It also cures other complaints, to which it would not seem especially adapted, such as Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility, and Leucorrhoea, when they are manifestations of the scrofulous poisons. It is an excellent restorer of health and

MAKES THE WEAK STRONG

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "athousand ills," simply by Toning up, Invigorating and Vitalizing the System. The en-riched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secre-tions, and leaving nothing for

disease to feed upon. This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Feyers, Humors, Loss of Constitutional Vigor. Diseases of the Kidneys and Bladder, Female Complaints, and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial itate to give it a trial. See that each bottle has PERU-VIAN SYRUP blown in the glass.

BLACKSMITH WORK executed promptly, on liberal WATCHMAKING IN SWITZERLAND. [From the Swiss Times of May 30th.] From the Swiss Times of May 30th.]

We have already drawn attention to the annual meeting of the Society of Arts, held on the 23rd current, under the presidentship of M. Th. de Saussure, and are now able to furnish some further details.

Professor Soret, in delivering a most interesting report, passed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers turned out by Genevese manufacturers, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching ordeal possible to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palm of excellence unanimously decided in favor of Messrs. J. M. Badollet & Co. This firm PRINTING INK.

HAVING been apointed Manufacturers' Agents for the sale of PRINING INKS of all kinds, we are enabled to sell a first class article of NEWS INKS, in Kegs of 52 lbs. for 18 cents cash per lb.

[may 24—1y] CHURNS! CHURNS! CHURNS! HEALTH! TIME! MONEY! WHY SHOULD I BUY KITCHEN'S PATENT CHURN! BECAUSE they preserve health, save time, save money, and the churning is all done in 5 or 10 minutes. You will then believe what I assure you is true, viz.; That I have for sale the best churn ever invented—Kitchen's Patent Rotary Double Dasher. This churn has two Dashers, each revolving in an opposite direction. It is useless to attempt a description of this churn in an advertisement, it has to be seen to be appreciated. It is estimated by practical farmers that it will produce one-tenth more butter from the same quantity of cream than any other churn now in use. The public are respectfully requested to call at my store, examine the article, and select for themselves.
