

THE RELIGIOUS INTELLIGENCER.

To CORRESPONDENTS.—S. M. G.—We have changed the number of Mordecai Starkey's paper, according to your statement. He is now credited to \$48, May 1870.

"THOMAS DAVIS."—We have made the correction to which you referred.

"J. S."—Dear Rier.—We do not know how the mistake you write of, could have occurred; we are willing, however, to accept your statement of the matter, and enter the number accordingly.

"D. J. H."—The number to which you have paid, is \$56. The number on the wrapper was probably put on hurriedly, and hence the error.

"A letter from Rev. A. Taylor next week."

THE NEWS and THE PRESS.

JANUARY 7, 1870.

WOODSTOCK AND RIVIERE DU LOUP RAILWAY.—The necessity for the construction of this line, is receiving some considerable attention. Alfred Whitehead, Esq., a most reliable gentleman, and who has a practical knowledge of Railways, is interesting himself in the matter. We believe the speedy construction of the proposed line important, and we hope to know very soon that means have been adopted that will insure success. The Telegraph says:

"It is understood that the government of New Brunswick at its late sittings, passed an order authorizing negotiations to be entered into with the government of Quebec, with a view of extending the lines of Railroad from Woodstock and Riviere du Loup, respectively to effect a junction at no distant day.

ROME, Dec. 31.—The session of the Ecclesiastical Council yesterday lasted five hours. The subject under discussion was "Whether philosophy was

to be admitted to be a science?" The answer was in the negative.

London, Jan. 2.—The damages by the recent floods in England and Wales are estimated at £500,000; in some sections the lowlands are unfit for use until spring.

On New Year's day the Emperor of the French received the members of the diplomatic corps. In answer to the usual address he returned his thanks, and said that the presence of all the Foreign representatives was a proof of the friendly relations existing between their respective Governments and France.

The speech of the Emperor at 3 p.m. on New Year's day was as follows:

"The Emperor of the French—A Mrs. Fleming, residing in the City, in company with her husband started to drive to Milkish on New Year's day for the purpose of attending the funeral of Mr. Fleming's father. They intended going by way of Gondola Point, and at the Seven Mile House the mother put the child to the breast and wrapping it up carefully proceeded toward the Nine Mile House. Arriving there and uncovering the child it was found quite dead. There is little doubt, that having been pressed in the mother's arms, the little one was smothered. It was a very sad accident, and will doubtless afford a useful lesson to mothers who are obliged to take their children but during the winter.—Tel.

SAFETY DEATH OF THE HARBOR FISHERY LOTS.

The East Side Fisher Lots were sold on Tuesday afternoon by Mr. Stewart. Those of Navy Island have been divided according to the new system into large or Weir Lots, instead of the small ones as formerly. It will be remembered that the sum realized for these lots, though they are called East Side lots, does not all go into the East Side fund, one third being appropriated to that of the West side. They were sold by number, as follows:

No. 1. James Wilson,	\$485
2. James Wilson,	705
3. City,

5. W. W. Leyden,	465
6. James Wilson,	143
7. W. D. Duham,	705

WEST SIDE.

The West Side Lots, comprised in the two plans, known as the Shore plan and Flats plan, were sold by Messrs. Hubbard & Wakefield, in the afternoon. Those on the Shore Plan brought \$420.55 in all. The most important of these sold for \$200 to John S. Wilmet.

The Flats Lots realized \$2251.40, of these 12, from A. L. were sold to Mr. John Christopher for \$469. 40. The others were sold as follows:

manner in Canada would be a felony or misdemeanor, then the taking of such property there, or having it in possession with a knowledge of its being unlawfully obtained, shall be an offence of the same nature and punishable in the same manner as if the stealing or unlawful obtainment had taken place in Canada.

BRITISH AND FOREIGN.

LONDON, Dec. 30.—The amount of specie in the vaults of the Bank of England has decreased £37,000 since Dec. 23.

The receipts of wheat from America are still very heavy. There is a great accumulation of wheat both here and at Liverpool. The *Statistical Journal* of this city says, there are now seventy-four more vessels at sea bound to England than at the corresponding port last year.

LONDON, Dec. 31.—Heavy gales have prevailed all around the coast the last few days. Many shipwrecks attended in some instances with loss of life have been reported. Barque *Edwin Burks*, from Montreal for Quebec, was driven ashore on the coast of Ireland. The captain and seven of the crew were drowned. The vessel will be a total loss.

LIMERICK, Dec. 31.—A vessel from the north west occurred here to day. Tires were uprooted, chimney thrown down, and, in some instances, houses prostrated. Ten persons are known to have lost their lives, and many others have been badly injured.

PARIS, Dec. 31.—The trial of Traupmann for the murder of the King family terminated in his conviction and sentence of death. When the verdict was announced the prisoner rose, and smilingly thanked the Court.

ROME, Dec. 31.—The session of the Ecclesiastical Council yesterday lasted five hours. The subject under discussion was "Whether philosophy was to be admitted to be a science?" The answer was in the negative. It is evident, however, from the nature of the cause, that if the negotiations succeed, a convention at some point, with our present railroad system, would be formed.

SIXTY DEATHS OF A CURTIS.—A Mrs. Fleming, residing in the City, in company with her husband started to drive to Milkish on New Year's day for the purpose of attending the funeral of Mr. Fleming's father. SAFETY DEATH OF THE HARBOR FISHERY LOTS.

The Times says the Emperor promised new liberties and that French libertines are already irreconcilable with the pretensions of Rome.

In Paris, the Emperor's speech and the formation of a new ministry had an unusually favorable effect in monetary circles.

LONDON, Jan. 4.—A Madrid despatch of to day says a London address he returned his thanks, and said that the presence of all the Foreign representatives was a proof of the friendly relations existing between their respective Governments and France.
