Mr. Muraire, and other Protestant missionaries. The *Freeman* never did like the plain truth to be told of it.

WONDERFUL LONGEVITY.—Three Brothers all well to do farmers and all natives of Granville, Annapolis County, viz., Benjamin, Samuel and and Abner Foster, had a reunion at the residence of Samuel recently. All were robust and vigorous in body, and mind, and their ages are as follows: Benjamin, 89 years, Samuel 87 years, Abner 78 years. The average ages being 84 years 8 months, and their united ages 254 years. They are members of a family of twelve children.—*Mail.*

"The Commissioners have purchased from the contractors for the Eastern Extension Railroad, 2 locomotive engines for $17,000, and 25 platform cars, at a total cost of $10,000, as well as two first-class passenger cars and one second-class car, at a total cost of $8,150, for use on that part of Eastern Extension Railroad, open between Painsec Junction and Amherst. Several of the contracts on the road have been recently relet or annulled."

BISHOP HELLMUTH.—The Very Hev. I Hellmuth, D. D. (a converted Jew) has, we learn, been elected assistant Bishop of the Diocese of Huron, Ontario. Dr. Hellmuth belongs to the Evangelical School in the Church of England, and has for some years held the office of Dean of Huron.

RAILWAY TO THE NORTHWEST.—We are glad to notice that the Toronto *Leader* favors the early construction of a railroad from Pembina to Fort Garry, as a most desirable temporary measure, and the first link in the Canada Pacific Railroad. It is clearly the right course. Our contemporary says:

We take it for granted that a railway to connect Pembina and Fort Garry is an absolute necessity; that, in any case, its construction must be proceeded with at the earliest possible moment. If the principal object to be kept in view is the speedy settlement of the Northwest it does not seem unreasonable that a road which would most speedily further this object is the one which would first commend itself to the Government. We know that the Government are pledged to build the Interoceanic Railway in such a way as will not press severely upon the finances of the Dominion; and, as a commencement will have to be made somewhere, they will be more likely to make a beginning at the end which is most required than at the end which is of less general importance.

If these seventy miles were built we should have rail from St. John to Fort Garry.—*Tel.*

A reporter of one of the New York papers thus describes the scene at a police station to which a number of those injured by the Ferry Boat explosion were taken:—

In the centre of the room stood a poor woman, with her clothes torn away from her shoulders and cotton sticking to fearful burns upon her breast and arms, from which the water with which they had been recently washed dripped, mixed with blood. A knot of people had been collected by her groans as the doctor sponged and dressed her wounds; and behind this crowd, in a corner of the front room, lay eleven bloody and besmirched corpses. In chairs behind the railing sat two men and a woman fearful to behold, with bloody and scalded hands and faces, and one man internally wounded, who had fallen to the floor and lay there curled up in agony. The room in the rear of this was very ill lighted and almost dark, and in every corner some fearful shape was sitting or lying, moaning and gesticulating with skinless, bloody hands, and striving to articulate with scorched, scalded lips and blackened tongues. A doctor was bending over an old woman on a stretcher on the floor, who screamed with agony at every touch and movement, and another woman sat in a chair blackened and mutilated in a fearful manner, begging for a tub of water. Wounded men lay about the floor in pools of their own blood, and fumes of the wine and brandy, which had been administered to them, mingled with the sickening odor of charred flesh. Men, women and children, still alive, would be brought in scorched and bruised and mutilated to such a degree that it seemed almost impossible that life could remain. Around the corpses in the front room the crowd was incessant and was constantly recruited from the people who came in. Among the dead lay a man with the back of his head absolutely blown off. He was said by some to be a fireman. In the most interesting group was a respectably dressed woman of 30 years, apparently a sewing woman, with a plain wedding-ring on her left hand, her head crushed and her mouth clotted with blood. One of the saddest and most affecting sights in the search for the injured, was the discovery of several little children and infants, whose tender limbs and bodies were bruised in the most horrible manner. Of course these were nearly dead. The excitement on Staten Island is beyond belief. At every ferry are crowds of women and children looking out for the missing ones, and among whom are many of the most prominent Staten Islanders. Col. Meacci, a well known inhabitant, was fearfully scalded about the arms and body. Mr. Meacci was a partner of Garibaldi while the latter was in this country.

BRITISH AND FOREIGN.

PARIS, July 28.—A rumor that Bismark consented to evacuation of environs of Paris 1st of August is pronounced without foundation. German troops will not be withdrawn until 1,500,000,000 (fifteen hundred millions) francs have been paid. It is impossible for the government to pay so early.

The *Avenir* says that the Empress of the French has written to the Czar urging him to maintain friendly relations with France. Meeting of deputies of the left and extreme left has been held to bring about coalition of two wings of the Liberal party of the Assembly, but without effect. Three hundred deputies have pledged themselves to vote for prolongation of Thiers powers as chief Executive.

LONDON, July 31.—Two thousand people assembled in Trafalgar Square this evening to protest against the allowance to Prince Arthur. Much excitement was manifested.

The entire Police Reserve was called out and seized a Communist flag which was carried by one of the clubs. Some fighting is expected and arrests have been made. The meeting adjourned in disorder and the crowds were dispersed by the police.

In the house of Lords Granville moved a favorable answer to the Queen's message for an annuity to Prince Arthur, warmly eulogizing the Prince. It was seconded by the Duke of Richmond, who moved a vote of censure of the Queen's message abolishing the army purchase system, and donounced the speeches at the Mansion House Banquet relative to the Treaty of Washington. A long debate ensued, but the Government was sustained by 80 majority.

The Commons passed the allowance of fifteen thousand pounds per annum to Prince Arthur, 276 to 11.

LONDON, Aug. 1.—The Queen to-day signed the Bill providing annuity for Prince Arthur.

A case of cholera is reported in England at Hull. Measures are being takan to prevent the spread of the disease. It has also appeared in the South of France, where precautions also have been adopted.

Bazine is in London.

DUBLIN, Aug, 1.—The Prince of Wales presided at the Banquet of the Agricultural Society to-night.

On replying to the toast of the Queen and Royal Family, His Royal Highness expressed the hope that the Queen would soon visit Ireland, and defended his brothers from the charge of uselessness.

Prince Arthur responded to the toast. He protested that he has a lasting interest in Ireland's welfare, and predicted a prosperous future for the country.

Princess Louise in reply to petition, said it would be impossible for her to interfere for release of Fenians.

UNITED STATES.

NEW YORK, July 29.—It is said that Thiers issued a proclamation of amnesty to the Communists.

Favre's resignation has been accepted, and he is succeeded by Gouland.

The particulars of the famine in Persia show an appalling state of affairs. In Khorassan the people sell their children to the Turcomans to save their lives, in other Provinces the people eat their children after eating all the domestic animals and vermin. Isbahan men were caught digging up corpses to feed their starving families, and the pestilence in consequence committed fearful ravages. One half of Persia is depopulated.

NEW YORK, July 31.—A fearful catastrophe occurred on board the Staten Island ferry boat Westfield, yesterday afternoon. Her boiler exploded, opening her decks killing 59, and wounding 100 persons, many fatally. About 400 were on board.

NEW YORK, July 31.—A train of nine cars was precipitated from a railroad bridge into the Narasota River, Texas, on Saturday night. Seven lives lost.

Cable advices to-day announce the death of John Slidell, formerly Confederate Minister to France.

Protests and meetings against granting allowance to Prince Arthur agitate England.

The abolition of the purchase system in the army also creates excitement, and it is said resolutions will be introduced in the House of Commons to-night censuring Government for the step.

NEW YORK, Aug. 1.—The terrible ferry boat explosion of Sunday continues to be the chief topic of remark by the press and people. The *Standard* gives a list of 94 dead and two hundred injured.

Gold and exchange quiet.

The Persian Minister at London publishes a statement contradicting much of the recent hoirrible story relating to the famine in his country.

The Prince of Wales arrived in Dublin last evening. A grand recepeion was given him. Some hisses were indulged in by the Fenian element. The city was gaily decorated with flags, but the illumination was not so general as anticipated.

A want has been felt and expressed by physicians, for a safe and reliable purgative; such a want is now supplied in *Parsons' Purgatiee Pills.*

Henry K. Bond, of Jefferson, Maine, was cured of spitting blood, soreness and weakness of the stomach, by the use of *Johnson's Anodyne Liniment.*

In all disorders of the pulmonary organs, so prevalent in our ever-changing climate, the action of Dr. Wilson's Pulmonary Cherry Balsam is perfectly irresistible. It is not of essential consequence how long these disorders may have lasted, provided the last stage of consumption has not set in, the daily use of this preparation will most certainly effect a cure, not temporary or superficial, but permanent and lasting. A trial of many years has proved to the world that it is efficacious in curing such complaints beyond any remedy hitherto known to mankind.

Bowel complaints should receive prompt attention. In the incipient stages of Diarrhœa and Dysentery, cure is easy; but when the symptoms are neglected, and those diseases allowed to make headway, they often prove fatal. Dr. Wilson's Anti-Bilious and Preserving Pills, cleanse the bowels, give healthy action, and remove obstructions, making all the machinery work well.

The sale of that remarkable and very valuable preparation, Dr. Dow's Sturgeon Oil Liniment, is constantly and rapidly increasing. It has been but a few years since the doctor first introduced it to the public, yet such are its virtues that some thousands of bottles have already been sold.

A dose of Clark's Derby Condition Powders administered occasionally will improve the appearance of your horse, and cause him to assume a smooth and glossy coat.

The age of railroads and the telegraph gives rise to fast living, and increases the desire for making rapid fortunes,—some wishing to outstrip, and others to be at least equal to their neighbors. In order to keep up with this eager and unequal contest, the brain is taxed to its utmost power, while humanity is rendered an easy prey to disease. The Heart, Liver, Stomach, Lungs, or Nervous System becomes afflicted, and sickness, in the form of the Heart Disease, Jaundice, Dyspepsia, Bronchitis, Consumption, Paralysis or Mania, is the result. The use of Fellow's Compound Syrup of Hypophosphites will enable the mind to sustain a greater strain unfettered by conflicting thoughts and unwearied by continual study. It imparts power of concentration. What before seemed difficult of solution becomes comparatively easy, and the body is physically stronger under its use.

WILLIAMSBURG, L. I., 258 Grand St.,
June 11, 1866.

MESSRS. B. L. JUDSON & Co.

GENTS: It is with great pleasure I write these few lines, not only as a recommendation, but as I feel a very great benefit derived from taking your Worm Candy (Dead Shot). I have suffered much for 10 years past, tried many medicines, been under treatment of physicians in this city, but all to no avail. I felt a gnawing sensation in my bowels, sleepless nights, and very nervous. I have now taken about ten sticks, and quite a number of tape worms, one several yards long, has come from me. I continue taking it, feeling quite a new man, my sensations quite different; and I recommend the same to the community at large, feeling confident, from practical experience, it is the best eradicator of worms in use.

Yours most respectfully,
DAVID GALER.

CITY OF BROOKLYN, } ss.

M'KENZIE'S DEAD SHOT WORM CANDY

for sale by all Medicine dealers, at 15 cents per package.

HOW TRUE and how strange, that people should seek relief in the hieroglyphics of a doctor's prescription when they can buy as good, and nine times out of ten a better remedy than most doctors give, for the insignificant sum of 25 cents. We refer to Morse's Indian Root Pills, these pills cure Headache, Liver Complaint, Indigestion, Female Irregularities, and all bilious disorders, they are prepared from a formula pronounced by the most learned Physicians of our country to be the best and most universal of family medicines. Give them a fair trial and you will never be without Morse's Indian Root Pills.

In numbers there is safety, it is upon this principle that the formula of Johnson's Mountain Herb Pills was prepared. It was not the result of one man's knowledge. Dr. Judson, intending to spend a fortune in advertising his Pills, consulted the most intelligent and learned physicans of the age, and the result was the production of a simple but efficacious medicine the Judson's Mountain Herb Pills. These pills cure Biliousness, Dyspepsia, Liver complaint, Indigestion, Female Irregularities, &c.
