

There was quite a heavy frost in some portions of Cumberland Co. on Thursday night, 17th inst. Business in the matrimonial line is brisk now that Governor Archibald has been sworn in and licenses can be procured. The Governor General and lady will remain in Halifax till the middle of August. A little boy in Halifax was very severely burned on Saturday last, and his life is despaired of. His clothes caught fire while he was playing with matches. A boy named Francis Thompson, 8 years old, fell from his boat on Friday at the North Ferry slip, Halifax, and was drowned. A party of 26 English immigrants arrived by the *Australin*, and have gone to Chatham.

GENERAL.—Recent surveys have determined that the coal-fields of China cover an area of 400,000 square miles. The *St. Stewart*, by the way, is made prior to leaving New York for England, shows him to be worth one hundred millions of dollars. The total debt of New York city and county is \$131,760,000, less \$23,871,014, sinking fund, leaving a net indebtedness of \$107,889,013. The increase of the debt during the year has been \$12,421,050. Staceyville, Iowa, caught the small-pox from a letter from Germany. The question of a platinum coin is again being agitated in Europe. The London and Northwestern railway employs over 2,000 locomotives. Christians in the employ of the Turkish Government will henceforth (the *Zurique* says) be compelled to work on Sundays. The Bristol papers report that a society has been formed in that city to suppress indecent and profane language in the streets. In Burlington, Ia., there is a lady six feet seven and a half inches in stature, and still growing, and she is said to possess two of the towering virtues, beauty and wealth.

On Wednesday about noon Constable Powers arrested Rev. Father Michael in Prince William street, for non-payment of a small school tax bill under \$5, we believe. Mr. Powers, in presence of Mr. Connolly, constable, and others, very politely offered to take Mr. Michael's word of honor for an hour or so, or to permit him to meet him at any time or place he wished in the city, in order to have the matter settled, or permit him to go to jail, if he refused, without his sever being named. He was subsequently published the following letter, which caused some excitement:—

JAIL OF THE CITY OF ST. JOHN, N. B., July 20, 1873. I, the undersigned, Mayor of the City of St. John, protest with all my power against my shameful arrest in the public street of the city when going to discharge my priestly duties, and against my detention in this prison, which is not a place of confinement, but a place of punishment, and against the unjust school tax imposed upon me. I protest in the name of the liberty which the Catholic church has a right to enjoy in this province; I protest in the name of liberty of conscience which was guaranteed to all Frenchmen by the 18th article of the Declaration of the Rights of Man and of the Citizen; I protest in the name of justice and equal rights to every citizen; and I appeal from this prison to every citizen of the Dominion of Canada to stop the shameful persecution of our Government against the Catholic religion. J. MICHAEL, Priest, Cure of the Parish of St. John.

CARLETON COUNTY ELECTIONS.—The candidates at present before the people are Messrs. Appleby, White and Stickney. The result of the last election was a narrow one. Mr. White does not feel disposed to ask the people for their votes at this election. Mr. Appleby's chances of election are said to be excellent, if he being generally respected that he would creditably represent the County. The candidature of Mr. White necessitates the resignation of his seat in the Local Government and Legislature. An election to fill the vacancy thus occasioned will probably take place very soon when there will be a contest of candidates as aspirants to the honour, responsibilities and emoluments of the position. It is not unlikely that Mr. White will be among the number.

WHIRLWIND.—The Charlotte County correspondent of the *News* writes:— On Saturday afternoon some sections of this County were visited by a violent whirlwind, accompanied by a heavy rain and hail storm. The train from St. Andrew's being in the neighbourhood of the wind, was blown down. The storm did not last very long, but its violence while it continued was terrific, and spread destruction among all who witnessed the effect of its fury.

FATAL ACCIDENT ON THE CONSOLIDATED E. N. A. RAILWAY.—The accident was caused by a tornado which passed through Maine about 7 o'clock Saturday evening, and levelled bridges and houses. The car shed was blown down, and a portion of the truss bridge over the river was broken. The train from St. Andrew's was carried away as the engine was entering it. This engine belonged to a working train, and was going to Milford to get a supply of wood for the morning, having four men on board. When nearing the bridge, the train was struck by the wind, and the engine and train were blown into the river. The engine was blown into the river, and the train was blown into the river. The engine was blown into the river, and the train was blown into the river.

UNITED STATES. NEW YORK, July 24.—A fire at Cleveland, Ohio, yesterday, destroyed \$60,000 worth of property. It is officially announced that the insurgents in the State of Jalisco, Mexico, have been completely defeated, and the leader Jesus, captured. The Maryland Academy of Art, on Mulberry Street, and the University of Maryland, adjoining, were burned. The Cathedral, corner of Mulberry and Cathedral Streets, caught fire, but it was saved. The Central Presbyterian Church and German Church, were destroyed from Clay Street. South side fire worked its way back to Lexington, burning all the buildings in Park Street. There is great excitement in the city and vicinity, and details of the losses are at present impossible to obtain. Number of buildings destroyed estimated at 100. NEW YORK, July 26.—The Baltimore conflagration extended over 13 acres. The loss is estimated at a half to one million dollars. The insurance is probably \$500,000. A number of freemen were injured by the heat, and a Sister of Charity died from exhaustion. The quarrel among the Creek Indians in Indian Territory resulted in the death of 50 Indians. The Portland Company's Works, Portland, Me., were damaged by fire to-day to the extent of \$40,000. NEW YORK, July 29.—The Brooklyn Trust Company will resume business, and pay the depositors in full. The cholera has appeared on plantations near Little Rock, Ark., and several deaths are reported. There were two deaths yesterday at Indianapolis, Ind., and three at Lagrange, where the disease has reappeared. At Union City, Tenn., and vicinity, there were twenty-nine deaths from cholera during the week. The San Francisco steamer *Japan*, from Hong Kong and Yokohama, July 7, has arrived with a large number of cholera cases. It is reported that as soon as the Embassy to Europe returns all Japan will be thrown open to foreigners. President Caspades has marched with a strong column for Canaqueay. The insurgents have won a battle in the interior. No details have been received. Gen. Quesada stated yesterday that aid for Cubans was shortly expected from Chili, Peru, Ecuador and Mexico. A letter from Kingston, Jamaica, states that the island is suffering from drouth, the like of which had not been experienced for many years. Nonpar, Va., July 26.—A fire to-day at the corner of Main street and Market square destroyed the *Newton's* buildings, worth \$150,000, principally on boots and shoes and hardware. The Clyde Glass Works at Rochester, N. Y., were partially burned. Loss \$300,000. NEW YORK, July 26.—Destructive storms are reported in various places. The most serious on Saturday evening in Penobscot County, Me., where the tornado caused much damage and a terrible accident, blowing a gap in a bridge, through which a locomotive, with five men, plunged into the river. The bridge was killed, but the others escaped almost unharmed. In Macon City, Mo., on Friday, several buildings including the Masonic Temple, were blown down and three lives were lost. An engine ran into the Baltimore and Ohio Railroad on Sunday, running into a freight train, wrecking 20 cars, killing three persons and seriously wounding four others. Another fire at Norfolk, Va., yesterday; loss \$85,000. The July Agricultural Report of the Government represents no improvement in winter wheat on account of unreasonable weather in some quarters and insect enemies in others.—The average in corn is increased in West Virginia and Minnesota, but decreased in all other States except in Florida and Arkansas, where it remains the same as last year. Corn planting everywhere was retarded by the weather, and in many cases corn has been several times replanted. Other crops of cereals are reported below the average. Potatoes average the same as last year. Gold 154; sight exchange 91; money 3 per cent. BANGOR, Me., 29.—In Lagrange the cholera appeared on Friday night. There were two deaths on Saturday and three on Sunday. Excessive labor has disabled the physicians at that place, and application has been made to this city for physicians and druggists. CINCINNATI, O., July 28.—At Rogersville, in this State, on Saturday night, during the trial of a man called himself Jeff. Davis, for an outrage committed upon a little girl nine years of age, the lights were extinguished, and the prisoner knocked down, dragged out of doors, shot twice with revolvers, then dragged and hung to a tree until he was dead. CONCORD, N. H., July 28.—This forenoon, Noah Ranlet, a coal merchant, was killed at his coal sheds in the railroad yard. The freight train made such a noise that he did not hear the shifting engine backing down, and stepped on a coal car as it stepped on the track. His right arm was severed and the back of his skull and chest were crushed. He was 50 years of age, and leaves a wife.

Bowel complaints should receive prompt attention. The most important stages of Diarrhoea and Dysentery, cure is easy; but where the symptoms are neglected and those diseases allowed to make headway, they often prove fatal. Dr. Wilson's Anti-Bilious and Preserving Pills, cleanse the bowels, give healthy action, and remove obstructions, making all the machinery work well. The sale of this remarkable and very valuable preparation, Dr. Dow's Sturgeon Oil Liniment, is constantly and rapidly increasing. It has been but a few years since the doctor first introduced it to the public, yet such are its virtues, that some thousands of bottles have already been sold. A dose of Clark's Derby Condition Powders administered occasionally will improve the appearance of your horse, and cause him to assume a smooth and glossy coat.

MARRIAGES. At the Free Baptist Parsonage, Fredericton, on the 29th ult., by Rev. James McLeod, Mr. Wm. H. Ebbings, of Fredericton, to Miss Jane Hume, of Stanley, York Co. At the Free Baptist Parsonage, Victoria Corner, on the 29th ult., by Rev. J. W. Foster, to Miss Almida Belyea, both of Brigid ton. At the same place, by the same on the 29th ult., Mr. Albert James, to Miss Margaret, both of Brigid ton. On the 29th ult., by Rev. Thos. Fisher, Mr. Isaac E. Barnes, to Miss Margaret, both of Wickham, Albert County. On the 9th ult., by Rev. Jacob Gunter, Mr. Samuel N. Butler, to Miss Georgiana Potts, both of Marysville, York County. On the 23d ult., by the same, Mr. Wm. Keith, to Miss Sophronia Stairs, both of Queensbury, York County. On the 23d ult., by Rev. T. O. DeWitt, Mr. J. W. Priestly, to Miss Agnes Wood. At the Hall of the King's County, on 18th June, by Rev. T. O. DeWitt, Mr. G. W. Arnold, to Miss Eliza Sullivan Walker, both of Brigid ton. On the 24th inst., at the residence of Mr. John Clark, by Rev. G. Woodpecker, Mr. Joseph Clark, of Brigid ton, to Miss Elizabeth, daughter of Mr. John Clark, of Westmorland County. At the residence of the bride's father, by Rev. W. A. Corry, General Superintendent of Springfield, and Miss Jane McCarty, eldest daughter of John McCarty, of Norton. At Harvey, July 2d, by the Rev. A. Blackadar, Mr. Isaac Allen Daley. At Harvey, July 2d, by the same, Mr. McGrath, Esq., of Wicklow, Carleton County, and Miss Mary Stevens, of Albert County. At Harvey, July 2d, by the same, James I. Carmichael, Esq., of St. John, and Miss Angie S. Wells, of Albert County. At the residence of the bride's father, 28th inst., by the Rev. J. W. Turner, Peter McViear, Esq., of Brigid ton, only daughter of Mr. Robert Mann, all of George.

DEATHS. [Veritas non inserta.] George C., aged 3 years and 4 months, son of George, and Margaret O'Keefe, on the 29th ult., Geo. Richey, aged 60 years. At Kewfield Ridge, on the 31st July, Mary, wife of M. J. O'Keefe, aged 78 years. At East Public, Yarmouth County, June 24th, Elizabeth A., beloved wife of David E. Fisher, brig. Magr. daughter of late Stephen Larkin, of Little River, aged 50 years and 3 months, leaving a husband, one son, and a number of friends. She died under the labors of fever. She was buried 40 years ago under the labors of fever. She was buried 40 years ago under the labors of fever. Her health began to fail about 15 years ago; during these years she was at times a great sufferer, being often brought apparently to the verge of the grave. She was the last to the last that was the guide of her youth. On the 27th of the occasion of her death was improved by the Rev. J. W. Turner, Peter McViear, Esq., of Brigid ton, only daughter of Mr. Robert Mann, all of George.

SHIP NEWS. PORT OF ST. JOHN'S—ARRIVED. July 24.—Stm. City of Portland, Pike, Lo-ton, H. W. Chisholm; bark Jane Wright, Hill, Savannah, C. McLaughlin and Son, Plymouth, E. Fisher; brig, Magr. daughter of late Stephen Larkin, of Little River, aged 50 years and 3 months, leaving a husband, one son, and a number of friends. She died under the labors of fever. She was buried 40 years ago under the labors of fever. Her health began to fail about 15 years ago; during these years she was at times a great sufferer, being often brought apparently to the verge of the grave. She was the last to the last that was the guide of her youth. On the 27th of the occasion of her death was improved by the Rev. J. W. Turner, Peter McViear, Esq., of Brigid ton, only daughter of Mr. Robert Mann, all of George.

TO THE ELECTORS OF CARLETON COUNTY. GENTLEMEN,—To redeem a Pledge made by me on the 11th of June, 1873, and at the solicitations of the Electors of this County, I shall be glad to attend to the duties of the Dominion Parliament, made vacant by the death of the Hon. C. Connell. Respectfully, GEORGE W. WHITE, July 25-1873. Centreville, C. C., 19th July, 1873.

CAUTION. ALL Persons are hereby forbidden to purchase a Note for \$700, dated October 1st, 1872, payable in eight years, signed by the Subscriber, and in favor of John C. White. No value has been received by the Subscriber, and he will not accept of it. NATHANIEL FURCHILL, Clerk, Centreville, C. C., 19th July, 1873.

NOTICE. The Yarmouth and Shelburne Quarterly Meeting of Free Baptists will convene (p. v.) in the new church at Port Lockport on the third Saturday in August, at 2 o'clock, p. m. Wm. M. KNOX, Q. M. Clerk. Receipts for the "Religious Intelligencer" to Aug. 1. Subscribers will please see that their money is correctly acknowledged. The whole number of the paper to which they pay follows the amount paid. Mrs. W. W. 104; Joseph Wilson, 3-48; 104; C. H. W. 104; B. B. 104; J. W. 104; M. S. 104; G. W. 104; F. W. 104; J. A. 104; H. 104; L. 104; D. 104; K. 104; N. 104; P. 104; Q. 104; R. 104; S. 104; T. 104; U. 104; V. 104; W. 104; X. 104; Y. 104; Z. 104.

COUNTRY MARKET. Reported for the Intelligencer by M. J. W. Potts, Produce Dealer, No. 6 Market Street. Thursday, July 31, 1873. Butter, rolls, per lb. 24 to 26c. Do, Dairy packed per lb. 20 to 21c. Eggs, per dozen, 17 to 19c. Chickens, per pair, 70 to 80c. Pork, per barrel, 4 to 5c. Beef, per barrel, 4 to 5c. Mutton, per barrel, 4 to 5c. Carrots, per bushel, 40 to 50c. Potatoes, per bushel, 16 to 18c. Corn, per bushel, 24 to 25c. Oats, per bushel, 18 to 20c. Hay, per ton, 12 to 14c. Straw, per ton, 12 to 14c. Wood, per cord, 12 to 14c. Coal, per ton, 12 to 14c. Lumber, per cord, 12 to 14c. Iron, per ton, 12 to 14c. Steel, per ton, 12 to 14c. Copper, per ton, 12 to 14c. Lead, per ton, 12 to 14c. Zinc, per ton, 12 to 14c. Tin, per ton, 12 to 14c. Silver, per ton, 12 to 14c. Gold, per ton, 12 to 14c. Platinum, per ton, 12 to 14c. Palladium, per ton, 12 to 14c. Iridium, per ton, 12 to 14c. Rhodium, per ton, 12 to 14c. Ruthenium, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12 to 14c. Beryllium, per ton, 12 to 14c. Boron, per ton, 12 to 14c. Fluorine, per ton, 12 to 14c. Chlorine, per ton, 12 to 14c. Bromine, per ton, 12 to 14c. Iodine, per ton, 12 to 14c. Phosphorus, per ton, 12 to 14c. Sulfur, per ton, 12 to 14c. Selenium, per ton, 12 to 14c. Tellurium, per ton, 12 to 14c. Bismuth, per ton, 12 to 14c. Antimony, per ton, 12 to 14c. Arsenic, per ton, 12 to 14c. Mercury, per ton, 12 to 14c. Strontian, per ton, 12 to 14c. Barium, per ton, 12 to 14c. Calcium, per ton, 12 to 14c. Magnesium, per ton, 12 to 14c. Sodium, per ton, 12 to 14c. Potassium, per ton, 12 to 14c. Lithium, per ton, 12
