Bills have been introduced; one to incorporate England, and that Sir Edward Kenny will adminspirituous liquors, one to abolish the Legislative absence of General Doyle.—Tel. Council, one relative to procedures in Law, and Mr. Wedderburn has given notice of resolutions on the better terms for New Brunswick, which will doubtless provoke much talk. The School Bill man of the Committee on Corporations, reported in will meet with hard opposition, and a determined favor of the Victoria Hotel Company Bill, and Bill attempt will be made by the Catholics to obtain to incorporate the St. John Real Estate and Buildseparate schools, as is evinced by the long rolls of ing Company. petitions being daily presented. But we give the On motion of Mr. Wedderburn the House went Government credit for a sincere desire to give the into Committee of the Whole on this Bill, and it country the boon of free unsectarian schools, and was agreed to. we believe them strong enough to carry out that Mr. Stevenson's bill to incorporate the Saint Andesire. The

FINANCIAL STATEMENT FOR 1870 has also been handed in by the Provincial Secretary, Mr. Willis presented a petition in favor of making as well as the Estimates for 1871. From this it no change in the boundary of Portland. He also, appears that the total receipts for the first fiscal as Chairman of Public Accounts Committee, subyear were \$437,715.50; total expenditures, \$467,- mittee their report. The estimated available income for 1871 is \$446,- hands till the morning. 852.46, and expenditure, \$436,103.46. In some On motion of Attorney General, the House went penditure more in detail. On Monday was enacted of Portland. in the House of Assembly SCENE NO. 2,

which for violence and intemperance surpassed even the memorable "affair" of the short session. On the motion for going into supply, Mr. Gough attacked the Secretary's Financial Statement, and attempted to show discrepancies between it and the Auditors' Report. He also condemned the Government for not bringing in a policy of retrenchment, and was particularly and personally severe upon the Secretary The Provincial Secretary replied in like vein, charging premeditated attack on him by Mr. Gough, knowledge of which had filled the lobbies of the House. He charged Gough with delaying the business of the House fifty-six days of last Session with useless debatings, and contended that common sense was a better qualification for a financier than much speech and bitter sarcasm. Then followed a clear, forcible, and, at times, eloquent speech from the Hon. Attorney General, which quickly reconciled the apparent discrepancies mentioned by Gough, by showing that the Auditor and Provincial Secretary had only placed the various items in different places, whilst the total amounts agreed. Space does not allow me to do justice to this really able speech, by far the best we have heard in the House for many a day. Mr. Gough, finding himself cut off from fair revenge by the simple statements of facts by the Hon. Attorney General, determined to wreak it personally on the Provincial Secretary under cover of an amendment to the motion for supply. Of the vile epithets he used as naturally as if he was perfectly familiar with them; of the total disrespect he evinced for himself, or the House, or the respectable people who filled the lobbies; of the venom and virus with which he attacked the political, social, and home life of the Provincial Secretary; of the total disregard he showed to the call of order, four times repeated from the chair, common decency requires that we should be silent. Suffice it to say, that he indisputably established his claim to be considered

We know that the universal feeling of the House was set against such an abuse of parliamentary usages and privileges, and think that more effective means than were employed should have been used to either restrain such, or refuse to listen to it. ## THE NATIONAL Life Insurance Company

UNITED STATES OF AMERICA

W AS Chartered by Congress, in 1868, with a capital of ONE MILLI N DOLLAR, every dollar of which was paid in before commencing business. This capital is four times as large as that of any American company doing a Life Insurance business exclusively Beside this immense capital, the Company have invested a premium reserve to meet maturing Policies of seven hundred and sixty-six thousand dollars, making their total assets to January 1st, 1881, one million seven hundred and sixty-six thousand dollars. Their liabilities to same date were \$807,389, or in other words, they have more than two dollars assets for every dollar of liabilities. This success is owing to the facts that their business is conducted upon the only common sense plan-"so much insurance for so much money"—and that the Company's financial management has been economical and cautious.

In this Company there are none of the bewildering un-certainties and disappointments of "notes," "dividends," &c., &c., &c., which enter so largely into the business plans of Mutual Companies. The insured buy what they pay for-Insurance. They are not called upon to insure thers, but they are insured by the Company. Instead of charging thirty per cent. more than is necessary to cover possible losses, the National charges the net cost of Insurance and risks its capital to cover any extra mortality. Mutual Companies MAY not need to use this extra thirty per cent.; in that case it is returned to the Policy-holder and mis-called a "Dividend." The National does not need any extra guarantee, its capital being sutficient, and consequently its rates are from 25 to 30 per

cent, lower than those of Mutual Companies, The National's Policies are more liberal than any issued in the Provinces, allowing residence or travel anywhere in temperate climates. No extra Premiums, Policy-fees, Permits, or extra charges, except upon the half-dozen occupations generally recognized as EXTRA hazardous. The National is the only Company which has made the required deposit at Ottawa for the SOLE benefit of Canadian

Policy-holders. All others are for "Policy-holders GENERALLY. Five cents per day will insure a young man a thousand dollars, IN GOLD, payable to him at the age of sixty, or to his representatives should he die sooner. Four cents a payable to his wife or children at his death, wherever that may occur. What easier way is there to make such a provision? Is it not worth your while to investigate? Agencies are established throughout the Lower Provinces where the fullest information will be cheerfully given. Should there be none to whom you can conveniently apply a note addressed to the General Agent at St. John, will be a note addressed by promptly answered. Address JOHN C. RISTEEN,

P.O. Box 428, References in regard to the Company's standing will, upon application, be given to prominent men in all parts GOVERNMENT RAILWAYS!
