Death was almost instantaneous. A companion named Wier was seriously, but not fatally injured. —*Freeman.*

OTTAWA, March 20th.—The Minister of Marine and Fisheries' report recognizes an improved state and abundant yield of Canadian Fisheries during the past year. In many instances yield doubled that of previous seasons. The police cruisers boarded four hundred American fishing vessels found Within marine leagues of shore and a considerable number of them under suspicious circumstances. The Canadian officers exercised extreme caution and forbearance, accepting even colorable excuses, while warning off trespassers. American fishermen cannot successfully prosecute fisheries without using our inshore waters, nor without frequenting our bays, ports and harbors, which privileges cannot be given to foreigners without some equivalent. The "Water Lily" protects the Bay of Fundy, and in consequence the Americans are obliged to buy large quantities of fish from New Brunswick fishermen. Quantity thus sold in the fall and winter months is valued at $50,000. Admiral Wellesley recommends increasing cruisers next year *to* at least two schooners for each fishing station.

News from Washington is encouraging. The fisheries question will be settled before touching Alabama claims. It is said that the system excluding foreign fishermen will be continued next season under any circumstances.

Merchants, banks, and others want special charter, but the Government desires to put them under general act.

In reply to Smith, Langevin stated that the survey of the Bay Verte Canal was delayed by the conduct of parties in the neighbourhood, who arrested the officer in charge for wages due them. They had him taken to Dorchester, others removed the flags at night because they served to frighten wild geese.

The survey will not be completed until April 10th.

Cartier announced that the Government will try to get business done in time to prorogue before Easter.

Harrison's Bill relative to notes to mutual Insurance Companies was read a second time.

OTTAWA, March 21.—After the recess the House resumed the Committee on Supply.

Mr. Holton considered seventy thousand dollars a large sum for our marine policy.

Dr. Tupper said the vote last year was found to be insufficient, and estimate was increased this year.

On the item of fifty thousand dollars for a joint survey of the Canadian line from the Lake of the Woods to the Rocky Mountains, Sir Geo. E. Cartier explained that doubts having arisen as to the location of that line, the American Government, having no diplomatic relations with the Dominion applied to Great Britain to have it surveyed, each nation paying half of the expenses.

The British Government applied to Canada to pay one fourth of the whole amount, to which Canada assented.

Long debate arose on the item of four hundred thousand dollars for opening communication with the Northwest.

All the items in the estimates, except those under head militia, and public works, carried, and House adjourned at half-past eleven.

In the House of Commons to-day, a Bill to establish one uniform currency for the Dominion of Canada was read a third time and passed; also, Bill to indemnify the Government for expenses incurred in repelling the Fenian raid of 1870.

The following items in the report of Committee of Supply were concurred in: Legislation, Miscellaneous, Pensions, and Marine Hospital.

On the estimate for Ocean and River Steam Packet service, a lengthy discussion arose on the item of ten thousand dollars subsidy to line of steamers between Halifax and St. John. Personal recriminations between Nova Scotia members—notably between Tupper and Jones—occupied the House till recess, when the item was carried, and the House rose.

OTTAWA, March 23.—The House was occupied till a late hour last night receiving reports of Committee of Supply, and advancing a few Government measures a stage.

No important debates after recess.

Scott is re-elected for Ottawa; but Reformers have gained largely throughout Ontario. It is probable that the Opposition will have a majority in the Local Legislature.

British Columbia measure postponed till Friday, when all the Ontario members will have returned.

It is expected that Manitobah members will reach here before the close of the session; if so we may expect to hear revelations of a startling nature from Schultz.

Tupper has given notice that he will move a resolution to the effect that it is expedient the sixth section of the Act respecting fishing by foreign vessels be amended, to provide that proceeds of every sale under that section shall be subject to the control of the Minister of Marine and Fisheries, who shall first pay therefrom all necessary costs and expenses of custody and sale, and that the Governor in Council may, from time to time, apportion three-fourths or less of the net remainder among the officers and crew of any Queen's ship, or Canadian Government vessel, making the seizure, as they may think right, reserving for Government and paying over to the Receiver General at least one-fourth of such net remainder, to form a part of the consolidated revenue fund of Canada, but the Governor in Council may cause such goods, vessel, cargo, &c., to be destroyed or reserved for public service.

All the election returns are not in, but evidently the Government majority is very small; indeed, it is in minority, counting Independents with Opposition.

Blake and McKenzie returned by large majorities—Blake in two constituencies.

The Opposition is very strong in talent.

After routine business was disposed of to-day, there was a short discussion upon some unimportant matters, and then the Bill to amend the Act relating to duties of Customs was read a second time, and passed through Committee of the Whole.

On motion for a third reading, Mr. Holton moved an amendment that the Bill be referred back to the Committee for the purpose of repealing the duties on Coal, Coke, Flour and Wheat. A debate arose upon the subject, in which Messrs. Holton, Workman, Galt, Beatty, Harrison, Mills, Magill and others expressed themselves as opposed to the duty, as unequal in operation—the Coal tax pressing heavy on Ontario, and the Flour tax on the Maritime Provinces.

Sir F. Hincks, Hon. Mr. Tilley, Hon. Dr. Tupper and Mr. Colby defended the duty, on the ground that it had caused the Americans to repeal the duty on Coal and otherwise modify their tariff.

Hon. Dr. Tupper said the effect of the policy of the Government had been to increase the coal trade of Nova Scotia with Quebec and Ontario one-sixth over the largest export of any year before the imposition of the tax.

Mr. Grey approved of the policy as one calculated to foster national trade, and said they should be retained even though it was obnoxious to the people at the outset.

Mr. Blanchett moved an amendment to the amendment to include in it all Grains, Meal, and Flour.

Mr. Holton, expressed his readiness to adopt the amendment.

Sir F. Hincks said if a change was to be made it should be an extensive one and not confined to one or two articles and in that case the Government would vote for Mr. Blanchett's amendment—(Cheers and laughter).

The Debate continued till six o'clock when the House rose for recess.

BRITISH AND FOREIGN.

LONDON, March 17.—In the House of Commons to-night a resolution to inquire into monastic institutions was rejected.

Robert Chambers, the well known publisher, of Edinburgh, died to-day.

LONDON, March 18.—The Army Bill passed a second reading in the House of Commons last night. A great deal of interest was taken in the debate, the galleries being crowded with officers and others.

The French Government is offering great facilities to manufacturers and others in view of the extension of industries.

Large numbers of manufacturers and traders are leaving Alsace for France where every facility will be afforded for the erection of factories.

BERLIN, March 18.—It has been officially announced that the Conference for the purpose of arranging definite treaty between France and Germany, will meet at Brussels on the 20th.

The protocols of the Black Sea question are signed by the Plenipotentiaries of the several powers represented. Their general features are conciliatory on the part of Russia. There is a willingness on the part of Turkey to accept the denentralization in the Black Sea, and a deference of the Conference to the wishes of either power.

A slight shock of earthquake was felt in the northern portion of England this morning.

The French army is being rapidly re-organized, and the men are nearly all armed.

Marshal Bazine insists upon an investigation of his conduct at Metz.

LONDON, March 19.—Prussians from Amiens have occupied one half of the town of Dieppe, while French garrison retains the remainder

Prussian Cross Gazette, semi-official, says if the French persecute returning Germans, the army must re-occupy environs of Paris, and possibly the city.

Events of a most unfortunate character have taken place in Paris, and the situation is hourly becoming graver.

The government has issued another proclamation repudiating the report of the intended *coup d'etat*, warning those who seek the pillage of Paris that they will ruin France, and appealing to National Guards to put an end to condition of anarchy into which they have plunged the capital. The proclamation concludes:—"After this warning we shall proceed to force peace if necessary, at all hazards."

Revolutionists captured Generals Lecomte and Clement Thomas, and after a summary trial, shot them.

PARIS March 20.—Thiers issued a conciliatory proclamation to insurgents at Montmartre, urging a surrender of their arms, and warned them that if they did not yield force would be employed to compel submission. The proclamation has yet produced no effect and the disturbance continues.

On Saturday morning troops were sent to occupy the positions of the insurgents and forty were made prisoners and a number of cannon removed. The Guards soon after arrived and released the prisoners.

General Vinoy, commanding the Government forces, placed a cordon of troops around the hill, and planted mitrailleuses at the approaches. Soon the Troops, Citizen and Nationals were fraternizing. Fresh troops arrived, the Guards shouted "reverse arms," and the order was obeyed. It was at this time that Generals Lecomte and Thomas were captured, tried and shot, their execution being demanded by the mob.

LONDON, March 20.—Napoleon left Wilhelmshoe yesterday for London.

Paris is in a state of anarchy. Generals Chauzy, Clermont, Thomas and Lecompte have been seized and shot by insurgents. Paladines is held prisoner. All persons of prominence are fleeing from the city. The insurgents have proclaimed the revolution successful. The Thiers Government has issued a counter proclamation calling on all who have regard for the honor and interest of France to separate from the insurgents who are denounced as assassins and rally around the Republic and the Assembly. An immense number of insurgents have left for Versailles with the intention of endeavouring to overawe the Assembly which will sit to-morrow. Gen. Duval is at the head of the insurgents. As yet there has been no pillaging in Paris, but business is at a stand still. Many streets are barricaded.

Sir Henry Bulwar has been appointed to the Peerage as Baron Dalling and Bulwar.

The House voted £53,000 for the relief of Paris.

Government has telegraphed for 30,000 men to come to Paris.

The Prussians will enter Paris if the garrison is increased beyond 40,000.

The city is full of Bonapartist agents, including Chevrau, Conti, Rouhl, and Regnior.

Insurgents have received five francs daily, supposed to be furnished by these agents.

Not only have Chauzy, Lecomte, and Thomas been murdered, but Vinoy has fallen a victim to the Revolutionists, who now hold Paris and Government offices.

Thiers and all the Diplomatic Corps, including Minister Washburne, have fled to Versailles.

LONDON, March 21.—The situation in Paris is unchanged.

General Vinoy has not been captured.

The Insurgents are strengthening themselves by erecting new and formidable barricades.

Thiers' Government at Versailles is organizing a force to put down the insurrection.

Many persons were shot without trial on Sunday in Paris.

The Nationals will shoot Thiers, Vinoy, and Paladines it captured.

There is a strong reaction among the respectable portion of the inhabitants.

The departure of German troops from France has been countermanded, and a large force has re-occupied St. Denis.

The Princess Louise was married to-day.

NEW YORK, March 21.—Paris advices are to Sunday night. The Insurrectionary National Guards remained masters of Paris.

Napoleon reached London yesterday.

He is said to have remarked to his friends:—"My return to France is only a question of time. Sooner or later she will summon me to save her from the incapables who are now displaying their folly and madness in shedding her blood and plunging her into anarchy. My pretended deposition will never be ratified by the people. There are only two parties in France who possess real strength, the Republicans and the Imperialists; but an Empire alone is able to conduct France to true and permanent liberty. The Orleanists possess only an imaginary strength.

They dare not venture to appeal to the popular will."

LONDON, March 21.—Emperor William opened the German Parliament in person yesterday, reading the speech from the Throne.

VERSAILLES, March 11.—In the National Assembly to day Grevy, the President, made a speech, denouncing the insurrection in Paris, as did other Deputies.

Several Deputies have gone to Paris to demand the release of Chauzy.

The Insurgent Government announces that forts will immediately be armed. They have also sent an ultimatum to Thiers, fixing the 23d inst. as the last day for the return of the Assembly to Paris. If they refuse, the National Guards will disperse them.

In the Lords to-night Granville denied the statement that Russian influence had prevented the recognition of the Southern Confederacy during the war in the United States. The Duke of Somerset confirmed Granville's statement.

LONDON, March 23.—In the House of Commons, Viscount Enfield stated that Lord Lyons had been instructed to accompany the French Government to Versailles, and that every arrangement had been made to protect the life and property of British subjects in Paris. Paris is quiet.

The cabs have resumed their trips, the theatres are open, and the railway trains from Paris to Versailles run regularly.

The situation in Montmartre and Belleville, however, is unchanged; the insurgents are still in force.

The National Assembly has issued a proclamation, condemning the criminal attempts of a few madmen to involve France in ruin and dishonor, which are repudiated by the whole country.

JUDICIOUS MANAGEMENT.—Though it is impossible, in this climate of changing temperature, heat and cold, to prevent coughs and colds altogether, yet their form may be much mitigated by remedial measures. When hoarseness, cough, and any Lung complaints set in, resort at once to Dr. Wilson's Pulmonary Cherry Balsam. No cough can resist this remedy.

When your horse's hair becomes dry and is sticking up, and his head hanging down, and he refuses to eat, you may know he is troubled with worms or some serious ailment. Procure directly Clark's Derby Condition Powders and feed it in his grain, and by the time you have fed one package your horse will be in good condition. Everybody says they are the best powders ever known for horses, sheep and cows.

LISTLESSNESS, HEADACHE, FLATULENCY, &c. &c. —These symptoms so frequently the forerunners of serious diseases, if neglected, too often terminate in apoplexy. When giddiness and dizziness of sight comes on, Dr. Wilson's Family Anti-Bilious Pills should be taken to thoroughly cleanse the bowels. No medicine equals those Pills for removing Biliousness, suppressing Nausea, checking flatulency, and acting as mild, yet effective aperients, they are suitable for either sex or any age.

One of the most remarkable qualities of Dr. Dow's Sturgeon Oil Liniment is the rapidity and certainty with which it relaxes contracted ligaments and sinews Joints that have been stiff for years, have repeatedly been restored to activity by a persevering use of this powerful rubefacient. A good hand-rubbing is necessary, so that its anneal-ing influence may thoroughly penetrate the contracted fibre.

Farmers and stock raisers have frequently told us that they have seen very good results from giving "Sheridan's Cavalry Condition Powders to cows and swine before and after they drop their young. The Powders put them in good condition, and give them strength to care and provide for their sucklings.

We have often wondered whether there is a person in all New England who does not know and appreciate the value of "Johnson's Anodyne Liniment" as a family medicine? It is adapted to most all purposes, and is the best pain-killer that can be used.

GENTS: It is with great pleasure I write these few lines, not only as a recommendation, but as I feel a very great benefit derived from taking your Worm Candy (Dead Shot). I have suffered much for 10 years past, tried many medicines, been under treatment of physicians in this city, but all to no avail. I felt a gnawing sensation in my bowels, sleepless nights, and very nervous. I have now taken about ten sticks, and quite a number of tape worms, one several yards long, has come from me. I continue taking it, feeling quite a new man, my sensations quite different; and I recommend the same to the community at large, feeling confident, from practical experience, it is the best eradicator of worms in use.

Yours most respectfully,
DAVID GALER.

In numbers there is safety, it is upon this principle that the formula of Johnson's Mountain Herb Pills was prepared. It was not the result of one man's knowledge. Dr. Judson, intending to spend a fortune in advertising his Pills, consulted the most intelligent and learned physicans of the age, and the result was the production of a simple but efficacious medicine the Judson's Mountain Herb Pills. These pills cure Biliousness, Dyspepsia, Liver complaint, Indigestion, Female Irregularities, &c.

How TRUE and how strange, that people should seek relief in the hieroglyphics of a doctor's prescription when they can buy as good, and nine times out of ten a better remedy than most doctors give, for the insignificant sum of 25 cents. We refer to Morse's Indian Root Pills, these pills cure Headache, Liver Complaint, Indigestion, Female Irregularities, and all bilious disorders, they are prepared from a formula pronounced by the most learned Physicans of our country to be the best and most universal of family medicines. Give them a fair trial and you will never be without Morse's Indian Root Pills.

TO THE ELECTORS OF THE COUNTY OF QUEENS.

GENTLEMEN,—In compliance with the wish of many of the Electors from various sections of the County, I will be a candidate for the vacancy occasioned by the resignation of R. T. Babbitt, Esq. If elected, I will support such measures as will (to the greatest extent) develope our agricultural, manufacturing and mining interests. I shall also feel it my duty to co-operate with you in maintaining in an efficient state your roads and bridges, and promptly attending to the matters entrusted to my care. The Educational interests of the Province have my warmest sympathy, and I will cheerfully give my aid and support to an Educational measure that will give to the Province *free and non-Sectarian Schools*, holding myself aloof from the personal feeling which has so largely entered into the politics of this Province at the present day. I shall be at liberty to serve my constituents by supporting all measures that will add to their prosperity and the general good.

I am, Gentlemen, with respect, yours truly,

THE NATIONAL Life Insurance Company

OF THE

UNITED STATES OF AMERICA

WAS Chartered by Congress, in 1868, with a capital of ONE MILLION DOLLARS, every dollar of which was paid in before commencing business.

This capital is four times as large as that of any American Company doing a Life Insurance business exclusively. Beside this immense capital, the Company have invested a premium reserve to meet maturing Policies of seven hundred and sixty-six thousand dollars, making their total assets to January 1st, 1871, one million seven hundred and sixty-six thousand dollars. Their liabilities to same date were $807,889, or in other words, they have more than two dollars assets for every dollar of liabilities. This success is owing to the facts that their business is conducted upon the only common sense plan—"so much insurance for so much money"—and that the Company's financial management has been economical and cautious.

In this Company there are none of the bewildering uncertainties and disappointments of "notes," "dividends," &c., &c., &c., which enter so largely into the business plans of Mutual Companies. The insured buy what they pay for—Insurance. They are not called upon to insure others, but they are insured by the Company.

Instead of charging thirty per cent. more than is necessary to cover possible losses, the National charges the net cost of Insurance and risks its capital to cover any extra mortality. Mutual Companies MAY not need to use this extra thirty per cent.; in that case it is returned to the Policy-holder and mis-called a "Dividend." The National does not need any extra guarantee, its capital being sufficient, and consequently its rates are from 25 to 30 per cent. lower than those of Mutual Companies.

The National's Policies are more liberal than any issued in the Provinces, allowing residence or travel anywhere in temperate climates. No extra Premiums, Police fees, Permits, or extra charges, except upon the half dozen occupations generally recognized as EXTRA hazardous.

The National is the only Company which has made the required deposit at Ottawa for the sole benefit of Canadian Policy holders. All others are for "POLICY HOLDERS GENERALLY."

Five cents per day will insure a young man a thousand dollars, IN GOLD, payable to him at the age of sixty, or to his representatives should he die sooner. Four cents a day will insure a man, aged 38, for one thousand dollars, payable to his wife or children at his death, wherever that may occur. What easier way is there to make such a provision? Is it not worth your while to investigate?

Agencies are established throughout the Lower Provinces where the fullest information will be cheerfully given. Should there be none to whom you can conveniently apply, a note addressed to the General Agent at St. John, will be promptly answered. Address

JOHN C. RISTEEN,
P. O. Box 428,
Saint John, N. B.

References in regard to the Company's standing will, upon application, be given to prominent men in all parts of the Lower Provinces. [mar 9.
