. It is a route which would serve directly the interests of Quebec, as for years there has been a very large trade done by that Province with traders and lumberers at and above the Grand Falls—a trade so large that many years ago it was quoted by now leading Canadian statesmen as an argument in favor of building the Intercolonial by a Central or Western route. Ontario is interested for the very reason that she was interested in having the Intercolonial go by a more favorable route than the Northern. This road would secure, what the Intercolonial cannot, direct trade without the necessity of passing over American territory or being subject to the expense and trouble incident to the bonding system, between the Provinces of the Dominion. Of course, as between the Intercolonial and the European and North American West, the advantages are all so strongly in favor of the latter that the trade will almost of necessity seek outlet by that source, but with the road now proposed the advantages would lie as strongly as against the E. & N. A. as with the latter against the Intercolonial. We understand that there is to be a meeting of prominent public men at Fredericton in a short time to discuss the matter and decide upon some course of action which will ensure an early commencement of work."

DEATH AT WINDSOR.—The *Empress* on Sunday brought from Windsor the body of Mchael Grady, belonging to the Straight Shore, Portland, who had been working for some time in Adam's mill, at Stillwater, near Windsor. He left Stillwater to come by the *Empress* on her previous trip, but lost his passage and stayed about the Clifton House, Windsor, drinking. On Thursday night, after he retired the landlord locked him into his room, and next morning his body was found on the sidewalk outside. The window of his room opened to the floor and it is probable he mistook it for the door, opened it and stepped out from the third story. He only lived about three hours.—*News.*

A GREAT OUTRAGE.—P. E. Island had a narrow escape from having all telegraph communication cut off for the winter. The cable ceased to work, and Mr. Hyndman promptly had it underrun. On the New Brunswick side, the *Patriot* says:

He found the wire cut diogonally in several places, by a sharp instrument, apparently a half inch chisel inserted between the threads of the outside wire covering. Thirty five yards of the submerged cable had to be taken out and replaced by a new piece.

We agree with our Island contemporary in urging the discovery and punishment of the scoundrel who was base enough to commit such an outrage. An example should be made of him. The P. E Government will offer a reward for the apprehension of the offender.—*Tel.*

BRITISH AND FOREIGN.

From our exchanges we glean the following extract from a speech recently made by Mr. Gladstone. Speaking of Ireland, he said:

"How melancholy, in face of this great assemblage, to be compelled to confess that the island which we have governed for 700 years, over which we have exercised almost unbounded power, has not yet fulfilled the first conditions of a civilized community, has not been brought into harmony with our laws and institutions. It is almost unnecessary to remind you that we were called to office in connection with this important crisis in the affairs of Ireland, a crisis in which the mind of the country was more seriously addressed than formerly towards making endeavours to put an end to what has been a problem and a speck on the fair fame of our country for so many generations. In Ireland we see society socially diseased; we see people of noble capacity and quick susceptibility whose heart in cases does not beat with warm and lively attachment to her sister countries, and who do not in all respects yield to the authority of laws, which we gladly recognize on this side of the Channel. This year has been marked by the augmentation of agrarian out rages, from which this country is singularly free. The general tendencies to crime there acquire painful notoriety, and strike the hearts of Englishmen with a deadly chill. As to the causes of these outrages it would probably be premature and difficult now to decide. To those connected with these outrages I would suggest that it is not the way to obtain success in the Legislature. We are glad to be cheered in our own endeavours to give all Ireland the strength and unity which a considerable part of Ireland now enjoys. For that end we shall labour, encouraged by our generous countrymen."

LONDON, Nov. 12.—The obsequies of the late Geo. Peabody took place this afternoon. The funeral procession consisted of a hearse and five mourning coaches. Among the mourners, were Gen. C. Grey, Her Majesty's Private Secretary, representing the Queen; Mr. Motley, Minister of the United States; Benj. Moran, Secretary of the American Legation; Freeman H. Morse, the American Counsel at London; Russell Sturges and J. S. Morgan. Following the procession were the carriages of the Queen, the Prince of Wales, Sir Curtis Lampson, the Lord Mayor and Aldermen of London, High Sheriffs of London and of the Counties of Middlesex and Surry; the Duchess of Somerset, Marquis of Townshend, Lady Franklin, Miss Burdett Coutts and many others. Westminister Abbey was completely filled with people, who had been admitted by tickets and were all dressed in mourning. Standing near the Sacrarium, as the body was brought in, were Mr. Gladstone, Lord Clarendon, the Dean of St. Pauls, Rev. Thomas Burney, Dissenting Minister; Dr. George Edward Day and Mr. John Bright. The Archdeacon of Westminister and Lord John Thynne conducted the burial services.

The Government has ordered a man of war to carry the remains of the late George Peabody to America.

LONDON, Nov. 14.—The Bishop of London to-day delivered a sermon on the life and character of the late George Peabody in Westminister Abbey which was listened to by an immense congregation.

PACIFIC RAILROAD ACCIDENTS.—Our Western despatches refer to two accidents on the Pacific Railroad, one of them very serious, which the telegram speaks of as being the first on the line. This is not quite correct. Indeed, there has been quite a number of accidents on it. The San Francisco *Times* of the 31st of October mentions one by which a Pullman car was run into and six passengers killed and many others wounded, and all through gross carelessness.—*Tel.*

NEW YORK, Nov. 16—The Gaiety Theatre in Milwaukee took fire last night, by the breaking of a kerosene lamp, while the play was in progress, and was destroyed. Several persons were burned to death, and many injured in the panic and rush.

LOW TEMPERATURE.—Cold and damp are the frequent cause of ailments which prove exceedingly troublesome, though rarely dangerous if not neglected. A cold in the head, throat, or chest may be safely stopped and quickly cured by means of Dr. Wilson's Pulmonary Cherry Balsam. This Balsam exercises the highest salutary effect on the mucous, vascular and secretory systems, which colds always disarrange. The phlegm, cough, shortness of breath gradually disappear under the use of this remedy, and the strength and vigor of the constitution is not diminished, but rather increased, by the use of this balsam.

ACIDITY OF THE STOMACH.—Dr. Wilson's Family Anti-bilious Pills are a most powerful and certain medy for the correction of those acidities, whether induced by debility, from fat substances in the stomach, or impaired by excess. The torpid functions are stimulated, the blood cleansed, and the secretions of the bile and liver purified.

When the nervous system loses its tone and vigor, the whole body suffers in consequence; but frequently some one organ suffers more than the rest, hence the origin of Heart Disease, Consumption, Softening of the Brain, &c. The most direct method of cure lies in restoring the vital principle to the nerves, which is most easily accomplished by using FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES.

Sold by Apothecaries. Price, $1 50 per bottle, or six for $7.50. James I. Fellows, Chemist, Manufacturer, Saint John, N. B.

☞ A friend who has travelled in Germany, reports the following incident, for which he vouches During the summer, Dr. J. C. Ayer spent some weeks at Dresden, in conference with the chemists of Central Europe, where he was heralded as the inventor of the world renowned medicines that bear his name, and considered one of the American celebrities. While riding, one day, his open carriage fell in with the cortege of the King of Saxony, on a drive from the review. The Doctor soon became the chief attraction, and received the marked attention of the people, who were even more demonstrative in their courtesies to him than to the King himself, whom they see so constantly. King John, observing this, wrapped his military cloak around him and reclined upon his seat, while our great American medicine man did the honors for the royal retinue, graciously bowing, hat in hand, on every side, until wearied by his excessive condescension to this old monarch's people.

Dr. Dow's Sturgeon Oil Liniment is a most efficient remedy for external diseases and complaints incidental to horses and cattle. It cannot be too strongly recommended for its beneficial effects, and is safely and successfully used in all cases.

We do not mean to say that Clark's Derby Condition Powders cure every disease, and supply the place of good wholesome food and kindly treatment; but we do say that if a horse, with fair treatment and good food, still fails in appetite for food, and has little or no life or action from any of the above causes, these Powders, given twice a day, in any way that your horse will take them, will in most cases give substantial and permanent relief, and your animal will be brought back to what he should be.

Have you a severe wrench or sprain? Have you rheumatism in any form? Have you stiff neck, or bunches caused by rheumatic pains? If so, "Johnson's Anodyne Liniment" is a specific remedy, and is also the best pain killer in the world.

We often see large stocks of cattle which do not seem to thrive, and come out "spring poor," all for want of something to start them in the right direction. One dollar's worth of "Sheridan's Cavalry Condition Powders," given to such a stock occasionally during the winter, would be worth more than an extra half ton of hay.

Mason & Hoadly's Method for the Piano-Forte.

A NEW WORK which has been thoroughly tested in private teaching, and which has proved to be of the highest value to instructors, furnishing the necessary material to train pupils in the most thorough manner. Adapted to those who would become masters of the instrument, and to such as aim at only moderate proficiency, it is superior as a self-instructor. Containing the ACCENT EXERCISES invented by Mr. Mason, and found in no other work.

By WM. MASON and E. S. HOADLY.

Price, with either American or Foreign Fingering, $4.00. Sent postage paid on receipt of price.
