Ah, 'twas a crime once before, To weep at humanity's greaning, When the bondman, weary and sore, Sat in his wretchedness moaning; But never they stifled the tears, Nor hushed the low wail of the years, Till the prayers of the true Rose high on the blue,

We have already drawn attention to the annual meeting of the Society of Arts, held on the 23rd current, under the presidentship of M. Th. de Saussure, and are now able to furnish some further details.

Professor Soret, in delivering a most interesting report, passed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers turned out by Genevese manufacturers, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching ordeal possible to be applied to pocket instruments of this class.
