We have already drawn attention to the annual meeting of the Society of Arts, held on the 23rd current, under the presidentship of M. Th. de Saussure, and are now able to furnish some further details.

Professor Sorct, in delivering a most interesting report, passed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the Surry, Christian Treasury, Leisure Hour, &c., each per annum, post paid, \$1.75; British Workman, British Workwoman, British Messenger, Cottager and Artizan, Child's Companion, Childrens' Friend, &c., each per annum, post paid, 28 cts.; Gospel Trumpet, Childrens' Paper, Band of Hope Review, Child's World, & S. Messenger, Temperance Banner, &c., each per annum, post paid 14 cts. Not less than five papers sent to one address at those rates. All may be different. Circulars with list and prices in full, sent to any address on application to whom to award the palm of excellence unanimously decided in favor of Messrs. J. M. Badollet & Co. This firm caving carried off the sole prize by exhibiting a chro-nometer which fulfilled in the highest degree every con-dition required, crowned their first success by gaining honorable mention for two other chronometers. The al-lusion to this triple honor was received with enthusiastic applause, and Professor Humbert, President of the Rine Arts Section closed the meeting with happy and humorous asertation upon subjects connected with this department An assortment of GOLD AND SILVER WATCHES, or different grades, from the called the referred to, always kept in stock by PAGE BROTHERS.
