them. *The Christian Advance* has died for want of financial breath. Moral: "It takes a long time, a long purse, and a long brain to establish a paper on paying basis."

MONTANA TERRITORY.—Bro. William H. Vanwart writes from Helena, under date of December 7th, sending his annual contribution to the mission treasuries. He is well, and we presume, prospering, else he would not stay there. He says:

"Winter has fully set in, though six weeks earlier than for three years past. Snow has fallen from one to three feet in different parts of the territory. Both men and cattle have perished during the late storms. It is sad; but what else can be expected on the summit of the Rocky Mountains.'

In Fredericton four male and twelve female teachers have been appointed, and there are several vacancies yet to be filled. The proposal, by the Roman Catholics, to rent their buildings, having been withdrawn, the Orange Hall, the Stone Barracks, now occupied by the Training and Model School, the Park Barracks, the old Collegiate and the upper flat of the new Collegiate School buildings, together with several school-rooms of little importance in different parts of the city will be used for educational purposes under the present system.

TO CORRESPONDENTS.—T. O. D.: The delay in acknowledgement was because we were not aware of the change in the name, hence did not know to whom to give the credit.—T. W. P.: The paper was ordered to Johnston, W. O., as directed by you, as soon as the money was received. We have called the attention of the mailing clerk to the delay. If it still fails to reach you, please inform us.—"M.": You will see that the matter of which you write was noticed last week.

WHY IS IT?—A subscriber writes: "Why is it that we in the Parish of Johnston, or those who get the INTELLIGENCER by the Gagetown mail route, do not get the paper on Saturday as formerly, instead of on Monday, as we have for the last three or four weeks?"

[The difficulty must be in the postal arrangement somewhere, as the papers are mailed as promptly as usual.—ED. INT.]

☞ Persons sending remittances for either old or new subscribers should always be careful to state particularly the post-office addresses of the persons to whose credit the money is to be placed. Trouble and mistakes are thus avoided.

The Newfoundland seal fishery is said to have been very successful during the past year. An unusual improvement has been made in the different branches of industry in consequence of the large sums of money realized by poor men from this source. Results almost fabulous have been obtained from Labrador and other Newfoundland fisheries.

A Stellarton, N. S., correspondent writes: The miners are in spirits. The Foord pit, bored for water during the past twelve months, has been tapped, and the mine will now be better ventilated, and much safer for the workmen. This pit is one of the finest, perhaps, in the world—38 feet seam and 900 feet deep. The coal is first-class for gas or house purposes. It will be remembered that this pit caught fire a year ago.—*Tel.*

DR. GOSSIP'S CASE.—Dr. Gossip is undergoing examination before a committee of the central Board of Health, Halifax, in reference to his conduct in the case of the cholera infected steamer "Franklin." Graham, a pilot, testifies that he was informed by the captain of the steamer that 28 deaths had occurred from cholera or diarrhœa, and that he brought her to anchor at quarantine until ordered by Dr. Gossip to take her up the harbor.—*Tel.*

BRITISH AND FOREIGN.

LONDON, Dec. 29.—The afternoon papers publish a letter from Queen Victoria in which she says that she desires to express her deep sense of the touching sympathy exhibited for her family by the whole nation at the illness of her dear son. The universal feeling shown by her people during the painful and terrible days of the Prince's illness, their sympathy with herself and her beloved daughter, the Princess of Wales, and the general joy manifested at the improvement in health of the Prince have made a deep and ineffaceable impressions upon her heart. The manifestations of the people are nothing new to her, for she met the same sympathy ten years ago when a similar illness removed the main-stay of her life, the best, wisest and kindest husband that ever lived. Her Majesty says also that she wishes to express the heartful gratitude of the Prince of Wales, and concludes her letter with a hope that her faithful subjects will continue to pray for the complete recovery of the Prince.

A ship named the Eadmorn" foundered off Falmouth yesterday. All on board were lost. No particulars.

The bulletin to-day reports that the Prince of Wales was at times disturbed last night by pain from the swelling above his hip, but in all other respects his condition continues to improve.

The visit of the Queen to sandaringham was not caused by the appearance of ony dangerous symptoms.

There is, probably, no way in which we can benefit our readers more than by recommending to them for general use *Johnson's Anodyne Liniment*. It is adapted to almost all the purposes of a Family Medicine: and as a specific for coughs, colds, whooping cough, soreness of the chest, lame stomach, rheumatism, spitting of blood, and all lung difficulties, it has no equal that ever we saw or heard of.

The propriety of giving condition medicine to horses, cattle and sheep, was discussed and admitted by many of the Agricultural Societies throughout the State last Fall and we believe that in every case but one they decided in favor of *Sheridan's Caloery Condition Powders*. Good judgment.

DISEASES such as Cousumption, Bronchitis, Debility from Typhod and other Low Fevers, from excessive grief, study, or close confinement, and prostration of the vital powers, yield to Fellows' Compound Syrup of Hypophosphites sooner than any remedy ever before discovered.

When winter sets in, the human constitution undergoes many trials, particularly diseases of the Lungs. A preparation which effectually controls these diseases, is Dr. Wilson's Pulmonary Cherry Balsam. Its importance can hardly be over-estimated for preserving health and life itself. This preserving power is admirably displayed by the rapidity with which it subdues and controls all Coughs, Colds, &c., relieving the respiratory organs from undue congestion. With this Balsam at hand, neither great judgment or much experience is required in keeping free from all the Pulmonary diseases through the trying time of winter.

No better Family Medicine can be had than Dr. Wilson's Anti-Bilious and Preserving Pills. A box of these, used according to directions, will not fail to cure. Most of the diseases to which all are liable are specially removed by the use of these Pills.

Rheumatism, Lumbago, and all pains which prevail so frequently during this inclement month, and annoy so much, can be speedily removed with Dr. Dow's Sturgeon Oil Liniment, the advantageous properties of which, over all pains of the muscles and cords, have been long established. Dr. Dow faithfully tried it in his own practice for sixteen years before advertising. For horse-flesh it is the best medicine there is in existence.

An extensive merchant at the North writes to the agent of Clark's Derby Condition Powders, "we have sold all kinds of Condition Powders, but have never supplied our customers with any that gives as much satisfaction as the Derby Condition Powders. You will do well to replenish our stock immediately." Our readers will bear in mind that as a remedy these powders are not confined to horses alone: they are equally beneficial in diseases common to cattle and sheep.

Afar from home and loving friends,
In yonder "Golden West"
He lies, beneath the falling leaf,
In lonely, quiet rest.

Ah, lonely, quiet spot so far away,
No tears of love bedew your chilly sod,
No eye keeps tender, mournful watch o'er you
But the all-seeing, watchful, loving eye of God.

And stranger's feet pass idly by, nor heed
The sacred dearness of that low, green mound,
To hearts that yearn towards it from far away,
And deem its narrow precincts "holy ground."
