A special to the Telegraph and Journal says:-The verdict of the Coroner's Inquest, at Bathurst, on the investigation of the death of William End, is as follows: "William End's office, in Bathurst, was set on fire on the morning of the fourteenth instant by James Meehan, jr.; that Robert Barclay was an accomplice in being aware of his intention to set fire to said office; that from the condition of said office one half of the roof only and the front part of the building was in flames. Mr. End, entering as he did, by the back door on the windward side of the building, for the purpose of saving his property was justified in so doing, at the time, with prospects of getting out again in safety. That from some cause at present unknown to the jury he was prevented from leaving, by which means he came to his death."

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma,

discoveries of modern science, few are of mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast Z trial of its virtues, throughout this and other countries, has shown that it

shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most langerous affections of the Pulmonary Organs yield to its power; and cases of Consump-tion, cured by this preparation, are publicknown, so remarkable as hardly to be beleved, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By caring Coughs, the forerunners of more serious disease, it saves unaumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid

the distressing diseases which beset the Throat and Chest of Childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multititudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily they can be cured. Originally the product of long, laborious, and successful chemical investigation, no cost or toil

exhibited, and capable of producing cures as memorable as the greatest it has ever effected. PREPARED . BY Dr. J. C. AYER & CO., Lowell, Mass., Practical and Analytical Chemists, SOLD BY ALL DRUGGISTS EVERYWHERE.
