WATCHMAKING IN SWITZERLAND. [From the Swiss Times of May 30th.] now able to furnish some further details. Professor Soret, in delivering a most interesting report,

bassed in review the operations of the Industrial section n reference to Commerce, laying great stress upon the ompetition that has taken place in the manufacture of hronometers. This competition was instituted with the bject of testing the workmanship and precision of chroometers turned out by Genevese manufacturers, and none ut those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observa-tory, and underwent the most searching ordeal possible to Onions. For sale by e applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palm of excellence unanimonaly aving carried off the sole prize by exhibiting a chroometer which fulfilled in the highest degree every conlition required, crowned their first success by gaining onorable mention for two other chronometers. The alusion to this triple honor was received with enthusiasti pplause, and Professor Humbert, President of the Fine rts Section closed the meeting with happy and humorous issertation upon subjects connected with this department An assortment of GOLD AND SILVER WATCHES, of ifferent grades, from the eminent manufacturers above referred to, always kept in stock by
