

Rev. Dr. Cumming, of London, says next year is to be signalized by the destruction of the Turkish-Greek Caliphate of the Papacy. He finds warrants for this in the prophecies of Daniel.

An exhibition of dolls is about to take place at the Alexandra Palace, London. Prizes are to be given, but with the generous proviso that all the dolls and their clothes sent in for competition are to be distributed among the poor sick children of London hospitals.

The death is announced of Rev. Thomas Jones, the oldest clergyman of London. He was ninety-six years old, and held the post of "morning reader," at Chapel Royal, Whitehall, continuously for sixty-two years.

Speaking of the progress of a new sect in Hungary, the "Nazarenes," the London Bible Society's Reporter says they will increase, and may safely be put down at 60,000. With all the peculiarities, they are burning and shining lights."

Rickety Cummins reports from Charleston, S. C., that there are in that region nine colored congregations in communion with the Reformed Episcopal church, with some seven hundred communicants, as the result of six months of work.

The New Year's present from his readers which will be most acceptable to the Editor, is prompt renewals from all who have not paid, and new subscribers from every quarter. Send them along if you want to cheer the Editor in his work.

We are sorry to hear of the death of the eldest son of Rev. G. A. Hartley, which took place on Sunday last. Bro. Hartley has our deepest sympathy, as he will be made of that many friends throughout the Province.

We are sending out the Premiums as fast as we can in the order in which the money is received.

We have received the first number of a new Temperance paper, called the *Temperance Union and Canadian Prohibitionist*. It is published in Belleville, Ontario, and is to be issued weekly. It is published under the auspices of the United Temperance Order; and is designed to supply a want long felt by the advocates of temperance. The principal editors are Rev. B. Austin for the Upper Provinces, and Prot. G. E. Foster for the Maritime Provinces; Mrs. Youmans, of Ontario, having charge of the Youth's and Women's department. There is work for a first class temperance journal to do; and we wish the new paper the largest success in its important mission.

Vick's Floral Guide for 1876 is to hand. Mr. Vick speaks no pains in making up his Guide. It is really a fine pamphlet, bristling of hints and suggestions most valuable to florists and vegetable gardeners. It is sold at the low price of 35 cents. Address James Vick, Rochester, N. Y.

The Holiday Index 1875-6, printed by G. W. Day for the Index Publishing Company of St. John, is received. It has a tinted paper cover, the design being very tasteful. It also contains several engravings appropriate to the season, besides considerable reading. The price is 35 cents a year. It is a good advertising medium, and particularly useful to agents.

We have received No. 2 of the National Protestant, a new monthly paper published in New York, at \$1.00 a year. It claims to be Anti-Roman Catholic—Non-Sectarian—Independent; and from a perusal of the number before us we judge it to be all it claims. There is a place for it in Journalism, and we hope it may do its chosen work well and faithfully. Henry Vogel & Co., 67 Liberty street, New York, are the publishers.

The Sixth Temperance Address of the Academy of Music Course, under the auspices of Saint John Lodge, British Templars, will be delivered by the Rev. Joseph McLeod, of Fredericton, on Sunday evening next.

Free Baptist Ministers should strive earnestly to introduce the INTELLIGENCER into the families of their congregations. It will greatly help them in their work.

The News and the Press.

ST. JOHN, N. B., DECEMBER 31, 1875.

Next week ought to bring us a large number of new subscribers. Will the friends of the paper (and they are many) endeavor to each send one name? The ministers should speak of the paper to their congregations, and clearly present its claims on all members of the denomination.

NEW BRUNSWICK.—The writ for the Albert Election has been issued. It is made returnable on the 2nd February. Messrs. Ryan and Rogers, Dr. Lewis and Mr. Turner are the candidates named for the contest.... On Christmas Day nearly \$300 were collected at the Cathedral and \$230 at St. Peter's Church, in aid of the Catholic Orphan Asylum. It is stated that Mr. Peter Campbell, of St. George, the heir to the Breadheaven estate, declines to go to Scotland, to claim his property. He is not afraid of any hoax, but having lived contentedly in St. George all his life, is not now anxious to leave the perils of the Atlantic, even though a fortune may depend upon it. It is possible however, that Mr. Campbell may change his mind. It would be extraordinary, indeed, if any man could refrain from claiming an estate yielding a rental of \$600,000 a year. So the *Telegraph* writes.

A woman, who died last week, was the widow of the Wednesday last week, died of the same disease. Wednesday morning. Five of their children are also down with it. They are in very destitute circumstances, having neither bed nor blankets. The R. C. priest of the district has been very attentive to them, and has been exerting himself to procure for them the necessities of life. As yet nothing has been done by the authorities to prevent the spread of the disease.... Judge Waters gave Sir Robert Carr, whose extradition case the *Telegraph* has reported, a letter of introduction to the United States, on account of his having killed a man in a prize fight, discharging the prisoner from custody.... His Honor the Lieutenant Governor has accepted the resignation of Nathaniel Hubbard, Esq., as registrar of deeds and wills, and registrar of probates, for the County of Sunbury.... The *Calaix Times* reports that three of the largest vessels ever on the stocks at the same time are about to be launched. One of 700 tons and Nickerson & Rideout have taken contracts to build a ship of 1400 tons and a bark of 700 tons; the latter vessel by the terms to be set up immediately, and the ship to be commenced in the early spring. On the St. Stephen side of the river Messrs. Short Brothers are to commence the construction of a roasting ship, one of the largest ever built on the river, as soon as the vessel which they now have in process of construction is launched.... The townships on the Sagadahoc railway up to, including the 18th of December, is 35,995 lbs. Large shipments are also made from Bathurst and Wolford Stations.... The *Telegraph* of Monday says: It is understood that the creditors of the estate of E. D. Jewett & Co., have at length agreed to a settlement, and that the firm will be allowed to resume business as soon as arrangements are completed. Mr. Halsey had been for some days, settling the affairs of the creditors in the United States and it has been agreed to accept payment of twenty cents cash, on the dollar, and ten cents on the dollar, payable in two instalments in two and three years, without interest. These payments will be secured by Mr. E. D. Sutton's notes, endorsed respectively by Mr. E. H. Wetmore of Providence, R. I., and Mr. E. G. Dunn, of E. G. Dunn & Co. The amount of the cash payment will be about \$500,000, and the ten

cent, secured by the notes, will therefore be about \$170,000. It is satisfactory to learn that the assets of the estate have not been exhausted, and that the Messrs. Jewett will be enabled to resume operations at once.... The St. Stephen Journal has been bearing various reports about herring fishing at St. Andrews. By latest accounts a good business is being done. One man it is said caught 7,000 herrings at one haul in Passamaquoddy Bay, and sold them at \$1.00 per hundred. They are to be even more plentiful now, and are selling at 50 cents a barrel. Mr. Macrae, of St. Stephen's Church was presented by his congregation with a purse containing \$100 on Christmas morning.... The papers announce that a daughter has been born to the Mayor of St. John within a few days, and suggest the civic silver cradle.... Two King's Co. men named Cripps and McCarthy had a dispute at Sussex on Friday afternoon, which resulted in a fight. Cripps grabbed McCarthy, and while holding him seized the latter's nose in his teeth, and drew a piece which fell on the road. Cripps was arrested. The parties were drunk.... A special despatch to the *Globe* says: A house occupied by Wm. Russell, (or Russell Brothers), was consumed by fire about two o'clock yesterday morning Mr. Russell and family had a narrow escape as the fire had made considerable progress before it was discovered. Only a small portion of the furniture was saved. James Mitchell, Esq., owner of the building, carried off an insurance on it of \$800.... Mr. Keble, of U. C. E., restriction should get water supply from the stream called Mill Creek, laying pipes to a place about 5 miles from the city where there is a good site for a dam. The cost he only estimates at \$8,000, and the supply of water he says would be abundant.... The *Reporter* states that Col. Minchin died at his residence, Fredericton, on Sunday, the 10th inst., at the age of one hundred years. Indeed the *Reporter* intimates that he was probably older. Col. Minchin was an Irishman by birth, and we have served for some years in the army. He was for very many years a resident of Fredericton. He was appointed a Colonel of Militia a great many years ago, and he held a seat in the Legislative Council until his years far exceeded these numbers invariably allotted to man. He always bore a high character, and was universally respected.... The *Telegraph* regrets to state that notwithstanding reports published to the contrary, the herring fishery at St. Andrews has so far this season, been almost entirely unsuccessful. Numerous United States fishermen who came there to purchase herring, have had to go away light. It is a great loss to the fishermen of the islands, and also to the merchants of St. Andrews, many of whom have made advances to the fishermen, and trusting to the catch of herring for repayment, have so far got no returns.... On Tuesday evening last the barn of Thomas Mallory, Esq., Fairfield, St. John Co., was burned to the ground, together with 2 or 30 tons of hay, 200 bushels oats, and a quantity of corn, two pigs, three cows and several chickens. All the four, five and six month old calves of the lot of the barn was used as a store room for flour meal, &c., of which six barrels were burned, also new carriage and two sets of gear. The origin of the fire is as yet unknown. The loss falls heavy on Mr. Mallory at this season of the year.... A special to the *Daily Telegraph*, of the 20th says: The small pox report from Shippegan, to-day, states that the six of the LeBlanc family are recovering, but the oldest boy is now very ill. The priest and others are assisting them. No other cases are reported. The Local Board of Health, of the Portland Council Town Officers' Committee decided last evening, in view of the fact that there are notices that requires attention at present, to expend \$400 in each ward, to provide employment of roads for destitute laborers. The several Ward Councilors are to be a committee to furnish the work that they think necessary. A very able discussion took place as to what the value should be put. Fifty cents was finally decided on.

The time for which a majority of our subscribers have paid expired last week. From those who have not already sent renewals we are expecting to hear at their earliest convenience.

NOVA SCOTIA.—The C. B. Times gives 1835 as the number of persons in the mining districts whom relief committees report as requiring assistance.... The miners at Spring Hill are on a strike, the company having decided to reduce their wages.... A young man named McKinnon, belonging to Cape Breton was frozen to death near Lunenburg a few days ago. He was found lying near a railway track and died soon after. He was ordinarily a steady man, but had been drinking on the previous evening, and after starting for home arrived at his own town.... Two French miners from Vale Croft, were recently tried before the pendency magistrate McKay, for going into the mines with naked limbs, contrary to the provincial regulations and contrary to the express instructions of the manager, Mr. Greener. Their names were Jean Passecus and his son Altra. The former was fined \$5 and costs and the latter \$4 and costs. Only a short time ago two French miners were severely burned by an explosion of gas in a gallery at the Vale Croft mine. The injured were badly hurt.... A cash box, containing \$35 was stolen from the residence of Rev. Allan Simpson, Halifax, a day or two since.... David Sturgeson, of St. John, whose name figured in the McFadden suicide case, has been convicted on New Glasgow of selling liquor to Indians and fined \$400 or fifteen months imprisonment.... No tidings yet of the "Automaton." Her crew consisted of Capt. Carter, son of Mr. Henry Carter, aged 28 years, Bedford Carter, son of Mr. Sander Carter, 31 years, and John Carter, son of the late Walter Carter, aged 26 years, all from Westmorland. In addition to these above mentioned, the vessel carried a lad named Porter, belonging to Cumberland Co., N.S. Manager Barnhill, of Joggins mine, wrote to the various places, which the vessel was reported to have visited, but unsatisfactory answers were received.... The day night Charles Figueure, a steward of the steamer *Beta*, lying in Canada's dock, Halifax, fell off the gangway between the vessel and the wharf of Mr. J. R. Willis, Halifax, was poisoned Thursday by swallowing some liniment, would have lost her life but for the remedies administered by a physician.... Two of the crew of the *Lennie*, who are not implicated in the late mutiny, have been sent to England for examination.... On one of the coldest nights last week Wetherby, at Salma, N. S., awoke in a cold house on fire. The atmosphere in the room was so dense that the men saw no light, and it was doubtful that whatever was done to save must be done quickly and by groping in the darkness. Mr. W. broke the window, and catching the sleeping children pitched them out into the snow, he and his wife following. In the mean time Mr. W. had called the other men, who in cold down stairs had to pass the fire. Before reaching the front door Thompson, overcome by the smoke, fell and was dragged.... by his companion Walter Carter. Mr. W. had a coat, shoes, boots and pants and shoes without socks and the other men who each got on their socks, none had clothing but that in which they had left beds. The men were all badly frost-bit.

Let each subscriber send a renewal to secure at least one new subscriber at the same time.

CAUTION TO PURCHASERS OF THE PERUVIAN STRUT (A protected solution of the protoxydron). Beware of being deceived by any preparations of Peruvian Bark, or Bark and gentian which may be offered to you. Every bottle genuine has the name "PERUVIAN STRUT" BEFORE BARK upon it. EXAMINE CAREFULLY BEFORE PURCHASING.

THE RELIGIOUS INTELLIGENCER

PREMIUMS TO EVERY ONE

A Liberal Offer

Everybody having heard of these earnest and successful evangelists, everybody who would desire to see them. Failing to see the men themselves, the next best thing is a good picture of them.

We are glad to be able to gratify all who have such desire. We have made arrangement with the publishers of large lithographs of these servants of God, by which we are enabled to make the following offers:

1. To every present subscriber of the INTELLIGENCER who will PAY FOR HIS SUBSCRIPTION up to December 31st, 1876, the sum of **SEVENTY CENTS** ADDITIONAL, *over the expense of wrapping, postage, etc.*, we will send two large Engravings—one of D. I. Moody and one of Ira D. Sankey—**POST PAID.**
2. To every new subscriber to the INTELLIGENCER sending us \$2.00 for a year's subscription and **TWENTY CENTS ADDITIONAL**, for purposes above named, we will send the two Engravings, **post paid.**
3. To every present subscriber paying his own subscription to Dec. 31st, 1876, and sending us \$2.00, we will send the Pictures *without the payment of twenty cents by him.* The new subscriber will also receive the Pictures per offer No. 2.
4. Those subscribers who have already paid up to Dec. 31st, 1876 (i. e. to 1196), will have the Pictures forwarded by sending us twenty cents.

The Pictures are large and fine, and will be desirable addition to any home.

We hope to have many orders for them from both old and new subscribers.

The premiums will be sent on receipt of money; and in the order in which the subscriptions are received:—"FIRST COME, FIRST SERVED."

The above Premium offers can stand but a limited time—not many weeks; therefore all who wish to be benefitted by them, must act promptly without delay. It is altogether improbable that they will ever again have such an offer.

SEND ALONG YOUR SUBSCRIPTIONS AT ONCE!

REMEMBER.—It is always unsafe to send silver in a letter. Anything less than a dollar should be sent in postage stamps.

We use one cent stamps chiefly. Will our friends bear this in mind when they send stamps, and do not send the larger denominations.

♦♦♦♦♦

PARTICULAR NOTICE.

A few subscribers have not read carefully the conditions necessary to be complied with in order to get the Premium Pictures—Moody and Sankey. We therefore re-direct their attention to the matter, requesting them to notice that the premiums are given only to those who pay up fully to Dec. 31st, 1876 (No. 1196), and send in ADDITION, 20 CENTS.

We are compelled to adhere strictly to this rule in all cases.

Many persons suffer with sick headache and nervous headache, usually induced by costiveness, indigestion, &c. Such persons will find relief if they take *Dr. Williams' Pink Pills*, and open with small doses of *Purona's Purgative Pills*.

Have we inflammatory sore throat, stiff joints or lameness from any cause whatever? Have you rheumatic or other pains in any part of the body? If so, use *Johnson's Anodyne Liniment*. And for your feet, it is the best pain killer in this country.

READ THIS TWICE.—Five to thirty drops of THOMAS' ELECTRIC OIL, will cure common Sore Throat. It never fails, in Croup. It will cure all kinds of Croup, whooping Cough, and all other One bottle has cured Bronchitis of eight years standing; recent cases are cured in three to five days. It has restored the voice where the persons have almost lost it. It is a most powerful and an outward application in all cases of pain or lameness, nothing like it has ever been known. One bottle will cure any case of Lane Back or Crippled Neck. It is a most powerful and an outward application of the Muscles it is unequalled. In Rheumatic any other pain the first application does you good. It cures all kinds of Ache and twinges in one or two minutes, and is altogether the best and cheapest medicine ever offered to the people—the cheapest because it takes so little to do you good.
