And I must turn me now To that dim future, which in vain My feeble eyes descry,-Tell me, my father, in this hour,

In whose stern faith to die. In thine? I've watched the scornful smile, And heard thy withering tone, Whene'er the Christian's humble hope Was placed above thine own; I've heard thee speak of coming death

Without a shade of gloom, And laugh at all the childish fears That cluster round the tomb. Or, is it in my mother's faith?

How fondly do I trace, Through many a weary year long past, That calm and saintly face! How often do I call to mind, Now she is 'neath the sod, The place, the hour, in which she drew

Twas then she took this sacred book, And from its burning page, Read how its truths support the soul In youth and failing age: And bade me in its precepts live, And by its precepts die, That I might share a home of love

My early thoughts to God!

In words beyond the sky. My father, shall I look above, Amid this gathering gloom, To Him whose promises of love Extend beyond the tomb? Or, curse the being who hath blessed This chequered path of mine, And promises eternal rest;

And die, my sire, in thine? The frown upon that warrior brow Passed, like a cloud, away, And tears coursed down the rugged cheek, That flowed not till that day. "No, not in mine," with choking voice, The skeptic made reply, "But in thy mother's holy faith,

-Episcopal Recorder. THE HAND THAT ROCKS THE WORLD. Blessings on the hand of women! Angels guard its strength and grace

My daughter, may'st thou die."

In the palace, cottage, hovel, O, no matter where the place ; Would that never storms assailed it; Rainbows ever gently curled; For the hand that rocks the cradle Is the hand that rocks the world. Infancy's the tender fountain : Power may with beauty flow;

Mother first to guide the streamlets, From them souls unresting grow, Grow on for the good or evil. Sunshine streamed or darkness hurled; For the hand that rocks the cradle Is the hand that rocks the world,

Women, how divine your mission Here upon our natal sod? Keep, O keep the young heart open Always to the breath of God! All true troubles of the ages Are from Mother love impearled;

For the hand that rocks the cradle Is the hand that rocks the world. Blessing on the hand of woman ! Fathers, sons, and daughters cry. And the sacred song is mingled With the worship in the sky,

Mingles where no tempest darkens, Rainbows evermore are curled; For the hand that rocks the cradle Is the hand that rocks the world

The Fireside.

Says the apostle : " In everything, by prayer and supplication with thanksgiving, let your requests be known unto God." Among many instances of boy heroism on the sea, we have found none more beautiful and im-

HOW GAS IS MADE.

It must interest us to know the process of making an article so extensively used in our cities, and we herewith publish a sort of gas catechism, which conveys a good deal of important light to the juvenile mind on this subject.

"How do they make gas?" First, they put about two bushels of bituminous coal in a long air-tight retort. This retort is heated red-hot, when the gas bursts out of it, as you see it burst out of lumps of soft coal when on the parlor fire. The gas passes off through pipes. A "How do they purify it?"

the gas, when a good deal of tar condenses from it, has been withdrawn. and runs down to the bottom of the perpendicular | Your own Mason .- Small holes in white walls steam boiler, half full of wood laid crosswise. can be easily repaired without sending for the the cause for selling, and money is not wanted, only in-Then ten thousand streams of cold water are mason. Equal parts of plaster-of-paris and white terest.

Apply by letter, or personally, to G. W. VANWART, IFUGE in the Helifax papers—took three bottles accordspurted through the boiler. Through the mist, sand-such as is used in most families for scouring | Esq., Merchant, Woodstock and rain, and wet sticks of wood, the gas passes, purposes-mixed with water to a paste, applied coming out washed and cleansed. markable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great cor-Paints, Oils, Putty, Varnishes, Brushes, Combs, Soaps, Perfames, Surgical and Dental Goods, Toilet and syphilitic contamination. Impurities, ruptions of the blood, such as the scrofulous or diseases that have lurked in the system for years, soon yield to this powerful antidote and disappear. Hence its wonderful cures, many of which are publicly known, of Scrofula, and all scrofulous diseases, Ulcers, Eruptions, and eruptive disorders of the skin, Tumors, Blotches, Boils, Pimples, Pustures, Sale Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald and internal Ul-Head, Ringworm, and internal Ulcerations of the Uterus, Stomach, and Liver. It also cures other comints, to which it would not seem especially adapted, such as Dropsy, Dyspep-sia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility, and

> tions of the scrofulous peisons. It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season. Even when no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of

from in the Blood

MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protect-ed Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "athousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enmeates every part of the body, repairing damages and waste, searching out morbid sceretions, and leaving nothing for disease to feed upon.

This is the secret of the won-derful success of this remedy in euring Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrheea, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Con-

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and kappy men and women; and invalids cannot reasonably hesttate to give it a trial. See that each bottle has PERU-

> THE COLLEGE is designed to educate young men for the various pursuits of life, by means of a complete system of ACTUAL BUSINESS Training. The course of study is comprehensively effective and interesting, and adapted not only to such as have enjoyed the best educational advantages, but also to those whose education is defective from want or neglect of early opportunities. Every young man, no matter, whether he intends to be a Every young man, no matter whether he intends to be a MERCHANT, BANKER, FARMER, MECHANIC, or to enter one of the learned professions, should have a good knowledge of business forms and usages, be well acquainted with the uses of commercial paper, and the laws which govern trade, and possess a clear and compresensive knowledge of bookkeeping, which will enable him, in after years, so to arrange and classify his transactions as to be able to grasp, with equal case, the minutest detail and the exact result of the most extensive operations. If such knowledge were general, not to say universal, it would not only promote economy and thrift, by introducing order, system, and management; but it would introducing order, system, and management; but it would lessen anxiety and litigation, and largely increase the comfor, happiness, and enjoyment of life,

CHURNS! CHURNS! CHURNS! HEALTH! TIME! MONEY! WHY SHOULD I BUY KITCHEN'S PATENT CHURN? DECAUSE they preserve health, save time, save money, and the churning is all done in 5 or 10 minutes. You will then believe what I assure you is true, viz.; That I have for sale the best churn ever invented—Kitchen's Patent Rotary Double Dasher. This churn has two Dashers, each revolving in an approximation of the contract of the church as th ashers, each revolving in an opposite direction. It is seless to attempt a description of this churn in an adversement, it has to be seen to be appreciated. It is estimated by practical farmers that it will produce one-tenth more butter from the same quantity of cream than any other churn now in use. The public are respectfully requested to call at my store, examine the article, and select for

BLACKSMITH WORK executed promptly, on liberal erms. [Jan. 6 WATCHMAKING IN SWITZERLAND. [From the Swiss Times of May 30th.] WE have already drawn attention to the annual meeting of the Society of Arts, held on the 23rd current, under the presidentship of M. Th. de Saussure, and are now able to furnish some further details. Professor Soret, in delivering a most interesting report, passed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers turned out by Genevese manufacturers, and none but those adopted for pocket, use, were admitted. They but those adopted for pocket use were admitted. They but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching ordeal possible to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palm of excellence manimously decided in favor of Messrs. J. M. Badollet & Co. This firm having carried off the sole prize by exhibiting a chronometer which fulfilled in the highest degree every condition required, crowned their first success by gaining honorable mention for two other chronometers. The allusion to this triple honor was received with enthusiastic applause, and Professor Humbert, President of the Fine Arts Section closed the meeting with happy and humorous dissertation apon subjects connected with this department. An assortment of GOLD AND SILVER WATCHES, of different grades, from the eminent manufacturers above, referred to, always kept in stock by
