☞ Letter from India next week.

At all seasons of the year the rate of mortality from diseases of the lungs is very great. Dr. Wilson's Pulmonary Cherry Balsam will arrest all such mischief. This remarkable curative Balsam exercises the most salutary effect over the entire contents of the pectoral cavity. Air tubercles, blood-vessels, and all other tissues feel its potent power more particularly by relieving the overcharged lungs, and thereby promoting the free circulation of air. It soothes the weary chest and kindly subdues the inflammatory cough, till all is well once more.

Dr. Wilson's Anti-Bilious and Preserving Pills, are adapted to all ages and conditions, in all climates. Containing neither calomel or any deleterious drug, they may be taken with safety by anybody. They remove obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

If you require to use any Liniment or counter-irritant, Dr. Dow's Sturgeon Oil Liniment should be applied as it contains the best ingredients of all other kinds in combination with healing medicines peculiar to itself, and it is without doubt the safest, surest, and best remedy that ever has been invented for external use. It is equally beneficial for man or beast.

Farmers, lumbermen, and others who have used them say the inventor of Clark's Derby Condition Powders is a true benefactor. Try them, you will say they are right.

DR. EARLE'S TESTIMONIAL.

MR. JAMES I. FELLOWS, Manufacturing Chemist. Sir: For several months past I have used your Compound Syrup in the treatment of incipient phthisis, chronic bronchitis, and other affections of the chest, and I have no hesitation in stating that it ranks foremost amongst the remedies used in those diseases. Being an excellent nervous tonic, it exerts a direct influence on the nervous system, and through it it invigorates the body.

It affords me pleasure to recommend a remedy which is really good in cases for which it is intended, when so many advertised are worse than useless.

I am, Sir, yours truly,
Z. S. EARLE, Jr. M. D.

DEATHS.

[*Verses not inserted.*]

On Monday, 7th inst., Richard Harrison, the eldest son of J. Edward N. Holder, at the age of three years and two months.

At Fredericton on the 5th inst., Phœbe Jane, wife of Simon D. Wood, aged 35. Sister Wood was received into the Fredericton Free Baptist Church in the winter of 1870-1. Her hope was bright to the last, and her end peace. Many friends accompanied the bereaved family to Wickham on the 7th inst., where her remains were deposited amongst her kindred.

At North Branch, Oromocto, on the 24th ult., George T. Boone, aged 3 years and 4 months, the son of James V., and Bacheba Boone, was drowned. May the Lord comfort the christian parents under their sad and sudden bereavement. Sermon by Rev. W. Boone.

At Summerville, Carleton County, on the 4th inst., Henry K., the third child of Asa, and Catherine McNinch, died of scarlet fever. For the human family death chooses all seasons. The cradle is his, the first exstacy of maternal joy is subdued into bitter wailing. Childhood and youth are his; the laughing eye is closed, the gleeful shout is hushed. Here is a child, budding with golden promise, the mind just awakened to consciousness, the heart twining its young affections around all that is fair and good; unspotted innocence just ripening into a virtue of choice and effort. Suddenly, the decree goes forth, "Cut it down;" a wind passes over it and it is gone. But why? "it cumbered not the ground," it blessed the soil where it grew and has left a balmy fragrance where it fell. Can it have become extinct, while so many aged, child-like existences, nearly as inanimate as the earth they tread, are suffered to live on? Ah no, its fruit cannot have withered though its stem is crushed. This infant form has only been transported to a land where softer zephyrs, richer dews, and a warmer sun shall make its bloom perennial.
