EVERY ONE SOLD IS FULLY WARRANTED.

### NO FLUIDS OR EXTRA SOAP USED.

It consumes less Soap, less Time, and less Fuel, than the usual method. It saves Labor, Wear, aud Tear, and the Annoyance of Wash Day. the trial of Mr. Loftus, the Galway priest, to day.

According to newspaper correspondents at WashThe crowded court received the announcement with ington the Congressional Credit Mobilier investi
It will do the Washing of the Family while you are Eating Breakfast and Doing up Dishes. IT REQUIRES NO ATTENTION WHILE THE PROCESS OF CLEANSING GOES ON.

A meeting was held at the residence of the Duke d'Aumale yesterday, at which 100.000,000 francs d'Aumale yesterday, at which 100.000,000 francs were subscribed to the aid of the Duke de Montpensier in his operations against the Republic in Spain. Masses are to be celebrated for the success our The STEAM WASHER is superior to all other devices, for the following reasons:

1st. It does its own work, thereby saving a large portion of the time usually taken in a family.

2d. It uses much less Soap than is required by any other method.

3d. It requires no attention whatever, while the process of cleaning is going on. A lady can do her washing while is eating her breakfast and doing up the breakfast dishes. 4th. Glothing wears double the time, washed in this Washer, that it will washed by a machine, or by hand-labor,

5th. Lace curtains, and all fine fabrics, are washed in a superior manner. For Flannels, this Washer is most desirable, as it will not full them as a machine or hand rubbing does. All fabrics, from the finest lace to a bed blanket, can be washed perfectly, and with ease, without the rubbing-board. IT IS TRULY A LABOR AND CLOTHES-SAVING INVENTION.

READ THE FOLLOWING CIRCULAR AND TESTIMONIALS: I respectfully ask you to read this circular carefully, and candidly consider what I now propose to you as a matter of business. Before making known to you my confidential terms, permit me to state that the matter of washing clothes is one of no small consideration; it is something which concerns every family and every individual. It is but recent since Hand Washing was in common use. Latterly, however, the inventive genius of the country has been directed to the invention and construction of various devices or machinery by which much of the labor, drudgery, loss of time, and wear of material, might be obviated. Ponderous as well as intricate Washing Machines have been constructed—many of which are decided improvements over the old method of washing—and these machines have been very saleable with all. People will continue to have Washing Machines; but let me ask you, if the STEAM WASHER very saleable with all. People will continue to have Washing Machines; but let me ask you, if the STEAM WASHER can be constructed for a few dollars (much less than any ordinary Washing Machine), and enable all to wash by STEAM without labor, loss of time, without wearing of clothing, etc., is it not reasonable to suppose that it will supersede, in a great measure, all Washing Machines now in common use? The sale of this Washer is unparalleled, and must be so. There is nothing like it in use. It is new, and every family needs it and will buy it. I wish to secure a few good men to sell rights for me, and in order to secure as many as I need immediately, I offer extra inducements. My price for territory is \$9 per 1,000 inhabitants; but if you will buy a single county, and agree to sell rights for me, I will allow you to deduct 66 2-3 per cent. as your commission; consequently, your county would cost you but \$75, instead of \$225, should it contain but 25,000 inhabitants, more or less in the same proportion. And to those buying rights I will sell Washers at nearly cost, and to those not buying rights I will farnish Washers at \$60 per dozen; and bear in mind, I will sell to no one except a single dozen until he first buys the right to a county. Any tinner can make the washers as well as they can be made here, and ave the cost of transportation. Remember that by purchasing the right of a single county, you shall have the privilege of selling any county or state for me, and upon applicang the right of a single county, you shall have the privilege of selling any county or state for me, and upon applica ion I will forward the deed to you by express for any territory which you have sold for me, provided that the said erritory is not already disposed of when I receive your order. I will make all the deeds, so there can be no confusion

or mistakes. The amount you have to pay me is simply \$3 per 1,000 inhabitants, in any county or state. I shall make these very liberal offers for a short time only, after which I shall sell at my regular price \$9 per 1,000.

Many of my patrons have requested me to suggest to them the best method of selling the Woman's Friend, in order to make the most money in the shortest time practicable. In reply I would say, that there are many methods which might be suggested, all of which seem to work well, but the most prominent of which I will suggest: In the first place, send for a sample and carefully test it; you will learn by a single trial how to wash with it most successfully. All you have to do now is to exhibit it to others. I will suggest that you make an engagement to wash at a certain place, at an appointed hour; manage to have as many present as possible. You will be astonished at the in tense excitement it will produce after the water and steam have rushed through the tubes and foamed over the clothing, rushing back through the clothing to the lower bottom, to be suddenly returned again in the same manner—say for thirty minutes—you take out the clothing, rinse and wring out, and find the clothing perfectly clean. You will find

You can take orders from nine in ten present, to be filled afterward, at prices ranging from \$8 to \$10 each. A single trial in this manner will satisfy you that the WOMAN'S FRIEND is a success and will sell. You should, in that case, lose no time in ordering a deed for you county, to be sent by express C. O. D., if not convenient to advance the money. You should, meanwhile, continue to take orders, and by the time your deed would come to hand you might have a gross sold. You should, likewise, arrange with a responsible Tinner to make the Washers—the price will vary according to style and finish. I have known some agents to sell as many as twenty Washers in a day. After you have introduced it more or less in your county, you can take another county, and rest assurred that whereever you can get a single Washer in a neighborhood it will sell many more. Consequently, after you have sold a few hundred in a county, you can sell the right of your county for much more than at the start. You can calculate what your gains will be by buying a single county; but this is not a tenth part what you ought to make, for while you are travelling you will meet with many men who want to make money, to whom you can sell rights. There is no business you can energe in which offers such splendid inducements; heades it is a sefe business you can approach because it can

you will meet with many men who want to make money, to whom you can sell rights. There is no business you can engage in which offers such splendid inducements; besides, it is a safe business, no loss, and pleasant, because it renders perfect satisfaction. I cannot see how I can propose better terms. Should I allow my patrons to make their own terms, I scarcely believe they could make better terms for themselves, and make more money.

On the receipt of five dollars, Canada money, I will ship you a complete Washer, as a sample, together with a Certificate of Agency, a book containing the census of 1870, Patent Laws, Instruction how to sell Patents, and Pictorial Posters, with full instructions how to conduct the business. And upon the receipt of the Washer you may have time to test it in, and if you find it not as represented I will refund your money. The Washers retail at \$10. After I send you a sample, I will hold your county a reasonale time for you to decide whether you wish to purchase or not. I will furnish blank deeds, and will do all I can to enable you to succeed in the business. Let me hear from you soon, or your choice of territory may be sold to some one else. Do not ask me to send C. O. D. your choice of territory may be sold to some one else. Do not ask me to send C. O. D. DIRECTIONS.

1. Soak the clothes over night in warm suds—in the usual manner.

2. Put in the bottom of the WASHER a quarter bar of good soap enough to make good suds, sliced up thin; then fasten down the false bottom—see that the centre valve is in the proper position; put in water enough to cover the cap over the valve, say about an inch; lay the clothes down smoothly with the soiled parts well soaped, in the WASHER—not rolled up, but spread out, so the water can circulate freely—and carefully pack the clothes down; see that the ire is hot sufficient to generate steam; when the water boils, it will begin to flow up the tubes on the outside, at the ands of the WASHER, and through the holes into the washer again; after a steady circulation has been going on in this manner for about thirty to forty minutes, the washing will be completed. Rinse well and wring out, same as in the usual way. Colored clothes must not be mixed with white. Use soft water for boiling always. If hard, use If it is desired to bleach with the WASHER, this may be done by adding a table-spoonful of borax of commerce

to a WASHER fall of clothing. I refer you to a few extracts from letters received. I can publish hundreds of letters from parties who have used

the Steam Washer, and speak in its praise. I have, thus far, declined doing so. I know full well how Certificates are looked upon. I have sold the Steam Washer upon its own merits. Thousands have used it, and it has given universal satisfaction throughout the country. I ask none to rely on what I say, or the commentaries of others, but let the Washer stand on its merits. I would not ask or advise any one to engage in this business of selling Washers or rights, unless he has thoroughly tested its work; and to enable all to do so, I send a sample Washer upon the receipt of \$5.00 (about half the retail price), and guarantee that if found not as represented, I will refund the money. So there is little risk to begin with. Heretofore I have made but little effort to sell the Steam Washer, but hereafter I shall make an effort to popularize it. I shall advertise liberally in first-class papers. I refer you to the American Agriculturist, February, 1872, and New York Weekly Tribune. I shall continue to advertise liberally in other first-class agricultural papers, as well as the leading religious papers throughout the country. Of course my former patrons who have papers, as well as the leading religious papers throughout the country. Of course my former patrons, who have bought territory—as well as those who may hereafter engage in the business—will be benefitted proportionately. I am convinced that the Steam Washer will be used in every family.

EXTRACTS FROM A FEW LETTERS.

Our readers will be grateful for the room given to the was at work while we were taking our breakfast, and did ivertisement this week to the famous Steam Washer of its work well. We have given it another trial this week, Mr. Tilton. We are prepared to recommend this invention as all the advertiser and manufacturer claims for it, praise. She thinks it gives to women emancipation far and every family should order one at once. It saves woman's toil and thus saves her life. It more than pays for itself in a very short time by the saving of fabrics, that Tioga, Pa.

GOVERNMENT HOUSE, OTTAWA. MONDAY, 27th day of January, 1873. PRESENT:

at extremely low prices for cash, DURING THIS MONTH. HIS EXCELLENCY THE GOVERNOR GENERAL IN Council.

W HEREAS the article known as Old Tom Gin, being a sweetened Spirit, cannot be accurately tested for by strength by Syke's Hydrometer in the mode prescribed by law for testing spirituous liquors, and it is expedient with a view to antiformity in the collection of duty thereon, that an average strength should be adapted as the rule governing enteries thereof. His Excellency on the recommendation of the Honorable

the Minister of Customs, and under the authority given by the 4th section of the Act, 31 Vic. Cap. 6, intituled: "An Act respecting the Customs," has been pleased to order and it is hereby ordered, that in collecting Customs Duty on the importation of Old Tom Gin the same be dealt with and treated as a Spirit twenty-three per cent. under proof, or containing seventy-seven per cent of prespirit.

W. A. HIMSWORTH,

Spirit.
