WINDSOR, N. S., April 8, 1873. MR. WHISTON, -Sir, -Permit me to say that all which you have stated respecting the "Steam Washer," I have found to be true. The one in use in my family is fulfilling its character. It effects great saving in time and expense. The "Steam Washer" will undoubtedly revolutionize the hitherto dreaded and arduons operations of the laundry.

Yours, &c. (We are authorized by the report of trial which has been given to the People's Washer in our own House, to say that where it is intelligently used, it will be found to effect a very great saving of labor, rendering the now so much dreaded toil of weekly washing comparatively easy. In favor of the People's Washer as compared with other Steam Washers, may be mentioned the following facts:—1st. It is very simple in its construction, and therefore less liable to get out of order. 2d. It is a Colonial Invention and Manufacture We again commend it to the notice of all Housekeepers, as an article which should be considered well nigh indisensable in every house.—Ed. P. W.
