ACCIDENT.—About eight o'clock on Monday an accident occurred at Roberts's shipyard, Straight Shore, by which two men sustained severe injuries. It seems that John Grady and John Doherty, ship-carpenters, were at work on a staging around a vessel building in the yard, when through some defects in the posts, the platform gave way, precipitating the two men to the ground, a distance of twenty-five or thirty feet, where they fell upon a quantity of logs. Some of the staging also fell upon them. When brought to their feet it was found that Grady was dangerously injured. His face was split from the forehead to the chin, and the skin was almost completely off his hands and arms; and his body in every part was bruised. His internal injuries, also, are severe, and doubts were expressed as to whether he could live. He was taken to his home in Portland, and attended by Dr. Christie. The other man's (Doherty) injuries were not as serious as that of his comrade, but he was throwing up blood after the accident.—*Globe.*

LAMENTABLE DEATHS FROM YELLOW FEVER.—The schooner *S. V. Nichols* left Havana 30th July, arrived in Boston 11th August. Lost the captain and two men, with yellow fever: The steward, named John Carpenter, died and was buried in Havana. Captain Holder died four days out from Havana, and was buried at sea. Robert Nash, a native of Nova Scotia, died and was buried in Holmes Hole. Captain Holder was a young man and respected by all who knew him. He leaves a wife and five small children to mourn their bereavement. —*Tel.*

MORE FIRES.—A despatch from St. Andrews, received on Wednesday, states that a fire broke out yesterday in the woods at Bocabec, and was buring furiously.—*Tel.*

The revenue of Newfoundland, this year, is set down by our correspondent at $800,000, a large increase on last year, and a very large revenue for so small a population.—*Ib.*

THE ST. JOHN CREW, accompanied by Charles Potter, Esq., and Dr. Walker, were amongst the passengers by the *New England* on Wednesday, bound for Lachine. They are in good health and spirits, and will, no doubt, give a good account of themselves.

FIRE AT EEL RIVER.—We hear that the large mill owned by Messrs. Murchie & Sons at Eel River was burned down on Monday last. The Mill was valued at $10,000. No insurance.—*St. Stephen Times.*

THE CROPS.—The *Carleton Sentinel* says:—"The prospect is very flattering, notwithstanding the meagre return from the hay fields. Grain of all kinds, but more particuarly that which was sowed late, is ripening with heavy head and full kernel. Wheat promises to be unusually good. Barley, oats and buckwheat will, we should judge, be quite up to good average. Corn will give a heavy yield in situations favorable for its growth. Potatoes are growing rapidly, and almost grinning through the soil, such is their quantity in the hills and the exuberance of their increasing size.

On the whole, except in those localities, and they fortunately are of limited extent, where the hail storm devastated the farmers in this County may look forward with elate assurance, there being no providential dispensation to change the present promise, to a large and generous return from the harvest of 1870.

RAILWAY ACCIDENT IN NOVA SCOTIA.—The local train from Annapolis on Saturday met with a mishap near Grand Pre, which detained the Express train at Newport, making the passengers for the *Empress* behind time. The piston of the engine of the local train broke, and the Conductor had to take horse to Wolfville and telegraph for another engine. The express train had, of course, to wait for the other to get out of the way.—*Telegraph.*

COPPER MINES, ALBERT COUNTY.—An Alma, A. C., correspondent informs the *Moncton Times* that the Copper Mines there are turning out well. He says that the mine in charge of Mr. Waters is exceedingly rich, and that abundance of copper is obtained from that under the control of Mr. Garrett. Mr. G. has only ten men employed at present, but more will be added shortly. He has a shaft sunk about sixty feet.

CASE OF CHILD-MURDER.—At Woodstock, on the 15th inst., an inquest was held before Coroner Connell, on the body of child found in a trunk in the room of Mrs. Catherine Mannel, a widow. A cord was found fastened round the infant's neck, and this, and the mother's confession, led the Jury to bring in a verdict "that the child came to its death by strangulation at the hands of its mother." The motive stated by the mother to have actuated her when she made the confession, was to avoid the shame and disgrace to her late husband's friends; she said she had contemplated suicide, and did not know what was the matter with her, but believed she had lost what little brains she formerly had.

BRITISH AND FOREIGN.

LONDON, Aug. 19.—A Paris despatch just received says there is no later news from the front. Prussia has refused to grant an armistice, and will listen to no offers of peace except from Paris. Nineteen Prussian spies have been executed and more arrested. Later reports of the Battle of Mars La Tour, show that the loss on both sides was very heavy. Some accounts say 40,000. Prince Albert, nephew of King William, and Generals Wideland and Doering were among the Prussian commanders killed. Several French officers of rank were also killed.

The Pope has written to King William and Napoleon, tendering mediation, which is declined.

LONDON, Aug. 20.—A great battle was fought on Thursday. The Prussian forces, commanded by King William in person, encountered the French army a little west of Metz, and after an obstinate struggle, which lasted nearly ten hours, succeeded in driving the French from their chosen position.

The position of the French was exceedingly strong, and they fought with desperate courage throughout, but were at length compelled to retire before the victorious Prussians.

The defeat of the French was most complete, and it is known that the army at the present moment is frightfully demoralized.

Paris this morning is fearfully excited over the news received from the army.

The flight of M. Ollivier is now fully confirmed.

The family of Prince Napoleon, with all their valuables, have left for Switzerland.

The environs of Paris are to be laid waste; and the inhabitants of the adjoining country allowed to enter with provisions without payment of the city tolls.

The following is the official despatch of King William, dated at Bezonville, Thursday evening:

"We have defeated the French, under Marshal Bazaine, after a battle which lasted ten hours. There were 40,000 killed and wounded. The garrison were taken prisoners. I commanded. The defeat of the French was complete.

(Signed) KING WILLIAM."

All private despatches to the Bankers agree precisely in terms regarding the victory of the Prussians.

BRUSSELS, Aug. 20.—The *Etoile Belge* has posted an extra announcing that the Emperor Napoleon was taken extremely ill on Wednesday on his arrival at Chalons, and that it is intimated that he contemplates abdication.

LONDON, Aug. 21.—Advices from Berlin reiterate the Prussian victory on Thursday, near Rezonville, while in Paris the victory is claimed by the French.

There appears to be no doubt but the French have met with a series of reverses, and that a Prussian advance on Paris is imminent.

CARLSRHUE, Aug. 21.—Strasbourg is in flames. The French have fired the surrounding villages. They make frequent sorties, which are constantly repulsed. Eight thousand Prussians have arrived with a train of heavy siege artillery, and the city is surrounded by 300,000 men under Gen. Herder. The inhabitants are demoralized, and disorder everywhere prevails; and surrender is hourly expected. The Crown Prince has won another victory in a great battle before Chalons. The Prussians are victorious everywhere, and the French defeat is complete.

The 1866 cable, which was broken some months ago, was repaired yesterday afternoon. The signals are perfect, and messages are now passing freely both ways.

A dreadful colliery explosion has occurred at Wigan, in Lancashire. Over thirty persons were killed and many injured.

LONDON, Aug 22.—At the battle of Gravolette the losses of the Prussians greatly exceeded the French, the former losing 40,000 on Thursday alone, Steinmetz whole corps being literally cut to pieces, and his magnificent cavalry no longer exists.

A Paris correspondent says of the situation: I believe that the incessant combats of the last seven days have been favourable to us, but that they have not yet brought about decisive results. One fact is certain that the army of the Prince Royal of Prussia continues its march on Paris. Yesterday it was at Vitry le Francais, and if we may believe the reports that reach the Corps Legislatif, it has the appearance of moving to turn the camp of Chalons and fall upon the Capital

The Emperor and McMahon are at Chalons.

The armament of the National Guard is complete Yesterday 50,000 guns were distributed, and M. Chavreau declared to the Chambers that in a few days 100,000 National Guards would be under arms.

Grain is arriving in great quantities. The city is provisioned for more than eight months. All this certainly indicates that if we are threatened with a siege we are certainly prepared to sustain it.

The people of Paris are in excellent spirits, and full of patriotism.

LONDON, Aug. 22.—All reliable advices from the seat of war show that the Germans are seeking to surround Bazaine and prevent re-enforcements from Paris from joining him.

A despatch from Mezieres dated to-day, says, the loss of the Prussians in the last battle was fearful, more than 40,000 wounded remained on the battle field without assistance.

The English Government is in constant communication with the great Powers, on the demands made by Prussia for the cession of Alsace and Lorraine.

A Cabinet Minister said, to-day, that these demands meant a European War, as neither England nor Russia dared for a moment accede to them.

Italy is putting her army on a war footing and a special envoy is expected at once in London.

PARIS, Aug. 22—Nothing further has been received from the front.

The confidence in the ultimate success of the military movements now in progress is increasing here.

Gold, which a few days ago, was selling at a premium of 50 per cent, is now quoted at 1½ per cent.

At the Ministry of the Interior to night, it was announced that no definite news would be received from the army for some days to come, it being withheld for prudent reasons.

LONDON, Aug. 23.—A special Paris despatch says that the armies of King William and Steinmetz are reported to be too severely crippled to assume the offensive, and it is given out, on high authority that Bazaine was reinforced on Sunday from Chalons for the purpose of giving battle to the enemy near Metz.

He is confident of victory, when he will march on the army of the Crown Prince, and rescue Paris.

The Paris correspondent of the London *Standard* telegraphs that Bazaine has succeeded in cutting through the Prussian line and retreating on Montmedy by way of Auderm and Longinjou.

Count Palikao stated to the Corps Legislatif yesterday that he was in receipt of good news from Marshal Bazaine, and that the confidence of the government in that officer was not in the least impaired.

The French loan of 750,000,000 francs has been more than taken.

LONDON, August 23.—The following has just been received from Alexandria: "The Prussian frigate *Hertha*, 28 guns has been captured by the French. No particulars."

PARIS, Aug. 23.—*La Presse* extra makes the following statement: "We are now at liberty to make known the fact McMahon has joined Bazaine with a great number of troops." Bazaine has not abandoned his strong position near Metz. McMahon moved north and France is saved. By way of Rheims, Mezeirs and Montmedy, McMahon has reached a position where he can enter upon the decisive struggle.

Le Public says: "A full confirmation of the good news from the army was received to-day."

LONDON, Aug. 23.—The junction of McMahon and Bazaine is confirmed to-night from various sources.

Creditable authorities state that Steinmetz and Frederic Charles lost over 100,000 men, leaving them no more than 150,000 to hold the line from the frontier to Metz.

The feeling in Berlin is of undeniable horror and depression.

The war threatens to last, and already the flower of North Germany is decimated.

The railways are taken up with the wounded so as to delay the movement of reinforcements.

Boat service is organizing on the Rhine for the wounded, and three steamers are already converted into floating hospitals.

The amphitheatre and Episcopal Palace at Treves have been taken for hospitals.

LONDON, Aug. 24.—The following despatch from Paris contains the very latest intelligence from seat of war. Metz is entirely isolated. The Prussians are strong in the West. In that vicinity General Failly who was in command at Chalons is still there, but by a new disposition is suspended.

General McMahon is strongly posted on the plains before Chalons, with heavy detachments at St. Menehould, Vernun, and Rheims. He has 175,000 men under his command, well supplied with food, ammunition and artillery.

Sharp shooters are hastening to Chalons.

It is said Gen. Trochu, Governor of Paris, will soon invite the Orleans Princes to aid in the defence of France.

The Paris press says ambassadors from Russia, Italy and Austria, in reply to their offers to negotiate peace, have been officially informed that peace is impossible as long as a single Prussian soldier remains on French soil.

News of a French victory at present would cause a panic in London markets.

UNITED STATES.

NEW YORK, Aug. 12.—President Grant to-day issued a proclamation enjoining the observance of strict neutrality on the part of American citizens.

NEW YORK, Aug. 23.—A dispatch from Ottawa says the fires are still burning in the woods.

The distress and suffering are incalculable.

The Governor General's residence is in danger.

The mills are closed and all hands are fighting the fire.

NEW YORK, 24.—Gold 117¼.

A great many people have asked us of late, "How do you keep your horse looking so sleek and glossy?" We tell them, it's the easiest thing in the world; give "Sheridan's Cavalry Condition Powders" two or three times a week.

A gentleman in the eastern part of the state, who was about having his leg amputated on account of its being bent at right angles and stiff at the knee, heard of "Johnson's Anodyne Liniment." After using it a short time, his leg became straight, and is now as serviceable as the other.

MOMENTOUS ENQUIRY.—No diseases are more trying to the temper or more exhausting to the constitution than diseases of the pulmonary organs, brought about often, but not always from exposure to wet and cold. Whenever we feel the first symptoms of a cough it will only be necessary to take Dr. Wilson's Pulmonary Cherry Balsam to obtain immediate ease. All lung complaints are speedily removed and cured by the use of this unequalled remedy. Whenever persons subject to pulmonary disorders feel exhausted or out of sorts, they should immediately resort to this wonderful restorative. All tender chested persons will save endless misery by adopting this treatment.

Dr. Wilson's Family Anti-Bilious Pills are the best medicines now on sale in this city, the ingredients of which are so uninjurious that they cannot harm the most delicate constitution. They are compounded entirely of medicinal herbs. They are the production of a doctor who has made it his study to alleviate the ills to which the human family are all liable. They must therefore be hailed with delight as supplying a want long felt in this country.

It is a rare thing for any physician to prepare or countenance a medicine the manufacture of which is kept secret. The only exception we know of is Dr. Dow's Sturgeon Oil Liniment. This we believe they all endorse from their confidence in the inventor and from the virtues of the article itself, and many of them use it in their practice with the greatest success.

Extract of a letter from a respectable druggist, ordering a quantity of the celebrated Clark's Derby Condition Powders. "I must say the Derby Condition Powders are the best horse medicine I ever sold; at any rate they give general satisfaction, which I consider the best evidence of their excellence. I am the first person who introduced them here, and they take well. I think I shall be able to sell a large quantity the coming fall and winter. I can send you numerous certificates regarding their effect if you desire it."
