ISAIAH 38: 15. "Himself hath done it" all; oh! how these words | father's memory. "Himself hath done it;" He who loves me best,

"Himself hath done it;" can it be aught Than full of wisdom, full of tenderest love? Not one unneeded sorrow will He send

To teach this wandering heart no more to rove "Himself hath done it;" yes, although severe May seem the stroke, and bitter be the cup,

'Tis His own hand that holds it and I know He'll give me grace to drink it meek!y up. "Himself hath done it;" oh! no arm but His Could e'er sustain beneath earth's dreary lot; But while I know He's doing all things well,

My heart His loving-kindness questions not. "Himself hath done it:" He, who searched me through,

Sees how I cleave to earth's ensnaring ties, And so He breaks each reed on which my soul Too much for joy and happiness relies.

"Himself hath done it:" then I fain would say, "Thy will in all things evermore be done," Even though that will remove whom best I love; While Jesus lives, I cannot be alone.

"Himself hath done it:" precious, precious words, Himself my Father, Saviour, Brother, Friend, Whose faithfulness no variation knows,

Who, having loved me, loves me to the end. And when in His eternal presence blest,

I at His feet my crown immortal cast, I'll gladly own, with all His ransomed saints, "Himself hath done it" all, from first to last.

THE LOCKET. BY E. C. RODNEY.

"Uncle Henry, won't you show us what's inside of that locket,-won't you show us, please?"

I pressed the spring, and the little trinket flew open. I dare say the children expected to see a pretty face or a lock of hair; but if they did they were disappointed, for there was only a round did was to give me this locket, which they compiece of white paper on which was written, "Thou SHALT NOT STEAL." But I found it hard He whom my soul with His own blood hath work, for father stayed in the garden nearly the whole afternoon. Towards evening, however, I found myself alone under the pear trees. I hastily shook down about a half dozen, and tied them up in my handkerchief. It was too late to take them to Sam's that evening. What could I do with them-hide them under my bed? No, no, I could never trust them in the house. A bright idea struck me. I hastened to one corner of the garden, dug a hole with a trowel, and filling my bundle snugly in, covered it lightly with earth, and scattered some leaves over it.

"Not much sleep did I have that night, and the sun's first rays next morning found me up and on my way to the garden to dig up the pears, and carry them to Sam's, before any one was up. To my surprise I found my father walking around the

garden with Peto. "' Why Harry,' he said, 'up so early. Are you looking for the early worm! Look there. I expect Peto has found it, or a mole.'

From the Conversazione, a department of the Englishwoman's Domestic Magazine, we take the following account of the remarkable experience of "A Tight Lacer," in reducing the size of her waist y for tather to finish talking to mother, and won- from twenty-three inches to fourteen. She says: -" I went and ordered a pair of stays, made very strong and filled with stiff bone, measuring only fourteen inches round the waist. These, with the assistance of my maid I put on, and managed the I saw Peto trot across the floor with a white bun- first day to lace my waist to eighteen inches. At night I slept in my corset without loosing the lace in the least. The next day my maid got my waist to seventeen inches, and so on, an inch smaller every day until she got them to meet. I wore them regularly without taking them off, having tightened them afresh every day, as the laces might stretch a little. For the first few days the pain was very great, but as soon as the stays were GRAND SQUARES. From \$300.00, upwards, laced close, and I had worn them for a few days began to care nothing about it, and in a month or so I would not have taken them off on any account, for I quite enjoyed the sensation."

LICENSED-TO DO WHAT?

BY JOHN PIERPOINT. Licensed-to make the strong man weak Licensed—to lay the wise man low; Licensed -- a wife's fond heart to break. And make her children's tears to flow.

Licensed-to do thy neighbor harm; Licensed to kindle hate and strife; Licensed to nerve the robber's arm; Licensed-to whet the murderer's knife.

Licensed - thy neighbor's purse to drain, And rob him of his very last; Licensed—to heat his feverish brain,

Till madness crown thy work at last. Licensed-like spider for a fly, To spread thy nets for man, thy prey To mock his struggles, suck him dry,

Then cast the worthless hulk away. Licensed-where peace and quiet dwell To bring disease, and want, and woe; Licensed—to make this world a hell, And fit man for a hell below.

DEVONSHIRE CREAM. One of the noted luxuries of the West of England is "Devonshire cream," or "clotted cream." The method of its preparation is as follows: From six to eight quarts of milk are strained into a thick earthenware pan or crock, which, when new, is prepared for use by being stood in clear cold water for several days and then scalded three or four times with skimmed milk. Tin pans may be used if they are scalded in hot bran, and left to stand with the bran in them for twenty-four hours. The milk being strained into the pan is stood in a cool room from nine to fourteen hours, according to the temperature. It is then carefully moved to the top of the stove or range, or placed over a bright fire (not too near it), and slowly heated-so that at the end of a half hour the cream will have shrunken then hastened toward the corner of the garden for twenty-nine eventful years. which can be cured by a

timely resort to this standard preparation, as has been proved by the hundreds of testimonials received by the proprietors. It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it seldom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wistar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations but it loosens and cleanses the lungs, and allays irritation, thus removing the cause of the complaint. Hair Vigor,

For restoring to Gray Hair its natural Vitality and Color. A dressing which is at once agreeable. healthy, and effectual for preserving the hair. It soon z restores faded or gray hair to its original ? color, with the

gloss and freshness of youth. Thin " hair is thickened, fallen hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair scalp arrests and prevents the forma-

from turning grey or falling off, and consequently prevent baldness. The restoration of vitality it gives to the tion of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

CHURNS! CHURNS! CHURNS! HEALTH! TIME! MONEY! WHY SHOULD I BUY KITCHEN'S PATENT CHURN BECAUSE they preserve health, save time, save money, and the churning is all done in 5 or 10 minutes. You will then believe what I assure you is true, viz.; That I have for sale the best churn ever invented—Kitchen's Patent Rotary Double Dasher. This churn has two Dashers, each tayolsing in an exposite direction. It is Dashers, each revolving in an opposite direction. It is useless to attempt a description of this churn in an advertisement, it has to be seen to be appreciated. It is estimated by practical farmers that it will produce one-tenth more butter from the same quantity of cream than any other churn now in use. The public are respectfully requested to call at my store, examine the article, and select for themselves.

Patentee and Sole Manufacturer of HULBERT'S BLACKSMITH WORK executed promptly, on liberal WATCHMAKING IN SWITZERLAND. [From the Swiss Times of May 30th.] A/E have already drawn attention to the annual meet-VV ing of the Society of Arts, held on the 23rd current, under the presidentship of M. Th. de Saussure, and are now able to furnish some further details. Professor Soret, in delivering a most interesting report, passed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers turned out by Genevese manufacturers, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching ordeal possible to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the relative of the control o whom to award the palm of excellence unanimously de-cided in favor of Messrs, J. M. Badollet & Co. This firm having carried off the sole prize by exhibiting a chro-nometer which fulfilled in the highest degree every con-dition required, crowned their first success by gaining honorable mention for two other chronometers.
