In conclusion, I am to express Her Majesty's satisfaction at the assurance of the continued loyalty and attachment of the people of Nova Scotia, and her confident expectation that further experience of the results of the Union with her other North American Dominions will remove the apprehensions which are entertained by the Assembly, and will prove that in assenting to this Union the Imperial Parliament has laid the foundation of a great prosperous community, in which Nova Scotia will exercise the influence justly due to the vigor of its inhabitants and to the important maritime position of its territory.

I have, &c.,

(Signed) KIMBERLEY.

Governor General, the Right Hon.
Sir John Young, Bart.

The trade in quarrying grindstones is increasing rapidly in Nova Scotia. Within a few years back there was nothing heard of this enterprise, but this season one firm at Minudie employs sixty men and will ship 120 tons of grindstone to the United States where a ready market is found at about $15 per ton. At the Lower Cove quarry one hundred men are employed, and the shipments this season will reach 2,000 tons.

Melancholy Suicide.—William R. Dow, aged 25 years, son of Mr. Alexander Dow, cabinet maker, committed suicide at his father's residence, No. 1 Granville street, yesterday forenoon. He had occasionally manifested symptoms of insanity, but not such as to cause any fear of harm. At breakfast yesterday morning it was noticed that he talked incoherently. About 10 o'clock the report of a pistol was heard, and the family, on going to his room, found him lying dead on the floor, with a pistol shot through his head. Dr. Farrel, coroner, held an inquest in the afternoon, and the jury returned a verdict that the deceased came to his death by a pistol shot fired by his own hand during a fit of insanity.—*Halifax Chronicle.*

It is reported that $150,000 is being raised by subscription in Ontario, as a donation to Sir John A. McDonald.

Butter.—The *Montreal Witness* says that into one town of very small size in Ontario there has been brought lately in one week $40,000 worth of butter, and we were lately informed of a remittance to one produce merchant of $20,000 from an English house for butter alone.

Ottawa, Nov. 16.—The Canal Commissioners were appointed to-day. They are Gzowski and Laidlaw of Toronto, Calvin of Kingston, Hugh Allan of Montreal, Mayor Garneau of Quebec, Stairs of Halifax, and Jardine of St. John. Samuel Keeper C. E., is Secretary to the Commissioners.

The Minister of Customs will probably go to Quebec to meet the River du Loup Railway Delegation.

The Dominion income for the past fiscal year is in excess of the estimate of nearly two millions of dollars.—*News.*

Manitoba.—The following despatch to the New York papers, no doubt, requires to be taken with some grains of allowance, in so far as it relates to political matters:—

Chicago, Ill., Nov. 6.

The Manitoba *News Letter* of the 15th ult., is received. It contains a letter from Victoria, on the Saskatchewan, which says that the small pox is raging with terrible virulence. It has cut off hundreds of people. At Fort Pitt 100 had died, many missionaries have fallen victims, and Blackfoot Indians have suffered at the rate of fifteen per day. The same reports come from other parts of the Territory. The Lieutenant Governor of Manitoba has issued orders for the arrest of Riel, O'Donohue and Lepine, if they enterthe province again, and further instructs Captain Villiers, chief of the force, to shoot them in their tracks if they resist. The *News* adds: "If these murderers again pollute our soil with their unholy presence we are satisfied that the Captain will do his whole duty, and he has the earnest prayers of the whole community that he may soon be able to report his orders executed."

The following is a copy of a despatch to the Toronto *Globe*:

Montreal, Nov. 5.—Negotiations are in progress to establish a bank at Manitoba by the first of January in the Government interest. It is believed the agency will be offered to the Bank of Montreal.

Abundance of Grain in Europe.—It is satisfactory to learn that, notwithstanding the extra demand for grain in Europe, and the disturbance of agricultural industry over a considerable portion of the continent, the supply of grain, including wheat and corn, is quite equal to the demand. Circumstances all point to a continuance of moderate prices on both sides of the Atlantic. A Liverpool journal of the 16th ult. says:

Mr. H. Kaius-Jackson, in reviewing the extent to which the grain trade has been influenced by the war, remarks that there does not exist any scarcity of food. Corn is in abundant European supply, and where it is wanted there are local reasons that keep it from the local demand. The grain ships now estimated on passage are 686, against 609 in 1869, and 482 in 1868; of those 362 are laden with wheat, and 291 with maize. The wants of the countries now at war will be out of all proportion to what they were last year. Happily for Germany, the fine autumn there is very favorable for seeding the land, and no occupation by a foreign army prevents the usual tillage; but in France the area of wheat left uncultivated must be of great extent, and a deficiency will probably result equally large as that which may be set down to direct devastation by French and Prussian troops. Prices should remain moderate, and he thinks they should be from 45s. to 50s. a quarter.

BRITISH AND FOREIGN.

London, Nov 11.—A despatch from Brussels states that well informed political circles are impressed with the belief that a new arrangement for arbitration had been effected by the four neutral powers. Preliminares for the conditions of equitable peace, acceptable alike to France and Prussia, have been concluded. The initiative has already been taken by Prussia for assembling a Congress.

Tours, Nov. 11.—The journals report that the Prussians have lost over 10,000 men, in killed and wounded and 1,800 prisoners in battles around Orleans, and are retreating towards Chartres and Etampes. Troops from Lyons are marching to meet the Prussians.

The Italian volunteers continue to join Garibaldi's command in large numbers.

Lille, Nov. 11.—In view of the anticipated bombardment the military organization here has been made most complete. Orders have been issued to provision the city for six months, the authorities here having profited by the experience of Strasburg and Paris.

London, Nov. 12.—A rupture is reported here between Bismarck and Von Beust.

French reports claim a great victory at Orleans. In this battle the Prussians lost 3,000 men and 100 waggons. The Prussians retreated in great disorder.

Despatches received to-day from the German headquarters at Versaillies announce that Paris will not be bombarded.

The German authorities are convinced that city is so illy provisioned that its surrender may be expected within a month from that cause alone.

London, Nov. 13.—A serious riot occurred at Cork to-day between fifty soldiers, and citizens, in which several soldiers, citizens and police were seriously injured. It was finally quelled by police.

Von Beust arrived at Munich on the 3rd inst, and remained there in conference with the Bevarian Cabinet two days.

The report is reiterated here that the delay in the bombardment of Paris is due to the earnest entreaties of Victoria.

The Russian Minister has read to Granville a letter from Prince Gortshakoff stating that Russia now demands a new modification or the abolition of the provisions signed at the Convention at Paris on the 30th of March, 1858, and articles 11 and 13 in the treaty of Paris, April 27th, 1856.

This declaration on the part of Russia being simultaneously made in London, Constantinople, Vienna and Berlin, is believed here to indicate Russia's readiness to insist on the recognition of her claims by force. The excitement in London to-night is high respecting the designs of Russia.

It is believed that she has a secret understanding with Prussia.

A telegram from Constantinople states that up to this, Sunday morning, the Turkish Government had received no notice of Russia's intention to abrogate the treaty of 1856.

Versailles, Nov. 12.—Gen. Von Der Toun of the 9th repulsed the enemy's attack with great loss to the assailants.—Only then did the Germans retire.

On the 10th a portion of the Bavarian ammunition train, losing its way, fell into the hands of the French.

London, Nov. 14.—The announced intention of Russia to break from former treaties causes a natural distrust throughout Europe and alarm in England.

The Russian designs are more particularly towards Austria.

The secret treaty between Russia and Prussia will prevent the interference of Russia in the French war.

A defensive alliance between Austria and England is probable.

A battle is imminent at Toury. The army of the Loire is advancing on that town from Orleans.

London, Nov. 15.—The parties lately captured from a balloon are still held as prisoners.

At the Council on Monday, Bismarck strenuously advocated the shooting of all captured balloonists.

The notice given that Russia will no longer regard the Treaty of 1856, has caused no little alarm and anxiety in Europe, and especially in England.

The latter power has sent a messenger to Bismarck to know what he intends to do.

Douai, Nov. 12.—A mammoth inundation of the surrounding country commenced yesterday. The scene of the inundation is eleven miles wide, and completely encircles Douai.

Over fifty thousand persons will be made homeless when the inundation is completed.

London, Nov. 14.—The *Pall Mall Gazette* declares that two dangers confront England—the Alabama difficulty and the Eastern question. The circumstance that lifted the latter to great and immediate importance made the former more formidable, because of the increasing paobability of their being a combination.

Russia declares her design to grasp Turkey, and Prussia is ready to connive and even aid her. England is the only power to whom Turkey can look, and she is threatened with annihilation if she lifts a finger.

London, Nov. 15.—Ship *Geneva*, from Liverpool to St. John, N. B., Oct. 8th, is probably lost, as some of the wreck picked up bearing the name "*Geneva*," has been identified as a part of this vessel. She had a crew of twenty-two men, and it is supposed all perished on a reef of rocks in St. Ives Bay, Cornwall.

Havana, Nov. 14.—The Prussian war steamer *Meteor*, three guns and sixty men, and the French corvette *Bouvet*, five guns and eighty men, fought a naval duel off this harbor on the 8th inst., which was witnessed by the Spanish war steamer *Hernando Cortes*, and in which Captain-General DeRodas was umpire. But few shots were fired when the *Bouvet* made unsuccessful attempts to board, and her rigging became entangled, carrying away the main and mizzen masts, and the rigging falling with the masts, became entangled in the *Meteor's* screw. At the same moment the *Meteor* sent a shell into the inside of the *Bouvet* smashing her steam pipes. The *Meteor*, by reason of the disabling of her screw, became unmanageable, and the *Bouvet* finding her quarters hot and capture certain if she waited until the *Meteor* could disentangle herself, set sail rapidly and made for port, the *Meteor* continuing to fire; meanwhile with a fair wind the *Bouvet* was enabled to cross into Spanish water before the *Meteor* could disentangle her screw. At this time the *Cortes* fired a gun as a signal, and the combat closed. The German gunboat was accorded the victory. Both vessels are now in port repairing damages. The *Meteor* had three killed and one wounded, the *Bouvet* had only three wounded.

London, Nov. 15.—Dijon has been recaptured by the French, who after a brilliant engagement drove the Prussians from the city.

The Prussians are retreating north-east along the road leading through the town of Manabeau to Gera.

Prince Frederick Charles has reached the river Youne.

His columns converged at Sens, and he will cross the river to the assistance of Von Der Taun with an army estimated at 100,000 men.

In view of the possible movement of Russia southward the British fleet of observation will be established in the Mediterranean, with Malta as a rendezvous.

Cork, Nov. 15.—A great demonstration of sympathy for the Pope was made here to-night.

The meeting was presided over by the Bishop of the Diocese and addressed by members of Parliament.

Resolutions expressing personal sympathy for the Holy Father, lamenting the destruction of his temporal power as detrimental to peace in Europe and in favor of memorializing her Majesty's Government on the subject, were adopted.

A Florence despatch states that the Quirinal has been entered by the Italian authorities. The keys could not be obtained and they picked the locks. Everything found within was seized.

The seizure of the palace has called forth severe comments from a part of the clerical journals, and these all have been seized and confiscated.

London, Nov. 16.—Stocks and securities of all kinds are lower, and the markets are flat in view of the crisis on the Eastern question.

There is much uneasiness in all circles.

The question of an alliance between England, Austria, Italy and Turkey is discussed on all hands.

Orders have been despatched for the recall of vessels of war from every station, except such as are actually needed in foreign waters.

A large concentration of ships at Portsmouth is already apparent, and the greatest activity prevails in all naval depots of the Kingdom.

A powerful fleet will be immediately dispatched to the Mediterranean.

In the best informed circles it is regarded that in the present pretensions of Russia a general European war is inevitable.

A rupture between England and Russia is looked upon as certain and imminent. It is believed that Prussia is in close alliance with Russia against the rest of of Europe.

For Spain a civil war is imminent, growing out of the throne question.

New York, Nov. 12.—The U. S. State Department has been informed that Russia will no longer regard the treaty of 1856, and has informed Napoleon's Minister who has just arrived in New York, that his credentials will not be regarded.

How True and how strange, that people should seek relief in the hieroglyphics of a doctor's prescription when they can buy as good, and nine times out of ten a better remedy than most doctors give, for the insignificant sum of 25 cents. We refer to Morse's Indian Root Pills, these pills cure Headache, Liver Complaint, Indigestion, Female Irregularities, and all bilious disorders, they are prepared from a formula pronounced by the most learned Physicans of our country to be the best and most universal of family medicines. Give them a fair trial and you will never be without Morse's Indian Root Pills. Sold by all dealers.

In numbers there is safety, it is upon this principle that the formula of Johnson's Mountain Herb Pills was prepared. It was not the result of one man's knowledge. Dr. Judson, intending to spend a fortune in advertising his Pills, consulted the most intelligent and learned physicans of the age, and the result was the production of a simple but efficacious medicine the Judson's Mountain Herb Pills. These pills cure Biliousness, Dyspepsia, Liver complaint, Indigestion, Female Irregularities, &c. They have now been used many years by the Public, and thousands of testimonials bear witness to their virtues. As a family medicine they are unrivalled. Give the Mountain Herb Pills a trial. Sold by all dealers.

Messrs. B. L. Judson & Co.

Gents: It is with great pleasure I write these few lines, not only as a recommendation, but as I feel a very great benefit derived from taking your Worm Candy (Dead Shot). I have suffered much for 10 years past, tried many medicines, been under treatment of physicians in this city, but all to no avail. I felt a gnawing sensation in my bowels, sleepless nights, and very nervous. I have now taken about ten sticks, and quite a number of tape worms, one several yards long, has come from me. I continue taking it, feeling quite a new man, my sensations quite different; and I recommend the same to the community at large, feeling confident, from practical experience, it is the best eradicator of worms in use.

Yours most respectfully,
DAVID GALER.

Have you a severe wrench or sprain? Have you rheumatism in any form? Have you a stiff neck, or bunches caused by rheumatic pains? If so, "Johnson's Anodyne Liniment;" is a specific remedy, and is also the best pain killer in the world.

We often see large stocks of cattle which do not seem to thrive, and come out "spring poor," all for the want of something to start them in the right direction. One dollar's worth of "Sheridan's Cavalry Condition Powders given to such a stock occasionally during the winter, would be worth more than an extra half ton of hay.

Low Temperature.—Cold and damps are the frequent cause of ailments which prove exceedingly troublesome, though rarely dangerous if not neglected. A cold in the head, throat, or chest may be safely stopped and quickly cured by means of Dr. Wilson's Pulmonary Cherry Balsam. This Balsam exercises the highest salutary effect on the mucous, vascular, and secretory systems, which colds always disarrange. The phlegm, cough, shortness of breath gradually disappear under the use of this remedy, and the strength and vigor of the constitution is not diminished, but rather increased by the use of this Balsam.

Acidity of the Stomach.—Dr. Wilson's Anti-Bilious and Preserving Pills are a most powerful and certain remedy for the correction of those acidities, whether induced by debility, from fat substances in the stomach, or impaired by excess. The torpid functions are stimulated, the blood cleansed, and the secretions of the bile and liver purified.

Dr. Dow's Sturgeon Oil Liniment is a most efficient remedy for external diseases and complaints incidental to horses and cattle. It cannot be too strongly recommended for its beneficial effects, and is safely and successfully used in all cases.

We do not mean to say that Clark's Derby Condition Powders cure every disease, and supply the place of good wholesome food and kindly treatment; but we do say that if a horse, with fair treatment and good food, still fails in appetite for food, and has little or no life or action from any of the above causes, these Powders given twice a day, in any way that your horse will take them, will in most cases give substantial and permanent relief, and your animal will be brought back to what he should be.

DEATHS.

At Fairville, on the 30th ult., Lizzie, beloved wife of Frank Connor, and second daughter of S. T. and A. J. Thompson, of Woodstock, aged 22 years and 7 months. Although the deceased had been but a short time a resident of Fairville, she had, by her affectionate disposition, amiability and moral worth, endeared herself to a large circle of devoted friends, who keenly feel their bereavement, and by their kind attention and sympathy manifest most unmistakably how deeply they loved her. Her death, which was both sudden and unexpected, has plunged into the deepest grief a devoted husband, whose highest ambition and most earnest effort was to secure her happiness —a husband whose affectionate regard rendered every service a pleasure and every sacrifice a joy, if it but conduced to her welfare—brothers and sisters, to whom she was almost an idol, such was their passionate fondness—and a large circle of relatives and friends, who knew her but to love her. Her remains were conveyed to Woodstock for interment; and a sermon was preached on the occasion, by Rev. J. T. Parsons, of St. John, from Rev. xxi. 4. May the kind Father mercifully sustain the afflicted friends under their crushing bereavement in our prayer.—Com.

[Halifax Wesleyan will please copy.]

At Kars, King's County, on the 6th inst., after a long and tedious illness, which he bore with christian fortitude, Mr. Aaron Price, in the sixty-eighth year of his age. His end was peace.

At Upper Northampton, on the 7th inst, after a short sickness, Mrs. Esther Jane, beloved wife of Mr. Davis Phillip, aged 59 years.

At Marshall, Wisconsin, on the 14th ult., after a lingering and painful illness which she bore with christian fortitude and resignation to the will of her Saviour, Georgiana Johnson, wife of Chas. E. Bell, aged 45 years.

Asleep in Jesus, blessed sleep,
From which none ever wake to weep;
A calm and undisturbed repose,
Unbroken by the last of foes.

Land and Building Society

AND

SAVINGS FUND.

Established under Special Act of Assembly, 10th Vic., Ch. 83.

IN SHARES OF $50 EACH.

The objects contemplated in the formation of this Society are three-fold, viz.: First—To secure to Stockholders a profitable return on their gradually accumulating capital, by its safe and judicious investment on real estate. Second—To afford to Borrowers facilities for raising legitimate Loans upon the security of their property, and to enable them to repay such loans by periodical instalments spread over a period of ten years. And, Third—To provide all the advantages of a tho
