TEACHERS' INSTITUTE.—The business of the Institute was brought to a close Wednesday afternoon. During its sessions the instructions given by Prof. Munroe occupied most of the time, but other matters were discussed incidently. It would be impossible for any one, in so short a time, to communicate a thorough knowledge of the subject of vocal culture, but during the few days that Prof. Munroe has been instructing the teachers in this subject, he has accomplished a great deal. This subject will, no doubt, receive more attention in our schools than it hitherto has done, and we may soon look for satisfactory results.

STREAM DRIVING.—The water in the St. John river rose about two feet on Sunday and Monday last. The steamer Andover, which had discontinued her trips, was enabled to make three trips as far as Tobique. The last lumber drives for this season from the Upper St. John and tributaries arrived below Woodstock on Wednesday, but the rapid fall of water again hung a large amount up. Hundreds of men and horses are now engaged in sacking between Woodstock and Fredericton. The probability is that the logs will be got to market soon, but at a great expense. One American firm had, on Wednesday, about 150 men and 70 horses engaged on the drive below Woodstock.—*Tribune.*

OUR MEN AT WIMBLEDON.—A London despatch of July 11 says: At the All Comers Ranges the Canadians beat the Liverpool Rifles by twelve points. In the Prince Alfred competition, Capt. Graham and Sergt. Power, of Nova Scotia, Lieut. Boyd and Sergt. Couton, of Quebec, and Sergt. Shaw, of Ontario, won prizes in the first series. Extra prizes were won by Private Eaton of Nova Scotia. The seventh prize in second series was taken by Asst. Surgeon Vail of New Brunswick. The first prize for Queen's Prize, first stage, was also won by Dr. Vail. The seventh prize was won by Lieut. Anderson, of Quebec. Sergt. Harris, of Nova Scotia, won prizes in the Prince of Wales' competition. In the Alexandra Prize, Lieut. Boyd won 7th prize. In the Prince of Wales' prize, Sergt. White, of Ontario, won fourth prize. In the private match with the West Cheshire Rifles, the Canadians won by fifty points.

It has been agreed to, as a basis of action, to form a Prohibitory League to act with the Temperance organizations of Ontario and Quebec. The proposed plan of operation has been forwarded to the Grand Lodge of Nova Scotia and the Grand Division of New Brunswick, for co-operation. The officers submitted their reports showing the order and its finances to be in a prosperous condition.

The number of Lodges returned is one hundred and ninety-one, with a membership of nine thousand two hundred and fifty-three, an increase of one thousand five hundred and thirteen, during the year. The number initiated was three thousand six hundred and thirty seven. Amount of per capita tax received $1,346. Cash on hand $600.

CHATHAM, July 16.—The Governor-General and Lady Dufferin arrived here at 5 o'clock this evening. A salute was fired by the Chatham Battery of Artillery, and on landing the Vice-regal party was received by a guard of honor. The people turned out in full force and accompanied the party to the Masonic Hall, where an address was presented to Lord Dufferin, who made a suitable reply. To-morrow a visit will be paid to Newcastle, after which they leave for Charlottetown, P. E. I.

A sad accident occurred during the reception this evening which has cast a shade of gloom and sadness over the community, notwithstanding the excitement consequent upon the arrival of such distinguished visitors. While the salute was being fired John Murray had his right arm blown from the shoulder, his left hand torn off at the wrist, and his cheek bones fearfully shattered. The doctors attending him say he cannot recover. Another man, named Richard Steele, also had one of his hands so shattered that it had to be amputated. He is getting along nicely, and beyond the loss of his hand, is not seriously injured.

STEAMBOAT SERVICE.—Arrangements have been made by the Messrs. Lunt, of this city with the Goverments of the Dominion and of Nova Scotia and New Brunswick to provide steamboat service for ports in the Basin of Minas. In consideration of the receipt of subsidies from the three Governments, Messrs. Lunts have agreed to place a steamer on the Basin and touch at Parrsboro' village, Windsor, Londonderry, Maitland, Chiverie, Oak Point and other parts where suitable wharf accommodation may be built, connecting with the steamer *St. John* in the Basin, and the Windsor & Annapolis Railway at Windsor. The steamer that will for the present perform the service is the *Hiram Perry*, which has already passed government inspection. This arrangement will be highly advantageous to all concerned.

CAUTION TO PURCHASERS OF THE PERUVIAN SYRUP (a protected solution of the protoxide of iron). Beware of being deceived by any of the preparations of Peruvian Bark, or Bark and Iron, which may be offered to you. Every bottle of genuine has PERUVIAN SYRUP (not Peruvian Bark) blown in the glass. EXAMINE THE BOTTLE BEFORE PURCHASING.

A fact worth remembering—Five cents worth of *Sheridan's Cavalry Condition Powders*, given to a horse twice a week, will save double that amount in grain, and the horse will be fatter, sleeker, and every way worth more money than though he did not have them.

Married ladies, under all circumstances, will find *Parson's Purgative Pills* safe; and, in small doses, a mild cathartic. They cause no griping pains or cramp.

In all diseases of the Throat, Lungs and Chest so prevalent in this country, nothing so speedily relieves or so certainly cures as that matchless remedy, Dr. Wilson's Pulmonary Cherry Balsam. These disorders are too often neglected at the commencement, and are too injudiciously treated; and before the Balsam is resorted to, the Lungs are completely ulcerated. Of one thing be sure, whatever the condition of the patient, Dr. Wilson's Balsam will restore if recovery be possible. It will retard the alarming cough until nature consummates the cure. By perseverance in obstinate cases the cough becomes gradually subdued, and the patient is restored to his natural strength.

An occasional dose of Dr. Wilson's Anti-Bilious and Preserving Pills stimulates the stomach and bowels into a healthy action, restores the appetite and invigorates the system. Hence it is often advantageous where no serious derangement exists. A column of our paper could be filled with certificates of their remarkable cures, but such cases are known in every neighborhood where the Pills are sold.

Blood spavins may be effectually cured by Dr. Dow's Sturgeon Oil Liniment. Wet a bandage with the Liniment, and apply it twice a day, and they will gradually disappear.

By those who have the management of horses, Clark's Derby Condition Powders, wherever known, are preferred to all other articles of the kind.

Section 3.—If after the admission of Prince Edward Island into the Dominion, there be brought from it into any other Province of Canada, any article of commerce not being the produce of the Island or of Canada, and liable to any duty of Customs when imported into Canada from any foreign country, or any such article produced in the Island and liable to a duty of Excise if produced in Canada for consumption therein, then if such Canadian duty of Customs or Excise be greater than the duty of Customs or Excise paid on such article in the Island, the difference between the Canadian duty and the duty paid in the Island, shall be payable on such article when brought from the Island into any other Province of Canada, and such difference shall be collected under such regulations as the Governor in Council may from time to time make in that behalf; and any such difference of duty payable under this Section, shall be a duty of Customs within the meaning of the Acts respecting the Customs hereby extended to the said Island all the provisions whereof (including those respecting warehousing) and the penalties for contravention of such provisions, shall apply to such difference of duty.

Section 4 limits the operation of the above Section to "the end of the now next Session of the Parliament of Canada, and no longer."

As no Order in Council has yet passed for regulating the procedure of the Customs in collecting the difference of duty in the cases mentioned, I have to request you carefully to examine such dutiable goods as may be brought to your port from the Island, and to inform yourself of the actual rate of duty paid thereon, and collect the difference between the rate so paid, and the rate per Dominion Tariff, and the difference to be collected, and all such transactions are to be accounted for in your statistical books and returns, separately from the general specifications of imports.

If the goods brought to your port are the produce or manufacture of the Island, and subject to duties of excise, the difference to be collected will be between the excise duty paid, and the excise duty of the Dominion; but in all cases the amount collected is to be treated by you as an import duty of Customs.

The Act, and these instructions are to be enforced from and after the date which may be assigned for the admission of the Island to the Dominion by proclamation of Her Majesty the Queen.

I am, Sir, Your obedient Servant.

J. JOHNSON,
Assistant Commissioner of Customs.
