S. L. Tilley and Dr. Tupper are in P. E. Island.....The cod fishery of Newfoundland this year is better than for many years previous.

The Halifax *Chronicle*, of the 17th inst., says:—We learn from a correspondent at Canning that the steam saw mill lately built by Mr. J. E. Woodworth, at Kingsport (formerly Oak Point), in connection with his shipyard, was totally destroyed by fire on Monday night. When the fire was first discovered, between 11 and 12 o'clock, the mill was all in a blaze, and the side of the ship on the stocks adjoining had also caught, and she was only saved by great exertion. The origin of the fire has not been ascertained. The mill was shut down at 6 P. M.; at 9.30 o'clock everything was right; two hours after all was a mass of flames. The women of the neighborhood deserve especial praise. They vied with the men in getting water and taking it to the fire, and without their assistance it would scarcely have been possible to have saved the ship, probably worth, as she now is, from $15,000 to $20,000.

SUFFERERS from coughs, colds, bronchitis, croup, influenza or whooping-cough, will find relief in *Dr. Wistar's Balsam of Wild Cherry*, which has now been in use for nearly half a century, and still maintains its long established reputation as the great remedy for all diseases of the throat, lungs and chest.

The relaxing power of *Johnson's Anodyne Liniment* is truly wonderful. Cases are already numerous where bent and stiffened limbs have been limbered and straightened by it. When used for this purpose, the part should be washed and rubbed thoroughly. Apply the liniment *cold*, and rub it in with the hand.

A crowd of "Horsemen," and others, daily throng the stores in country and town for *Sheridan's Cavalry Condition Powders*. They understand that horses cannot be kept in good condition without them, and with them can be on a much less quantity of grain.

BRAIN INVIGORATOR.

Lancaster, Pa., July 31, 1871.

MR. JAMES I. FELLOWS—*Sir:* I am pleased to inform you that my health is improving under the use of your Hypophosphites. Excessive tax of the brain had so exhausted my body that I could neither work nor enjoy myself, and it was with difficulty that I could sleep at all. I tried rest, and active exercise, various medicinal remedies, and the most popular physicians, and accidentally heard of your Syrup in New York. I purchased three bottles at Caswell & Hazard's, and until I used that nothing relieved me. Now I can eat well, sleep well, work well and feel well, and have good reason to consider your Syrup a most surprising and capital restorer of the mind and nervous system, and advise all who have much brain work to take it. You are at liberty to use this as you may.

Yours, very truly,
JEROME SHENK, Insurance Agent.

BEWARE OF PALLIATIVE MEDICINES.—Of all the evils that afflict this and all other parts of this northern continent, vile nostrums, that quacks and empirics thrust before the public as cures for the most deadly of all diseases, consumption, is the worst. They generally cure a cough about as much as cold water, and the patient thereby lets the disease take such hold, and progress so far, that no human power will avail him. The benefit derived from palliative medicines is an early grave. Dr. Wilson's Pulmonary Cherry Balsam takes hold of the disease at the bottom, and effects a perfect cure. No cough can resist this famous restorative, and no remedy ever discovered has proved so effective—a fact to which myriads of living witnesses can testify.

When the liver becomes deranged, it is accompanied with shooting pains in the head, or a dull pain in the back part of the head, dimness of vision, the bowels are constipated, the stomach dyspeptic, the urine high colored, and sometimes scorfulous sores on the back part of the neck and scalp. Treatment; take Dr. Wilson's Anti-Bilious and Preserving Pills according to directions.

We could not find room for all the testimonials Dr. Dow could publish in favor of his Sturgeon Oil Liniment. It is sufficient that they are numerous enough to warrant us in recommending it to our readers as the best liniment for man or beast.

All our horsemen, country merchants, and others, who have used and sold them strongly recommend Clark's Derby Condition Powders to the public as an article of great value; and all say they never knew a preparation to become so popular in so short a time.

CUSTOMS' DEPARTMENT.

Ottawa, 27th June, 1873.

SIR,—I have it in command to call your attention to the following Sections of the Act, respecting the admission of the Colony of Prince Edward Island, as a Province of the Dominion:—

Section 3.—If after the admission of Prince Edward Island into the Dominion, there be brought from it into any other Provinces of Canada, any article of commerce not being the produce of the Island or of Canada, and liable to any duty of Customs when imported into Canada from any foreign country, or any such article produced in the Island and liable to a duty of Excise if produced in Canada for consumption therein, then if such Canadian duty of Customs or Excise be greater than the duty of Customs or Excise paid on such article in the Island, the difference between the Canadian duty and the duty paid in the Island, shall be payable on such article when brought from the Island into any other Province of Canada, and such difference shall be collected under such regulations as the Governor in Council may from time to time make in that behalf; and any such difference of duty payable under this Section, shall be a duty of Customs within the meaning of the Acts respecting the Customs hereby extended to the said Island all the provisions whereof (including those respecting warehousing) and the penalties for contravention of such provisions, shall apply to such difference of duty.

Section 4 limits the operation of the above Section to "the end of the now next Session of the Parliament of Canada, and no longer."

As no Order in Council has yet passed for regulating the procedure of the Customs in collecting the difference of duty in the cases mentioned, I have to request you carefully to examine such dutiable goods as may be brought to your port from the Island, and to inform yourself of the actual rate of duty paid thereon, and collect the difference between the rate so paid, and the rate per Dominion Tariff, and the difference to be collected, and all such transactions are to be accounted for in your statistical books and returns, separately from the general specifications of imports.

If the goods brought to your port are the produce or manufacture of the Island, and subject to duties of excise, the difference to be collected will be between the excise duty paid, and the excise duty of the Dominion; but in all cases the amount collected is to be treated by you as an import duty of Customs.

The Act, and these instructions are to be enforced from and after the date which may be assigned for the admission of the Island to the Dominion by proclamation of Her Majesty the Queen.

I am, Sir, Your obedient Servant.

J. JOHNSON,
Assistant Commissioner of Customs.

To the Collector of Customs, Port of Charlottetown.
