A despatch from Washington to the New York *Tribune* of the 21st inst. says:—

It is known that the supplemental article to the Treaty of Washington was proposed in order to relieve the two nations from their antagonistic positions. But while the parties have been in correspondence regarding the amended phraseology of the article, and discussing the subject of postponement of proceedings until the next session of Congress, the Tribunal itself has come to a decision, which renders further controversy on these points unnecessary, and in fact has settled the question in a manner satisfactory to our Government. Secretary Fish, in his dispatch to minister Schenck of April 15, reiterates the views previously expressed, saying:

"Should that august tribunal decide that a State is not liable for the indirect or consequential results of an accidental or unintentional violation of its neutral obligations, the United States will unhesitatingly accept the decision. Should it, on the other hand, decide that Great Britain is liable to this Government for such consequential results, they have that full faith in the British Government's observance of its engagements, to expect a compliance with the judgment of the Tribunal, which a solemn treaty between the two Powers has created in order to remove and adjust all complaints and claims on part of the United States."

To the judgment of the tribunal when pronounced the United States will implicitly bow. They confidently expect the same submission on the part of the great nation with which they entered into such solemn obligations. Of course Her Majesty's Government must be satisfied with the decision of the Arbitrators, excluding the consideration of the indirect claims; and it is thought here that, in consequence of the action of the tribunal, the additional article to the Treaty is rendered unnecessary, and will accordingly be withdrawn from the controversy.

BELLEVILLE, Ont., June 24.—The coroner's jury in the case of the late railroad accident on the Grand Trunk find that it was purely accidental, that the track was in good condition, and that the engineer was a sober, careful and efficient officer, and died at his post.

MONTREAL, June 21.—The dinner to Lord Lisgar, the retiring Governor-General, last night, was a splendid affair, and was attended by men of distinction from all parts of the Dominion. The chair was taken by Sir Hugh Allan. American Consul-General Dart and Mr. Lawrence of Rhode Island, ex-Minister of the United States, were among the guests. The former replied in a very long speech to the toast, "The President of the United States." "The health of Lord Lisgar" was warmly received.

In reply his Lordship prophesied a brilliant future for the Dominion, and paid a high compliment to the Canadian Parliament. He alluded to the great measures passed during his term of office—the entry of British Columbia and Manitoba into the Dominion, the Pacific Railroad act, &c. He felt that he should leave no serious difficultics to his successor, of whom he spoke in very high terms, and said his appointment was evidence that great pains had been taken by the British Government to send a worthy representative.

ENGLISH AND FOREIGN.

PARIS, June 21.—Political affairs in France are getting into a critical condition.

GENEVA, June 24.—It is believed that a serious question will arise before the Geneva Board in reference to indirect claims.

GENEVA, June 25.—It is stated that the Board of Arbitrators at the session on Monday, 17th inst., informed the agents on the part of the United States and England that they considered the indirect claims presented in the case of the American Government as untenable.

There is reason to believe that despatches have been received from the Government at Washington which will lead to a satisfactory solution of the entire question. These despatches Mr. Bancroft Davis, the American agent will communicate to the Court to-day when it re-assembles.

After Wednesday the Tribunal will proceed to consider the direct claims of the United States.

LONDON, June 26.—An International Copyright Treaty between Great Britain and the German Empire has been drafted at Berlin.

The *Daily News* to-day says America agrees to bring non-suited in her case before Board of Arbitration so far as the indirect claims are concerned.

The *Echo* this afternoon says notwithstanding the misapprehension by the American representa- of the intention of their Government relative to indirect claims, it has reason to believe that the Treaty is safe.

The *Standard*, however, is of the opposite opinion.

It is stated thot negotiations for the complete evacuation of France by German troops have been brought to a favourable conclusion.

Geneva despatch says the majority of the Board of Arbitrators are unfavorable to a longer adjournment of the Tribunal than a fortnight. The English representatives leave Geneva on Friday, and therefore it is supposed an important decision will be given on Thursday.

Tooth ache proceeds from ague in the face, operating upon the exposed nerve of a decayed tooth. Rub the gum thoroughly with the finger, wet with *Johnson's Anodyne Liniment*, heat the face well, and lap a flannel wet with the liniment on the face, also put a little of the liniment into the cavity of the tooth on cotton.

The system frequently gets out of order and should be at once regulated, else other troubles will ensue; when physic is needed take *Parsons' Purgative Pills*; they are a safe, wholesome, and natural medicine.

When the safe and sure treatment of all Pulmonary disorders is so simple, and the good results so fully known, it seems almost unnecessary to ask the consumptive sufferer to give Dr. Wilson's Pulmonary Cherry Balsam a fair trial. This Balsam is an infallible remedy for curing all diseases of the respiratory organs, arresting inflammation and checking the progress of decay, by which the health of many is daily coughed away. The Balsam will afford indescribable relief, and will gradually, if faithfully used, bring about a lasting cure.

To prevent the cause and remove the effect is the true theory on which to found a treatment for disease. Langour arises from debility, and debility from the impoverishment of the blood, or derangement of the digestive organs. If from the latter, Dr. Wilson's Anti-Bilious and Preserving Pills are the best tonic medicine in use, and for their purifying and sensative qualities they stand unequalled. For Sick-Headache, Nervous Disorders, Enervation, Indigestion, and Depression of Spirits, they are the only remedy.
