

SAINT JOHN, AUGUST 19, 1870.

Is Bismarck-Gladstone styles the present war "a wicked and senseless one," which indicates clearly his opinion of it. A writer in the *Central Christian Advocate* says "stinginess is considered as a small sin; but it is a very mean one." The ferry boat—"Fred. Leavitt," which is to run between Grandville and Amnapolis (the first), receives her boiler from the establishment of Messrs. Flemings, of this city. James Gordon Bennett, Jr., lost \$23,000 on his yacht "Dauntless," against the "Cambria." (When will the folly of man cease?) Other large sums exchanged hands by that trial of speed. Acadia College opens on the 1st September. Dr. Crawley gives the opening address. Newspaper readers should be on their guard how they receive unreasonable items of news by telegraph and otherwise, especially at this time, when there is so much to excite. Better to hear from both sides before deciding as to its truth. The great Protestant Conference of the Brangelical Alliance has been postponed on account of the war in Europe. The crops, with the exception of hay, will be an average in this Province. The hay crop is good on the low grounds. The Common Council has purchased the Commercial Bank building at \$23,000. Ensign Hart won the medal at the York Co. Rifle Competition—making 52 points. The Wesleyan Sabbath School of Fredericton held a picnic on Thursday, at "Tree-Tree Creek," not far from Fredericton Junction. Gov. Wilnot and lady have returned to Fredericton after a number of days' absence. The Exhibition Building at Fredericton is nearly ready for the approaching Exhibition.

The Rev. Dr. Taylor preached in the Centenary Church on Sunday morning, on "The Ascension of Christ, and its importance to the Christian." He took his text from the 6th Psalm, 18th verse. "Thou hast ascended upon high, Thou hast received gifts for men, etc." His introduction was a glowing description of the occasion of the composition of the Psalm, and incidents in connection with the removal of the Ark from Philistia to Jerusalem. The picture he drew of David and all Israel going out to bring the Ark from the house of Obededom at Kirjath Jearim to the tabernacle on Mount Zion, chanting as they went this noble Psalm to the accompaniment of harp and organ, and the music, was exceedingly fine and well rendered. He then turned to the life and teachings of Jesus, tracing the unfolding of the gospel in a clear and lucid manner. He then followed our Saviour to the cross and to the tomb, showing as he passed along the incidents of the life and death of our Lord, and the resurrection. He then came to his subject proper, the ascension and its results, treating his subject in a style that chained the attention throughout. The whole sermon, which occupied an hour in delivery, was full of reminiscences of personal travel in the Holy Land, and thereby more fully brought home to the hearts and minds of the people.—News.

THE NEW HOTEL.—The contract for building the new hotel has been awarded to Mr. William Causey, of this city, at \$24,200, this being the lowest bid. There was a tender from an American firm for precisely the same amount. The work to be done under this contract will be the building ready for letting, and will be all complete before winter sets in.—Globe.

The news informs us that "a competent surveying party is now engaged on behalf of the Dominion Government in examining the narrow neck of land separating the Bay of Fundy from the Gulf of St. Lawrence, to ascertain the best practicable route for the construction of a Canal across the isthmus." This Canal has been long spoken of as a necessity. The Dominion Government having taken hold of it, we trust it will be pushed forward to a speedy completion.

The Globe states that the arrangements have been finally completed for the construction of the Carleton Place Branch Railway. Mr. Burpee is to build the road, and expects to have it finished by February next. The Western Extension Company guarantee the performance of the work, and 3 per cent is to be guaranteed on the \$40,000 public stock. The Branch Company pay for land damages, and build for Mr. Burpee the Sand Point wharf.—Freeman.

The St. John crew will leave St. John for Lachine on Wednesday. Mr. Burpee is to build the road, and expects to have it finished by February next. The Western Extension Company guarantee the performance of the work, and 3 per cent is to be guaranteed on the \$40,000 public stock. The Branch Company pay for land damages, and build for Mr. Burpee the Sand Point wharf.—Freeman.

SUDDEN DEATH OF A BARIST.—Thomas Bartlett Abbott, Esq., a well-known member of the Bar in Charlotte County, died suddenly at his residence in St. Stephen, on Sunday last, and was buried on Tuesday. He was a gentleman of many excellent qualities, and is regretted as a kind and genial friend. He leaves no family.—Id.

DEATH OF A FORMER CITIZEN OF ST. JOHN.—Mr. J. S. Turner has received the sad intelligence of the death of his brother, Mr. David W. Turner, formerly agent of the Eastern Express Company in this city. He was drowned at New Zealand, on the 27th May, last, by the upsetting of a collier—of which he was master—while endeavouring to make harbor.—Id.

THE FISHERIES.—The steaming steamer "Gulman," from the Straits of Belle Isle, reports the fishery in the Straits to have been very successful. At Blanc Sablon they have already caught two-thirds of the entire catch of last year. 300 quintals were landed on the 20th ult. by 20 boats.—St. John's N. E. Telegraph.

The Sch. "Glad Tidings," from west coast of Labrador, reports codfish in abundance, and vessels there are fast competing for fish.—Id.

We noticed about five tons of iron railing being shipped on board the *Myrtle* Zie, for St. Stephen yesterday. It was manufactured, we understand, by Mr. Wm. E. Everett, who is gaining so great a reputation for his ornamental iron work.—Tel.

SUDDEN DEATH.—Mr. Richard English, who has been for some time connected with the management of the "Watson" House, at St. Stephen, was found dead in his bed at that place on Sunday morning. An inquest was held the same day.—Id.

THE GREATEST SALT DISCOVERY IN NORTH AMERICA.—The salt strike, in the Seaford well is unparalleled in the North American Continent. At the time of going to press, the tools are working in so deep a depth of over 100 feet, and no signs of being nearly through. The water is pure and clear, and the sand pump, over a bushel of beautiful, pure and clear crystals of rock salt is brought up. The material is got upon the ground for the boiling blocks and we are looking forward to the time when St. John will be the great salt centre of the world.—Huron Reporter.

PARIS, Aug. 12.—Communication with Strasburg is interrupted. The Prussians are massed around the city. The Emperor is at Metz. Paris is tranquil; there is no important disturbance here, though turbulent groups continually form. The Corps Legislatif is still surrounded by troops including four thousand regulars, Cuirassiers and marines, supported by the Paris Guard and National Guard.

No one is allowed to pass without a permit, and even members with difficulty make their way. Several have been stopped.

The Starbuck fight was more demoralizing to the French than it has been supposed. The pursuers found arms and equipments on the road with millions of francs.

The pieces of the Empress have left Paris.

The Corps Legislatif is still surrounded by troops, including four thousand regulars, Cuirassiers and marines supported by the Paris garde and National guard. No one is allowed to pass without a permit, and even members with difficulty make their way, several having been stopped.

LONDON, Aug. 13.—The English Parliament, yesterday, the new treaties for the preservation of Belgium neutrality were read and received with satisfaction. LONDON, Aug. 13.—The Berlin correspondent of the Times writes that England has declined to join with Austria in the League proposed by Von Bismarck, anticipating the belligerents against loss of territory.

England's reason for declining is that the League could not save the North German Confederacy in case Prussia should be defeated.

LONDON, Aug. 14.—A special despatch from Haguenau dated 13th inst. says that McMahon's army evacuated Nancy yesterday, on the approach of the Crown Prince's army, and retreated across the Moselle to the fortress of Toul.

"Longueville, Aug. 14.—The army commenced to cross to the left bank of the Moselle this morning. Our advance guard had no knowledge of the presence of any force of the enemy. When half of our army had crossed over the Prussians suddenly attacked us in great force, but after a fight of four hours they were repulsed with great loss to them." (Signed) "NAPOLEON."

"Herry, Aug. 15.—Our armies have proved victorious in a great battle which has just been fought before Metz. Our 1st and 7th army corps were engaged in the fight, behaving gallantly. I have received no further details of the conflict. I proceed at once to the battle field." (Signed) "WILLIAM."

PARIS, Aug. 15.—An official despatch states that the corps of Generals Limbourt and Decaen were engaged in the Metz yesterday. Marshal Bazaine was present. The enemy was repulsed after four hours' fighting. The troops are in fine condition. Revolutionary movements of a formidable character have recently occurred in Italy as well as Spain. Proclamations establishing Republics in both countries are hourly expected.

Prince Murat, who was with Marshal McMahon in the battle of Werth, has brought his family to England, and returned to the front.

"Herry, Aug. 15.—I have just returned from the battle-field near Metz. The advance of the 7th corps attacked the enemy, who were instantly routed from the fortress. The 3rd division and part of the 14th sustained the advance. The conflict was desperate, involving the entire line. The enemy was repulsed at all points, pressed to the glasses of the detached works near the fortress, which enabled the Prussians to give shelter to their wounded. Our wounded were instantly cared for. By day-break the troops had returned to their first bivouacs.

They all fought with incredible and formidable energy. I have among them, and I congratulate them with all my heart, I have spoken of Generals Steinmetz, Bastrow, Mantouillet and Goeblen.

Dr. Wilson's Pulmonary Cherry Balm combines both tonic and expectorant powers in a high degree. By the former term its ability to prevent weakness is understood, and by the latter its capability to cast off all noxious matter. With this remedy at hand, no invalid need be at fault to keep himself from the contagion of the air, and the various ailments of the alimentary canal constantly recurring in our variable climate.

Sprains, Stiffness of the Joints, &c., of the most formidable character have been cured by Dr. Dow's Stearns Oil Liniment. Rheumatic Pains which have proved incurable by any other known embrocation have yielded under the stimulus of this liniment. The power of this remedy enables it to cope with all external pains, to cure, at least to relieve, martyrs to Rheumatism.

Clark's Derby Condition Powders are now extensively used, and as far as we can learn, with universal satisfaction.

Great harm and discomfort is caused by the use of purgatives which gripe and rack the system. "Purgative Pills" are free from all impure matter, and are mild and health giving in their operation.

At this season of the year, cramps and pains in the stomach and bowels, dysentery, diarrhoea, &c., are quite common, and should be checked at once. *Johnson's Anodyne Liniment* is the best article that can be used in all such cases, and should be kept in every family.
