Who will bear the sheaves away? Long and loud the Master calleth, Rich reward he offers free: Who will answer, gladly saying, " Here am I, send me, send me!"

If you cannot cross the ocean, And the heathen lands explore, You can find the heathen nearer: You can help them at your door. If you cannot give your thousands, You can give the widow's mite,

And the least you give for Jesus Will be precious in his sight. If you cannot speak like angels, . If you cannot preach like Paul, You can tell the love of Jesus,

You can say he died for all. If you cannot rouse the wicked With the Judgment's dread alarms, You can lead the little children To the Saviour's waiting arms.

Let none hear you idly saying, "There is nothing I can do," While the souls of men are dying, And the Master calls for you. Take the task he gives you gladly, Let his work your pleasure be;

Answer quickly, when he calleth.

Patentee and Sole Manufacturer of HULBERT'S BLACKSMITH WORK executed promptly, on liberal WATCHMAKING IN SWITZERLAND. [From the Swiss Times of May 30th.] W E have already drawn attention to the annual meeting of the Society of Arts, held on the 23rd current, under the presidentship of M. Th. de Saussure, and are now able to furnish some further details.

Professor Sorte, in delivering a most interesting report, passed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers. nometers turned out by Genevese manufacturers, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching ordeal possible to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palm of excellence unanimously decided in favor of Messrs. J. M. Badollet & Co. This firm having carried off the sole prize by exhibiting a chronometer which fulfilled in the highest degree every condition required, crowned their first success by gaining honorable mention for two other chronometers. The aircraft of the condition is the condition of the condition of the chronometers. lusion to this triple honor was received with enthusiastic applause, and Professor Humbert, President of the Fine Arts Section closed the meeting with happy and humorous GO SACKS Iava and Ceylon COFFEE; 80 chests and balf-chests Congou and Oolong TEA; 16 boxe Motts' Broma, Cocoa and Chocolate; 14 bhds.
