large an expedition. He reports Riel ready to receive Government Archibald, turn over the government to him, and retire into private life.

This action probably ends the celebrated Red River revolution, and it is believed that on the arrival of Bishop Tache at Ottawa, a considerable portion of the military expedition now floundering n the swamps near Fort William, on Lake Superior will be recalled.

The Dominion Arbitrators in session at Montreal have come to a dead lock. Judge Day, Arbitrator for Quebec, has tendered his resignation, being unable to agree with the

other Arbitrators, on the proposed award.

It is believed his resignation will be accepted and proceedings stayed. Objection is taken by the Province of Quebec to Col. Gray as Umpire on account of his continued

STARVED TO DEATH. On Monday morning last | throne. a man named McIntyre from Prince Edward Island | London, July 11.—The situation in Europe has life, Halifux paper,

DR. LIVINGSTONE-A HOPEFUL VIEW, Sir R. Murchison, of the Royal Geographical Society of England, hopes in about seven or eight months to hear good news of Dr. Livingstone, and that shortly thereafter he will be back in his native country. Professor Murchison says that his friend, the indefatigable explorer, has been for three years in the lar claiming that the candidacy of Leopold is not heart of Africa, at Ujiji, a native settlement on designed as a hostile act towards France. Lake Tanganyika, which Livingstone believes to be the real fountain head of the Nile. This lake, represented as over two hundred miles long, lies south of the Albert and Victoria (Nyansa) lakes, and is supposed to flow into the former. If such is the fact the sources of the Nile are some seven or eight degrees further south than the heads of the Albert and Victoria Lakes. This is the question which Dr. Livingstone has undertaken to settle, But he has been, according to Murchison, for three years at Ujiji waiting for supplies from Zanzibar, Prussians are under orders for the line of the Rhine.

Many months have passed, however, since we have had any direct or indirect tidings from Dr. Livingstone. Professor Murchison says that the cholera on the eastern coast of Africa arrested a relief expedition sent out some time ago, but that now, the coast being clear, the English Consul at Zanzibar, happening to be in England, would go back at once to provide another little expedition for the explorer's relief; and as it would take over two months to reach him from the coast, so ne eight months would clapse before he could be heard rom. We like the hopeful view of Murchison, but we still think it probable that his friend has fallen a victim to the savage inhabitants or the savage climate of Ujiji. Sir Samuel Baker, now in command of a powerful expedition far up the Nile, under the authority of the Viceroy of Egypt, and bound for the lakes Albert and Victoria, to annex the whole line of the river to Egypt, will, perhaps, everywhere, particularly in commercial circles, of Lake Tanganyika and the question af Livingstone's fate dead or alive. Otherwise we fear that nothing but a well equipped British military expedition from Zanzibar will ever reach him, and we think that such an expedition should be sent out the discourtesy of Spain in concealing from a without further delay.

Times thus summarizes the recent dreadful accident | threatening tone of France calculated to obstruct on the Great Northern line of railway, whereby 18 explanations and an amicable settlement, and appersons at least have perished, besides a far greater number that have been more or less seriously in- pold is destitute of political importance. BRITISH AND FOREIGN.

The telegrams received since our last issue tell from George Washington to U. S. Grant. She is us, that General Prim's offer of the Spanish Crown the mother of 9 children, 71 grand-children, 124 to Prince Leopold of Hohenzollern, and its accepgreat-grand-children, and 4 great-great-grand chil- tance by the Prince, has made an alarming comdren. The ministry announced in the paired; can see and hear as well as she could 105 | Corps Legislatif to-day that France would on no years ago; she is strong and healthy; her 104th | pretext permit the consummation of the scheme. The Imperialist papers are loud and violent in their expression of opposition, and some of them go so far as to demand an immediate declaration of war with Prussia to avenge past military and diplomatic defeats.

This afternoon a despatch was sent to Berlin recalling the French ambassador. There is much excitement in England and on the Continent in view of the threatened European complications on the subject of Prince Leopold's can-

didature for the Spanish throne. The Council of Ministers held at Madrid yesterday authorized the Minister of Foreign Affairs to present Leopold to the Cortes, which will probably be convened specially for that purpose.

The Council of Ministers believe that the Prince will receive more than 270 votes, the minimum required by the Resolution passed June 3rd. The King of Prussia refuses any explanation in reply to the note from the French Government protesting against the candidature of Hohenzollern

to the Spanish throne. It is asserted in well-informed circles that an alliance between France and Austria has been concluded.

The situation in Europe grows more critical. France sent a note to Prussia demanding explanation to which Prussia has replied, that if the spanish Cortes ratifies the choice of Prince Leo-

pold Prussia will uphold him. A note has also been sent to Spain, and if the reply is not satisfactory the Spanish Ministry will be furnished with passports.
