WATCHMAKING IN SWITZERLAND. [From the Swiss Times of May 30th.]

W E have already drawn attention to the 23rd current, ing of the Society of Arts, held on the 23rd current, and are under the presidentship of M. Th. de Saussure, and are ow able to furnish some further details.

Professor Soret, in delivering a most interesting report, assed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the bject of tealing the workmanship and precision of class nometers turned out by Genevese manufacturers, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observa tory, and underwent the most searching ordeal possible to e applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palm of excellence unanimously cided in favor of Messrs, J. M. Badollet & Co. This firm having earried off the sole prize by exhibiting a chronometer which fulfilled in the highest degree every condition required, crowned their first success by gaining ionorable mention for two other chronometers. The alusion to this triple honor was received with enthusias applanse, and Professor Humbert, President of the Flat Arts Section closed the meeting with happy and humorous dissertation upon subjects connected with this de An assortment of GOLD AND SILVER WATCHES, of different grades, from the eminent manufacturers above referred to, always kept in stock by
