## Poetry.

TRIFLES. Why do we speak of a "little thing," And " trifles light as air ?" Can aught be a trifle which helps to bring One moment's joy or care? The smallest seed in the fertile ground Is the germ of a noble tree; The slightest touch on a festering wound, Is it not agony?

What is a trifle? A thoughtless word, Forgotten as soon as said! Perchance its echo may yet be heard When the speaker is with the dead. That thoughtless word is a random dart, And strikes we know not where; It may rankle long in some tender heart-Is it a trifle there?

Is it a trifle—the first false step On the dizzy verge of sin? \*Tis treacherous ground; one little slip May plunge us headlong in. One light temptation, and we may wear Death's galling chain for aye; One little moment of heartfelt prayer

May rend those bonds away. Drops of water are little things, But they form the boundless sea; "Tis in little notes the wild bird sings, Yet his song is melody. Little voices, now scarcely heard,

In heaven shall bear their part; And a little grave in the green churchyard Holds many a parent's heart. This world is but little, if rightly weighed, And trifling its joy or care;

But while we linger beneath its shade-There are no trifles here. The lightest burden may weigh like lead On the faint and weary soul, In the uphill path it perforce must tread, Before it reach the goal.

Cease, then, to speak of a "little thing," Which may give thy brother pain; Shun little sins; less haply bring The greater in the train. Seize each occasion, however small, Of good which may be given, So, when thou hearest thy Master's call, Thou shalt be great in heaven.

## Miscellaneous.

IRRELIGIOUS CHILDREN.

The following article deserves to be pondered by many parents whose conduct is less grossly inconsistent than is supposed in the case described:

I see other children whose whole tendency is to piety-united with the church early in life, inter- become cold and of a bluigh color, and the pulse ested in devotional services, and growing in strong attachment to the Saviour, while mine are becomstand it."

He proposed a few questions:

daily to your children in the household?" "I cannot say that I do; but they know that I

am a professor." and to church; do you converse with them about deafness. ## CEREBRO-SPINAL MENINGITIS.

kindly man-a gentleman.

The first epidemic visitation of this disease occurred in 1806, when it gradually spread through New England, Canada, New York and Pennsylvania, from 1807 to 1812. It was again epidemic and again in 1852 and 1858. But in 1862 and 1863, during the war, it was more widely prevalent. Since then it has never altogether disappeared from the country. In New York and Brooklyn, at the beginning of 1872, a considerable number of \$5 TO \$20 per day. Agents wanted! All total cases, were reported; but it is an epidemia tatal cases were reported; but it is an epidemic that has of late years attracted the special attention of physicians.

Acording to Dr. Mayne's interesting account of the disease as it occurred in Ireland during the year 1846, the serous membrane covering the brain and spinal marrow was invariably found to be the seat of extensive inflammation. The first symptoms are very formidable, and the attack is very sudden. In a large number of cases the patient is in ordinaay health and spirits up to the very moment of the seizure, experiencing no premonitory symptoms to warn him of danger, the disease all at once declaring itself. Very generally, however, the attack is preceded by more or less pain in the head, especially in the forehead, temples, or occiput. The pain is usually constant, but sometimes remit tent, or even intermittent. Pain is sometimes experienced in the back of the neck and along the course of the spine, with a sense of soreness in the limbs and joints. In some cases the attack is preceded by giddiness, with or without dimness of vision. Occasionally the attack begins with an ague, succeeded by a slightly increased heat of the surface, and pain, extending from between the shoulders to the occiput, with stiffness of the posterior or cervical muscles. In other cases the patient | widths. may exhibit pallor of countenance, coldness of extremities, low moaning or muttering delirium, quickly succeeded by restlessness, flushing of the face, frequent pulse, a wild expression of the eyes, erable prostration, and dull, heavy pain in the head, with vertigo, eyes languid and half closed, articulation indistinct. Occasionally the patient is attacked with deep coma, or with more or less stupor, extreme debility, giddiness, dimness of sight or double vision. Or the attack may com-A mother asks a minister the question, "Why is mence with severe pain in the abdomen, immediit that my children are not inclined to be religious? ately succeeded by nausea and perhaps vomiting. which can be cured by a timely resort to this standard preparation, as has been proved by the hundreds of testimonials received by the proprietors. It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it seldom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wistar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations, but it loosens and cleanses the lungs, and allays irritation, thus removing the cause of the complaint.

Ayer's Cathartic Pills, cure of all derange-ments in the stom-ach, liver, and bowels. They are a mild aperient, and an excellent purgative.

nse; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the saf-Long experience has proved them to be the safest, surest, and best of all the Phil's with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by Ayer's Phils, and affinulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation.

occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these Pills rapidly cure:

For Dyspepsia or Indigestion, Listlessness, Languer, and Loss of Appetite, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Dysentery or Diarrhees, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back, and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change these recombining disappears. for Suppression, a large dose should be taken, as it produces the desired effect by sympathy.

As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their

WATCHMAKING IN SWITZERLAND. [From the Swiss Times of May 30th.]

WE have already drawn attention to the annual meeting of the Society of Arts, held on the 23rd current, under the presidentship of M. Th. de Saussure, and are now able to furnish some further details. Professor Soret, in delivering a most interesting repor passed in review the operations of the Industrial section in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the object of testing the workmanship and precision of chroometers turned out by Genevese manufacturers, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observa-tory, and underwent the mort searching ordeal possible to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palm of excellence unanimously decided in favor of Messrs, J. M. Badollet & Co. This firm having carried off the sole prize by exhibiting a chromometer which fulfilled in the highest degree every condition required, crowned their first success by gaining honorable mention for two other chronometers. The all lusion to this triple honor was received with enthusiastic applause, and Professor Humbert, President of the Fine Arts Section closed the meeting with happy and humorou dissertation upon subjects connected with this department.

An assortment of GOLD AND SILVER WATCHES, of different grades, from the eminent manufacturers above

referred to, always kept in stock by PAGE BROTHERS. Agents for Messrs. J. M. Badollet & Co., Watch and Chro rometer Manufacturers, Geneva, Switzerland. [aug 28

Jurgensen, of Copenhagen.

A MANUFACTURING JEWELLER, from the Establishment of CHRISLENCEN, COPENHAGEN,

where he has been engaged in the MANUFACTURE OF JEWELLERY for presentation to the PRINCESS OF WALES.

May rely upon having it carefully and expeditiously exe-GEO. HUTHINSON, Jr., CHURNS! CHURNS! CHURNS! HEALTH! TIME! MONEY! WHY SHOULD IBUY KITCHEN'S PATENT CHURNS BECAUSE they preserve health, save time, save money and the churning is all done in 5 or 10 minutes. You will then believe what I assure you is true, viz.: That I have for sale the best churn ever invented-Kitchen's Patent Rotary Double Dasher, This churn has two ashers, each revolving in an opposite direction. It is eless to attempt a description of this churn in an adver-

sement, it has to be seen to be appreciated. It is estimated y practical farmers that it will produce one-tenth more utter from the same quantity of cream than any other churn now in use. The public are respectfully requested to call at my store, examine the article, and select for themselves.
