SCOLDING.

Scolding is mostly a habit. There is not much meaning to it. It is often the result of nervousness, and an irritable condition of both mind and body. A person is tired or annoyed at some trivial cause, and forthwith commences finding fault with everything and everybody in reach.

Scolding is a habit very easily formed. It is astonishing how soon one who indulges in it at all, becomes addicted to it and confirmed in it.

It is an unreasonable habit. Persons who once get into the way of scolding, always find something to scold about. If there were nothing else, they would fall a scolding at the mere absence of anything to scold at.

It is an extremely disagreeable habit. The constant rumbling of distant thunder, cater-waulings, or a saw-filing under one's window would be less

The habit is contagious. Once introduced into a family, it is pretty certain, in a short time, to affect all the members. If one of them begins al- "vulgar" for her to know how to dress a shad, or ways finding fault about something or nothing, the others are apt very soon to take it up, and a very unnecessary bedlam is created.

People in the country more readily fall into the habit of scolding than people in the city. We suppose it is because they have less to occupy and divert their attention.

Women contract the habit more by frequent use than men. This may be because they live more in the house, in a confined and heated atmosphere, very trying to the nervous system and the health in general; and it may be partly, that their natures are more susceptible, and their sensitiveness lifetime. more easily wounded. Women are sometimes called divine, but a scolding woman never seems divine. But we will say no more on the subject, or some pretty creature may feel inclined to scold us for what we say about scolding.

#### THE QUEEN AT THE PAPER MILL.

The queen was riding out in her grand carriage, the horses tossing their plumes as if they felt themselves a little better than common horses, and the footmen all decked out in red, feeling that they had something royal about them. The queen had always had everything she wanted, and so was faith, and to the clearness and intensity of our dequite miserable because she could not think of a sire on their behalf. #### THE WAY TO SPOIL GIRLS.

If any parent wishes a receipt how to spoil daughters, it can be easily and readily given, and can be proved by the experience of hundreds to be certain and efficacious.

1. Be always telling her from earliest childhood what a beautiful child she is. It is a capital way of inflating the vanity of a little girl to be constantly exclaiming, "How pretty!" Children understand such flattery even when in the nurse's arms, and evil is done the character in its earliest forma-

2. Begin as soon as she can toddle around to rig her up in fashionable clothes and rich dresses. Put a hoop upon her at once with all the artificial adornment of flounces and feathers, and flowers and curls. Fondness for dress will at once become a prominent characteristic, and will usurp the whole attention of the young immortal, and be a long step | toward spoiling her.

3. Let her visit so much that she finds no happiness at home, and therefore will not be apt to stay there and learn home duties. It is a capital thing | STEAM ENGINE AND MACHINE SHOP. for a spoiled daughter to seek all her happiness in visiting and change of places and associates. She will thus grow as useless as modern fashionable parents delight that their daughters should be.

4. Let her reading consist of novels of the rauseatingly sentimental kind. She will be spoiled sooner than if she perused history or science. Her heart will be occupied by fictitious scenes and feelings, her mind filled with unrealities, and her aims placed on fashion and dress and romantic attach-

5. Be careful that her education gives her a smattering of all the accomplishments. If her mind and time are occupied in modern accomplishments. there will be no thought of the necessity and virtue of being of some real use to somebody pervading her heart, and she will be soon ready as a spoiled

6. As a consequence, keep her in profound ignorance of the useful arts of house-keeping, impressing upon her mind that it is vulgar for her to do anything for herself, or to learn how anything is done taught the mysteries of the kitchen; such things a lady always leaves to the servants. It would be to bake, to wash, to iron, to sweep, to wring the neck of a live chicken, to pluck and prepare it for breakfast, or do anything that servants are hired to do. As a mistress of a house, it is her duty to sit on a velvet sofa all day in the midst of pyramids of silks and flounces, reading the last flash novel, while her domestics are performing the la-

CAUTION !! CAUTION !!! TO THE PUBLIC OF THE BRITISH PROVINCES I beg most respectfully to acquaint the public of the British North American Provinces, that in May, 1871, I caused the business at 80, Malden Lane, New York, for the sale of HOLLOWAY'S PILLS AND OINTMENT, which were, up to that time, prepared by William Brown, now ceased, to be closed. I regret to say that I have reason to know that the management of the late business had for some years, and in many ways, been most corrupt: and it may be that the Pills and Ointment were not pre

pared with that care I have always desired. Those who do not wish to be deceived by buying spu ous medicines, which are now likely to emanate from the States or elsewhere, but to possess themselves of the genuine Holloway's Pills and Ointment, manufactured by me in London, England, will do well to see that each pot and box bears the British Government stamp, on which is engraved the words "Holloway's Pills and OINTMENT," and that the address on the label is 533, Ox-FORD STREET, LONDON, where only they are manufac tured, and in no other part of the world. The retail prices are on the labels in British currency, and not in dollars and cents.

No representative of mine will ever travel through any part of the British Provinces, or the United States, either calling upon medicine vendors, falsely representing that they are acting for me, and with my knowledge and conent, I deem it advisable to put the public on their guard gainst any such deceptions.

I most carnestly entreat all those who may read this dvertisement, that they be pleased, in the public interest, to communicate the purport of the same to their friends that they may not be defrauded of their money by pur hasing perhaps worthless imitations of the genuine Hol-LOWAY'S PILLS AND CINTMENT. I would ask, as a great favor, that should it come to the

knowledge of any person that spurious medicines are being made or sold in my name, he be pleased to send me al he particulars he can collect respecting the same, that is o say, the name and address of the vendor who is selling e spurious medicines, and likewise the name and address of the House in the United States, or elsewhere, which may have supplied them, so as to enable me, for the preection of the public, to institute proceedings against suc evil-doers, and I engage to remunerate very handsomely iny person who may give me such information, the inforant's name never being divulged. Should any person have reason to believe that he ha

een deceived by buying spurious imitations, of these Medicines, he will do well to send me, in a letter, to the address at foot (which he can do at a cost of six cents in stage), one of the books of instructions which are affixed the same. I promise to examine it and send a reply ating whether the Medicines are gennine or not, so that spurious he may apply to the person from whom he orchased them to have his money returned. CHURNS! CHURNS! CHURNS! HEALTH! TIME! MONEY! WHY SHOULD IBUY KITCHEN'S PATENT CHURN? ECAUSE they preserve health, save time, save money, and the churning is all done in 5 or 10 minutes. You will then believe what I assure you is true, viz.; That I have for sale the best churn ever invented—Kitchen's Patent Rotary Double Dasher. This churn has two Dashers, each revolving in an opposite direction. It is useless to attempt a description of this churn in an advertisement, it has to be seen to be appreciated. It is estimated dson River Wire Works, cor. Water Street and | by practical farmers that it will produce one-tenth more den Lane, N.Y., or 16 Dearborn St., Chicago, Ill | butter from the same quantity of cream than any other churn now in use.
