APPEAL TO MINISTERS.

NOW IS THE TIME TO BEGIN WORK.

Not many promises have we to make concerning

the Intelligencer in 1876. Let its past indicate the character of its future. It will live, and living, will do its work. Its aim is to do good to all who read it. To help pastors, evangelists, deacons, Sabbath School superintendents and teachers, and all christian workers, and to promote Christ's cause generally, is its mission

Its position respecting the various religious, moral and social questions of the day is well known. Of evil in any and every form, whether amongst the high or the low, it is, and will be, as ever, the uncompromising enemy; while of everything good it will be the firm friend and zealous

That it may well and faitfully perform its mission, the sympathy and prayers of all Christians

will, we are confident, continue to give it their support, and we will spare no effort to give them full value, and more, for the money paid.

But our present list is not large enough. MORE SUBSCRIBERS ARE WANTED.

There are thousands of families that do not now receive the INTELLIGENCER who would be benefitted by reading it, and who only require a little canvassing to induce them to subscribe. To secure these we invite the co-operation of the friends of the paper. Cannot each present subscriber obtain at least one new one? To do this will not, we think, require very great effort. Let it be tried!

FREE BAPTISTS.

On them especially it has strong claims. It is their acknowledged organ, and its course is warmly commended by the Conference. (See Resolution in another column). Through it alone Free Bap tists can communicate with each other and with the public. It is set for the defence and advocacy of the principles and interests dear to the denomination. Are not these (to say nothing of many others that might be stated) reasons sufficient to establish the INTELLIGENCER's claim to the support of all Free Baptists?

Now will the friends of the Intelligencer make this known to their friends, and endeavour to get them to subscribe? We hope so. They are the only agents we have, and all that is done has to be done by them. It is to the interest of the ministers to have the people read the Intelligencer. The readers of a good religious paper are always better and more appreciative listeners, more intelligent and devoted Christians, and more liberal supporters of the who read none.

May not the ministers speak from the pulpits in behalf of the paper, explain the claims it has upon them, and announce that they are prepared to receive subscriptions for it. Then in their visiting amongst the people they can follow the matter up, and urge upon them the reasonableness and necessity of giving a cordial support to the only journal weak Churches, to a proper understanding of the ling to the statement of an Edinburgh paper, that we can secure the revival in one soul. -A WISE KING .- His Majesty, King Kalakauka, who, it will be remembered, visited the United States last year, has inaugurated a good movement amongst his people. Recently, it is said, he called a meeting at Honolulu, of the soldiers and all employed in the palace, and urged upon them the authoritative order on this point, the king expressous. A reform was needed throughout the islands, and he was anxious that it should begin in the palace. Such an example would be highly influutial, and would be certain to extend to the rest of his subjects.
