The following gentlemen compose the new Local Government:—

Hon. T. R. Jones, President of the Executive Council.
Hon. G. L. Hatheway, Provincial Secretary.
Hon. George E. King, Attorney General.
Hon. W. M. Kelly, Board of Works.
Hon. B. R. Stevenson, Surveyor General.
Hon. Messrs. Caie and Covert, Members of the Executive Council without office.

The only elections to be held are in the cases of Messrs. Hatheway and Stevenson. Messrs. King and Kelly had tendered the resignation of their offices and their seats in the Executive, but only the latter were accepted by the Governor.—*Tel.*

DROWNED.—On Sunday morning between 8 and 9 o'clock the body of a man, named Michael Jenkins, who resided on Main street, was found drowned in the Lower Cove Slip. Deceased was a laboring man, and of late has been engaged every day in work about the Police Station. It is reported that he was in Mr. Ferrie's Liquor Store on Water Street between 6 and 7 o'clock on Saturday evening.—*News.*

STREET RAILWAY.—The Street Railway Company have decided to lease the road and plant. Messrs. John Willis and David Allan have been appointed Directors in the place of Messrs. F. B. Barker and James Reed, resigned.—*News.*

ADMITTED TO THE BAR.—Henry Hillyard, Robt. O. Stockton, Edward T. C. Knowles, and Melbourne McMonagle, of St. John, on Saturday received first-class certificates from the Supreme Court; and Barry Plant, of Fredericton, and Rainsford Ballock, of Woodstock, received second-class certificates, and were sworn in attorneys.—*Tel.*

A UNION PRAYER MEETING, under the direction of the Evangelical Alliance, was held in the Centenary church last Sunday evening, for the purpose of praying for the removal of small pox from the city. Rev. Mr. Houston presided. The attendance was very large. Prayer was offered by Rev. Mr. Daniel, Mr. Wm. Thompson, Rev. N. McKay, Mr. Wm. Welsh, Mr. Jos. Pritchard, and another gentleman whose name we did not learn. Mr. John H. Ring made a short address, in which he demonstrated the efficacy of prayer. The prayers all expressed faith in God's willingness to remove the disease in answer to the prayers of His people. Appropriate hymns were sung during the services.

At the suggestion of Mr. Wm. Thompson, it was announced that the Evangelical Alliance will consider during the week the question of repeating the services next Sabbath evening.—*Tel.*

DEATH OF FATHER JOHN QUINN.—It is our painful duty this morning to announce the death of this worthy and pious Priest, so well known and so universally beloved by the people of this city, among whom he for many years labored. The deceased gentleman had long been unwell, but up to a comparatively recent period he continued to devote himself to the performance of the arduous duties of his sacred calling. For some time past, however, he had been confined to his room, and although there were occasional reports of improvement in the state of his health, he gradually sank, and on Friday morning, at half-past four o'clock, he breathed his last at his residence in St. George, where he for some years had been stationed. "Father John," as he was familiarly called by the members of his flock here and elsewhere, is remembered with the greatest affection by all who had the pleasure of his acquaintance, and the news of his death will be received by all (Catholics and Protestants alike) with the deepest regret. His funeral will take place on Monday at St. George.—*Freeman, 18th.*

SMALL POX.—It is to be hoped that, as a Pest House has now been obtained, an effectual stop will be put to the spread of this disease. The houses now infected are not very close together, with the exception of those on Erin Street. There is a considerable distance between the infected houses on Brussels Street. Another of the cases reported yesterday was across the Marsh Bridge. The patients should be removed as soon as possible to the Hospital, although of course there are several that cannot be removed. This morning the death of a child of Mrs. Redmond's, corner of Brunswick and Erin Streets, is reported. We have heard of no new cases.—*Globe.*

Several additional cases and one death have been reported since Tuesday. The Board of Health are now in full posession of the *Home*, and are as fast as possible removing the small pox patients to it.

FATAL ACCIDENT.—In St. Martins, on last Wednesday, Mr. Henry Kierstead was thrown to the ground from the height of sixteen feet, by the giving way of a staging, and broke the spine of his back. He died on Friday, leaving a wife and three children. Owing to the esteem in which the deceased was held, his death has spread a gloom over the village. His funeral was very largely attended. —*Telegraph.*

THE ALBERT RAILWAY.—A Harvey correspondent says:—

Every thing looks favorable now for the almost immediate commencement of the construction of the Albert Railway. A company from England are expected here in a few days, *able* and willing to build the road: it will extend to Shepody river in Harvey. The resources of Albert are so varied and so extensive, that with a railway we must soon surpass any other County in the Province.

WESTMORLAND ELECTION.—Yesterday W. J. Gilbert, Esq., passed through the city on his way to Fredericton, to show cause before His Honor Judge Allen why the investigation into the charge of bribery and corruption, brought against Mr Hannington by Mr. Hebert, should not be postponed.—*News.*

YARMOUTH VESSEL BURNT.—The Liverpool *Mercury*, received by last English mail, learns by telegraph from Bremen of the loss by fire of the well known Liverpool trader, "Marion Emerson," which had just arrived there with a full cargo of cotton from Savannah. When the telegram left the foremast had fallen, and the vessel seemed in a fair way of being entirely consumed. She was a ship of 694 tons, built in Yarmouth, N. S., in 1868, owned there by Mr. S. Killam, and was under the command of Capt. Sheldrake. She left Savannah on the 4th January.—*Ib.*

The Steamer *Zoe*, with a cargo of flour sent by the citizens of Boston, for the relief of Paris was wrecked off Halifax, on Thursday night last. Vessel and cargo are both a total loss.

THE SMALL POX IN LONDON.—The spread of small pox in the metropolis is the subject of another circular from the medical department of the Privy Council to the clerks of the different vestries. In this it is pointed out that although vaccination is the main safeguard against the progress of the disease, and the extension of the present epidemic must be attributed to the great neglect of vaccination in many parts of London, it is to be remembered that as small pox is one of the most infectious of diseases, so just in proportion as there has been neglect of vaccination in the community, each new case of small pox which occurs becomes a new centre of danger to the public health. Accordingly, in order to prevent the spreading of the disease, the isolation of the sick and the disinfection of infected houses and things are at the present time especially necessary.

DOMINION PARLIAMENT.

In reply to Stephenson, Cartier stated that two Battalions of Red River expedition will be disbanded on 1st May, but two companies, of forty each, will be kept for six months or longer, if required. Free grants of land not yet named how much—will be given to those wishing to remain; and to others free transportation to their homes.

The Premier laid on the table the Fishery correspondence, and after recapitulating the changes of the past three years, stated the strong desire of his Government that the above question should be determined. It was inconvenient that our rights on the headland question should be kept in abeyance. For this and other reasons Mr. Campbell was sent to England. It was on his request that the Joint Commission was decided upon and appointed solely to determine the Fishery question. Subsequently, on the request of the American Government, the powers of the Commission were enlarged to include the settlement of the *Alabama* claims.

Questions by Holton and Galt failed to elicit any answer as to whether the Fenian invasion losses were to be referred to the Commission.

Hincks and Cartier intimated that this and other questions, if not already, may be referred to it.

Sir John stated that the British Government hold out no hope that they would indemnify Canada, but had requested a statement from Canada of the amount of loss.

Bodwell moved for a statement of claims upon the Dominion Government in consequence of the North West disturbance.

Hincks stated that the most formidable claim was the Hudson Bay Company's. Schultz claimed seventy thousand dollas; Doctor Lynch three hundred dollars. There were others. He, Hincks, had, on his own responsibility, after consultation with Cartier, recommended an advance of $11,000 upon these claims.

OTTAWA, Feb. 20.—The trade returns for the past fiscal year show the following results:—

The whole volume of trade was $148,387,820 of which $74,814,339 were imports, and $73,573,490 exports.

The balance of trade against us is unprecedentedly small.

Deducting goods not entered for consumption, the exports exceed the imports by $2,335,787.

The tonnage of vessels engaged in trade was 5,796,125 entered inwards, and 5,619,745 outwards, of which more than two-thirds were British and Canadian bottoms.

The Customs duties collected were $9,462,940, against $8,298,909 in the previous year.

The trade with Great Britain shows an increase of eight per cent; with the West Indies, twenty-three and a half per cent; a decrease in imports from the United States, but an increase of over five millions of dollars in exports to that country.

The balance of trade with the United States is nineteen millions in our favor.

The total exports of wheat increased from 2,800,000 to 3,700,000 bushels; other grains exported show 3,800,000 bushels over the previous year.

The value of British and foreign goods passed in bond through the United States was $11,595,495, and three millions worth imported thence in bond.

OTTAWA, Feb. 21.—Dunkin introduced a bill to amend the Census Act, so as to include British Columbia and Manitoba and extend the time.

Hincks laid on the table a statement of unforseen Expenditures, and correspondence respecting Campbell's mission.

The Premier in an eulogistic address, moved the appointment of a committee to draft a congratulatory address to Lord Lindsay upon the reception of a Baronetcy. Mackenzie seconded the motion. The Committee, composed of the Premier, Howe, Tilley, Hincks, Galt, Holton, Blake, Mackenzie, and Dorion, forthwith reported an address, which was unanimously adopted.

The House is to go into Committee of Supply on Friday. To-morrow being Ash-Wednesday the House adjourned at 4. 20 till Thursday.

Sanfield MacDonald is reported seriously ill of asthma, and scarcely able to speak, and consequently unable to leave Toronto.

OTTAWA, Feb. 22.—To-day being Ash Wednesday public business generally is suspended and everything quiet.

Sir John A. Macdonald is expected to leave for Washington the first week of March. The Hon. John Sandfield MacDonald is ill and unable to attend.

In answer to a depution respecting the North Shore Railway the Hon Mr. Langervin said the Government recognized the importance of such a public work, but it was local and they could not recommend that assistance should be rendered it by the Dominion unless similar aid were given to other local works.

It is quite cold the thermometer registering ten degrees below zero this morning.

BRITISH AND FOREIGN.

The French National Assembly has conferred the Executive power of the Government upon Thiers, and immediately after the vote the English Austrian and Italian Ambassadors officially visited Thiers and recognized the French Government.

On the 19th inst., in the French National Assembly Thiers delivered a speech, in which he dwelt on the distress and suffering caused by the war and upon the necessity of peace. "Nevertheless," said Thiers, "the terms of peace would be courageously discussed, and would only be accepted if consistent with the honor of France. The task of the administration is to pacify and reorganize the country, restore its credit, to reorganize its labor. When this is accomplished, the country itself will decide its destinies."

LONDON, Feb. 17.—In the House of Commons tonight Viscount Enfield said that Anglo-American Commission was not authorized to settle difficulties between the two countries. Their mission was simply to determine the mode of of adjustment.

If the mixed Commission preferred, British claims would also be submitted to it.

LONDON, Feb. 19.—Coal is arriving plentifully in Paris but there is no gas yet.

Rothschild goes to London to convey thanks of Paris for the contribution of food.

The Paris Journal say that if the National Assembly consents to the dismemberment of the Nation, the Paris delegation will protest and withdraw.

Small pox is raging in the North of France, and is especially violent at Lille.

Prussia firmly refuses to listen to any advice or entreaty from Earl Granville concerning peace.

The appointment of Thiers as Chief Executive is well received in Paris.

The action of the Government in the European complications are freely commented upon in the House of Commons The general drift of the debate was that the weak, hesitating policy of England had lost her the respect of Europe.

It is understood in official circles that the conditions of peace stipulated upon by the Germans take the form of an ultimatum, and that no amendment on the part of France will be allowed.

BORDEAUX, Feb. 19.—M. Thiers has officially announced his acceptance of the powers conferred by the National Assembly, with the condition that he will select his own colleagues. In an address to the people he declares that peace is necessary and he hopes to obtain honorable terms.

Guizot will probably be Minister to England.

In the Assembly yesterday several Generals expressed themselves satisfied with a continuance of the war for defence, if it were practicable.

It is likely that Favre's residence will be at the Paris Royal.

Excitement since the opening of the Assembly is very great. Crowds around the place of meeting. At one time 80,000 persons were present. Precautions were taken to preserve peace, by the presence of the military, but there was no outbreak.

LONDON, Feb. 20.—Sir Stafford Northcote sailed for New York on Saturday to join the commissioners.

It is decided that the Emperor will march his victorious legions through Paris.

LONDON, Feb. 20.—No further extension of the armistice will be conceded on any ground whatever. If peace is not concluded and the German terms met satisfactorily by 12 o'clock, noon, Thursday, 23rd inst., the German armies will march south and Paris will be treated as a captured city.

Gladstone in the Commons to-day denied that Her Majesty's Government had received proposals for the purchase of British Dominions in North America.

University Test Bill was discussed this evening. Amendments disqualifying all except Church of England men and tending to the abolition of Clerical Fellowships, were rejected after a keen debate, and the bill passed.

A protracted debate followed on Election Reform. Mr. Forster pressed the passage of the Reform Measure, and leave was given for the introduction of the bill.

LONDON, Feb. 21.—John Bright is recovering, and will probably resume his seat in Parliament.

It is probable that the armistice will be extended till March 1st.

It is said that the health of the Emperor of Germany causes grave anticipations.

The scarcity of wood is much felt in Paris.

LONDON, Feb. 21.—In the House of Lords tonight Earl Granville defended the withdrawal of the British legation from Paris. He said that Lord Lyons could better serve the interests of English residents outside than within the walls of Paris.

In the House of Commons Mr. Gladstone objected to producing the instructions given to Anglo-American Commission. He believed that improvement of Maritime International law would certainly be one of the topics of their deliberations.

The opinion grows that the German terms will be accepted without modification. Bismarck is reported to be willing to resign Metz if Luxembourg is given up to Germany. He is pressing Thiers very hard to conclude a peace and employing even threatening language.

LONDON, Feb. 22.—A letter from Gen. Trochu condemns the proposed entry of the Germans into Paris. He says Paris has deserved the honors of war, and advises her to shut her gates and let the enemy open them with cannon.

After the declaration of peace the National Assembly will prorogue its sitting, and upon reassembling will meet in Paris.

Gen. Chauzey has issued a Proclamation to the Army of the Loire, urging the troops to put the time of their forced rest to profit, and prepare for resuming the struggle *a l'outrance* if arrogant claims are demanded by the Germans.

The new Queen of Spain is dangerously ill, and has asked to receive the last Sacrament. Her case is considered hopeless.

NEW YORK, Feb. 21.—The Commission in regard to the purchase and annexation of St. Domingo has arrived out, and commenced investigation. The inhabitants appear general to favor annexation.

Senator Sumner has been seriously ill, but is recovering.

The cable telegrams report that M. Thiers' plan is to conclude peace upon Bismarck's terms, clear France of Germans, bring back the French army, giving command to Gen. Changarnier, induce the National Assembly to proclaim the Charter of 1830 the supreme law, and provide for a plebiscite whether Count de Paris shall be King.

The German journals assert that Bismarck will be the most unpopular man in Germany if he does not bring the Peace negotiations to such an issue as the people, after their sacrifices, have a right to expect.

The National Guard in Paris is to be dissolved and thoroughly remodelled before the Germans enter the city.

We notice in one of our exchanges this week the statement of Dea. John Hodgkins of South Jefferson, Me., whose son was cured of incipient consumption by the use of *Johnson's Anodyne Liniment*. We refer to this at this time as tending to corroborate the statement we made last week in relation to this Liniment as applied to consumption.

If Congress had employed as much scientific skill in the arrangement of its "Reconstruction Policy" at the close, as the War Department did in the beginning of the war, in arranging for the manufacture of what was called *Sheridan's Cavalry Condition Powders* for the use of the Cavalry horses, no doubt the Union would have been restored long ago.—*Exchange.*

THE BEST FRIEND.—When overtaken with Weak Lungs, brought on by a neglected Cough, what would not be given to be freed from it. Dr. Wilson presents to all such the means of recovering their health and renewing their strength for a mere trifle. His Pulmonary Cherry Balsam invariably produces the most satisfactory results where sufferers are in danger of Consumption. The Balsam checks the cough, arrests the progress of decay, strengthens and does not weaken the Stomach, and gently and effectually restores the patient to his accustomed strength. Lung complaints of the most alarming character, which have withstood all other medicines, have yielded to this Balsam, which will ever prove the consumptive's best friend.

Dr. Wilson's Anti-Bilious and Preserving Pills are the most effective remedy for Indigestion, Bilious and Liver complaints, Sick Headache, loss of Appetite, &c. For elderly people, or when an occasional aperient is required, nothing can be better adapted. For Females, those Pills are truly excellent, removing all obstructions, the distressing Head-Ache so peculiar to their sex, blotches, pimples, and sallowness of the skin, giving a healthy juvenile bloom to the complexion.

The best cure for Calloused Sinews, Old Sprains, &c., is Dr. Dow's Sturgeon Oil Liniment. It possesses a marvelous power over all muscles and ligaments of the horse, restoring them to perfect health, and raising every sinew to its natural standard.

We notice that the people throughout Great Britain unanimously recommend Clark's Derby Condition Powders. It must be gratifying to Professor Clark to find a remedy, in the composition of which he spent so much thought and care, adopted in that country by his brother veterinary surgeons, where such a thorough knowledge of the anatomy of the horse exists and the services of the worthy animal are held in such high estimation.

June 11, 1866.

Messrs. B. L. JUDSON & Co.

GENTS: It is with great pleasure I write these few lines, not only as a recommendation, but as I feel a very great benefit derived from taking your Worm Candy (Dead Shot). I have suffered much for 10 years past, tried many medicines, been under treatment of physicians in this city, but all to no avail. I felt a gnawing sensation in my bowels, sleepless nights, and very nervous. I have now taken about ten sticks, and quite a number of tape worms, one several yards long, has come from me. I continue taking it, feeling quite a new man, my sensations quite different; and I recommend the same to the community at large, feeling confident, from practical experience, it is the best eradicator of worms in use.

Yours most respectfully,
DAVID GALER.

CITY OF BROOKLYN, } ss.

M'KENZIE'S DEAD SHOT WORM CANDY

for sale by all Medicine dealers, at 15 cents per package.

In numbers there is safety, it is upon this principle that the formula of Johnson's Mountain Herb Pills was prepared. It was not the result of one man's knowledge. Dr. Judson, intending to spend a fortune in advertising his Pills, consulted the most intelligent and learned physicans of the age, and the result was the production of a simple but efficacious medicine the Judson's Mountain Herb Pills. These pills cure Biliousness, Dyspepsia, Liver complaint, Indigestion, Female Irregularities, &c.

HOW TRUE and how strange, that people should seek relief in the hieroglyphics of a doctor's prescription when they can buy as good, and nine times out of ten a better remedy than most doctors give, for the insignificant sum of 25 cents. We refer to Morse's Indian Root Pills, these pills cure Headache, Liver Complaint, Indigestion, Female Irregularities, and all bilious disorders, they are prepared from a formula pronounced by the most learned Physicans of our country to be the best and most universal of family medicines. Give them a fair trial and you will never be without Morse's Indian Root Pills. Sold by all dealers.

CARR'S PATENT CANT DOG.

THE advantages of CARR'S PATENT are—
1st. Simplicity and Utility combined. The bolt and nut, which are often working loose, being entirely dispensed with.
2nd. The Connection being low, the Dog never fails catching the log.
3rd. The width of the band gives additional strength to the Stock.
4th. It is the most Durable and Cheapest Dog now in use.
The subscriber having purchased the Patent Right of the above Cant Dog from James Carr, begs to inform all Lumbermen, Mill Owners and Wharf Builders, that he will have a Stock manufactured and will be able to supply any quantity after the middle of February. A sample may be seen at Subscriber's Store, and orders received so as to ensure an early delivery. Lumbermen, before fitting, out, will please call and examine this Dog, as it will save them both in expense and labor. W. H. THORNE,
