Will Cleanse your Clothes Without Rubbing.

EVERY ONE SOLD IS FULLY WARRANTED.

## NO FLUIDS OR EXTRA SOAP USED.

It consumes less Soap, less Time, and less Fuel, than the usual method. It saves Labor, Wear, and Tear, and the Annoyance of Wash Day. IT REQUIRES NO ATTENTION WHILE THE PROCESS OF CLEANSING GOES ON. It will do the Washing of the Family while you are Eating Breakfast and Doing up Dishes.

STEAM has long been known as the most powerful agent in removing dirt, grease and stains from clothing, and bleaching them white. Paper makers have for many years used steam in cleaning and bleaching their rags, and they succeed in making, by its agency, the filthiest pickings from the gutter perfectly pure and white. Until the invention of the STEAM WASHER, or WOMAN'S FRIEND, although often attempted, no method had been discovered of applying steam directly to the clothing, which could be used in a portable manner for domestic purposes. The WOMAN'S FRIEND washes without labor. It will do the washing of an ordinary family in thirty minutes to an hour The STEAM WASHER is superior to all other devices, for the following reasons:

1st. It does its own work, thereby saving a large portion of the time usually taken in a family.

2d. It uses much less Soap than is required by any other method.

3d. It requires no attention whatever, while the process of cleaning is going on. A lady can do her washing while she is eating her breakfast and doing up the breakfast dishes.

4th. Clothing wears double the time, washed in this Washer, that it will washed by a machine, or by hand-labor, 5th. Lace curtains, and all fine fabrics, are washed in a superior manner. For Flannels, this Washer is most desirable, as it will not full them as a machine or hand rubbing does. All fabrics, from the finest lace to a bed blanket, can be washed perfectly, and with ease, without the rubbing-board.

IT IS TRULY A LABOR AND CLOTHES-SAVING INVENTION.

READ THE FOLLOWING CIRCULAR AND TESTIMONIALS: I respectfully ask you to read this circular carefully, and candidly consider what I now propose to you as a matter of business. Before making known to you my confidential terms, permit me to state that the matter of washing clothes is one of no small consideration; it is something which concerns every family and every individual. It is but recent since Hand Washing was in common use. Latterly, however, the inventive genius of the country has been directed to the invention and construction of various devices or machinery by which much of the labor, drudgery, loss of time, and wear of material, might be obviated. Ponderous as well as intricate Washing Machines have been constructed—many of which are decided improvements over the old method of washing—and these machines have been very saleable with all. People will continue to have Washing Machines; but let me ask you, if the STEAM WASHER car, be constructed for a few dollars (much less than any ordinary Washing Machine), and enable all to wash by STEAM without labor, loss of time, without wearing of clothing, etc., is it not reasonable to suppose that it will supersede, in a great measure, all Washing Machines now in common use? The sale of this Washer is unparalleled, and must be so. There is nothing like it in use. It is new, and every family needs it and will buy it. I wish to secure a few good men to sell rights for me, and in order to secure as many as I need immediately, I offer extra inducements. My price for territory is \$9 per 1,000 inhabitants; but if you will buy a single county, and agree to sell rights for me, I will allow you to deduct 66 2-3 per cent. as your commission; consequently, your county would cost you but \$75, instead of \$225, should it contain but 25,000 inhabitants, more or less in the same proportion. And to those buying rights I will sell Washers at nearly cost, and to those not buying rights I will furnish Washers at \$60 per dozen; and bear in mind. I will sell to no one except a single dozen until he first buys the right to a county. Any timper can and bear in mind, I will sell to no one except a single dozen until he first buys the right to a county. Any tinner can make the washers as well as they can be made here, and save the cost of transportation. Remember that by purchas-

make the washers as well as they can be made here, and save the cost of transportation. Remember that by purchasing the right of a single county, you shall have the privilege of selling any county or state for me, and upon application I will forward the deed to you by express for any territory which you have sold for me, provided that the said territory is not already disposed of when I receive your order. I will make all the deeds, so there can be no confusion or mistakes. The amount you have to pay me is simply \$3 per 1,000 inhabitants, in any county or state. I shall make these very liberal offers for a short time only, after which I shall sell at my regular price \$9 per 1,000.

Many of my patrons have requested me to suggest to them the best method of selling the Woman's Friend, in order to make the most money in the shortest time practicable. In reply I would say, that there are many methods which might be suggested, all of which seem to work well, but the most prominent of which I will suggest: In the first place, send for a sample and carefully test it; you will learn by a single trial how to wash with it most successfully. All you have to do now is to exhibit it to others. I will suggest that you make an engagement to wash at a certain place, at an appointed hour; manage to have as many present as possible. You will be astonished at the intense excitement it will produce after the water and steam have rushed through the tubes and foamed over the clothing rushing back through the clothing to the lower bottom, to be suddenly returned again in the same manner—say for thirty minutes—you take out the clothing, sinse and wring out, and find the clothing perfectly clean. You will find thirty minutes-you take out the clothing, sinse and wring out, and find the clothing perfectly clean. You will find all perfectly delighted with it.

You can take orders from nine in ten present, to be filled afterward, at prices ranging from \$8 to \$10 each. A single trial in this manner will satisfy you that the WOMAN'S FRIEND is a success and will sell. You should, in that case, lose no time in ordering a deed for you county, to be sent by express C. O. D., if not convenient to advance Gentlemen—It is very gratifying to me, after having occupied the Civic Chair for three years, to receive the assurance of your approval of my endeavors to promote the public interests.

Encouraged by this expression of the confidence of my fellow citizens, I cheerfully comply with your request to allow myself to be again placed in nomination for the Office of MAYOR.

I have the honor to be

Your obedient servant,

THOMAS M. REED.

To T. B. Barker & Sons, Jeremiah Harrison, Esq., John W. Nicholson, Esq., and others.

To T. B. Barker & Sons, Jeremiah Harrison, Esq., John W. Nicholson, Esq., and others.

To T. B. Barker & Sons, Jeremiah Harrison, Esq., John W. Nicholson, Esq., and others.

To John M. Responsible Tinner to make the Washers—the price will vary according to style and finish. I have known some agents to sell as many as twenty Washers in a day. After you have introduced it more or less in your county, you can take another county, and the wherever you can get a single Washer in a neighborhood it will sell many more. Consequently, after you have sold a few hundred in a county, you can sell the right of your county for much more than at the start. You can caheulate what your gains will be by buying a single county; but this is not a tenth part what you onght to make, for while you are travelling you will meet with many men who want to make money, to whom you can sell rights. There is no business you can early be believe they could make better terms for themselves, and make more money.

Certificate of Agency, a book containing the cerisus of 1870, Patent Laws, Instruction how to sell Patents, and Pictorial Your assumption of the Washers retail at \$10. After I send you as sample, I will hold your county a reasonale time for you to decide whether you wish to purchase or not. I will furnish blank deeds, and will do all I can to enable you to succeed in the business. Let me hear from you soon, or

furnish blank deeds, and will do all I can to enable you to succeed in the business. Let me hear from you soon, or your choice of territory may be sold to some one else. Do not ask me to send C. O. D. DIRECTIONS.

. Soak the clothes over night in warm suds-in the usual manner, 2. Put in the bottom of the WASHER a quarter bar of good soap enough to make good suds, sliced up thin; then fasten down the false bottom—see that the centre valve is in the proper position; put in water enough to cover the cap over the valve, say about an inch; lay the clothes down smoothly with the soiled parts well soaped, in the WASHER eap over the valve, say about an inch; lay the clothes down smoothly with the solled parts well soaped, in the WASHER—not rolled up, but spread out, so the water can circulate freely—and carefully pack the clothes down; see that the fire is hot sufficient to generate steam; when the water boils, it will begin to flow up the tubes on the outside, at the ends of the WASHER, and through the holes into the washer again; after a steady circulation has been going on in this manner for about thirty to forty minutes, the washing will be completed. Rinse well and wring out, same as in the usual way. Colored clothes must not be mixed with white. Use soft water for boiling ALWAYS. If hard, use soda, lye, or make it soft in any other way. If it is desired to bleach with the WASHER, this may be done by adding a table-spoonful of borax of commerce

to a WASHER full of clothing. Patented in Canada, Jan. 30, 1872. Wholesale Agents for the Maritime Provinces.

J. C. TILTON—Dear Sir: The Steam Washer came to hand last week, Monday evening. Tuesday morning it was at work while we were taking our breakfast, and did its work well. We have given it another trial this week, with good success. Mrs. Stone is quite enthusiastic in its praise. She thinks it gives to women emancipation far surpassing all that woman's suffrage could do for her. \*\*

I want the right for Chemung, N. Y., Bradford and Tioga, Pa, (Rev.) Levi Stone.

Dear Sir: Your Steam Washer gives excellent satisfaction here. My wife has used it for several months, and has never had to use the rubber. She would not sell the one you sent us for \$50, if she could not get another one. Please find (\$13) thirteen deliars \$10 to apply on Deed to this County, and \$2 for posters and directions, and \$1 for stamps. Send balance of bill C. O. D., and instruct the Express agent to hold it for 30 days, if I cannot pay it sooner. Yours respectfully, SAMUEL FREY.

Address all Orders and Letters to J. C. TILTON, No. 10 5 Sixth Street, Pittsburgh, Pa. P. S.-CUT THIS CARD OUT and preserve it for future reference. Persons writing me from seeing this card will please state where they saw it.
