W E have already drawn attention to the annual meet-ing of the Society of Arts, held on the 23rd current, under the presidentship of M. Th. de Saussure, and are now able to furnish some further details.

Professor Soret, in delivering a most interesting report, passed in review the operations of the Industrial section in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of nometers turned out by Genevese manufacturers, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching ordeal possible to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palm of excellence unanimously de-cided in favor of Messrs. J. M. Badollet & Co. This firm having carried off the sole prize by exhibiting a chro-nometer which fulfilled in the highest degree every condition required, crowned their first success by gaining nonorable mention for two other chronometers. The allusion to this triple honor was received with enthu applause, and Professor Humbert, President of the Fine Arts Section closed the meeting with happy and humorous dissertation upon subjects connected with this department. An assortment of GOLD AND SILVER WATCHES, of lifferent grades, from the eminent manufacturers above
