THE PEOPLE'S STEAM WASHER!

(PATENTED MAY 1873.)

The Cheapest, most Convenient, and Serviceable Washer in Existence. It is an established fact that Steam will cleanse clothing better, and at far less cost, than any other Agent. An improvement has lately been invented in Nova Scotia, which combines more advantages than any other Clothes

It is so Simple that it cannot get out of Order, and any one may Work with it. It does its work in about an hour, and needs no attention; saves greatly in fuel, soap, time, hard labor, and wear of clothing; can be made by any Tinsmith and at cheap rate.

THE PEOPLE'S STEAM WASHER

kindly assisted by Brethren Reud, McDonald, and Harris.

Much of the divine essence was enjoyed on the occasion. Our prayer is that our afflicted Brother Henry and his motherless children may be divinely sustained. D. C.

THIS WASHER COMBINES MORE GOOD QUALITIES AND COSTS LESS THAN ANY OTHER.

I invite correspondence from Agents everywhere. To them this Washer will become a source of wealth, as I leave a food margin for profits and it sells where the mouth. I will send washer and Boiler complete to any address on receipt of \$5.50. I invite correspondence from Agents everywhere. To them this Washer will become a source of wealth, as I leave a good margin for profits, and it sells wherever known.

Look at the Following Record.

In six weeks I have sold the patent right for every County in Nova Scotia except two. About 60 samples have been sent to order, and no failures reported. I challenge the history of modern inventions for success equal to this.

Mr. Wm. North, of Cornwallis, N. S., got a sample, tried it in several families, and immediately bought the right for six Counties. He may be referred to. Also Rev. Dr. Stewart, Sackville, N. B.; Rev. A. S. Desbrisay, Windsor, N. S.; Rev. Dr. Pickard, Halifax; S. Mr. Whiston,—Sir,—Permit me to say that all which you have stated respecting the "Steam Washer," I have found to be true. The one in use in my family is fulfilling its character. It effects great saving in time and expense. The "Steam Washer" will undoubtedly revolutionize the hitherto dreaded and arduons operations of the laundry.

Yours, &c.

A. Stewart DesBrisay.

(We are authorized 1 the report of trial which has been given to the PEOPLE'S WASHER in our own House, to say that where it is intelligently used, it will be found to effect a very great saving of labor, rendering the now so much dreaded toil of weekly washing comparatively easy. In favor of the Prople's Washer as compared with other SteamsWashers, may be mentioned the following facts:—1st. It is very simple in its construction, and therefore less liable to get out of order. 2d. It is a Colonial Invention and Manufacture. We again commend it to the notice of all Housekeepers, as an article which should be considered well nigh indis-

pensable in every house.—ED. P. W.) I will send samples to intending Agents on receipt of \$5.00 each, S. E. WHISTON, General Agent for New Brunswick and Nova Scotia. Dartmouth, N. S.
