The gentle farmer's daughter. From morn till eve, the little maid Is busy at her labor; She sweeps and dusts, and feeds the hens And never minds her neighbor; No gossip even listens to, (A merit rare' tween me and you)

Thus lives the farmer's daughter. On baking days her tiny hands Are skilful at the making, No bread more light and sweet than her's, Was ever made by baking; She churns the butter, golden, sweet, And keeps the dairy white and neat,

The busy farmer's daughter. Her garden is an Eden fair, Abloom with pinks and roses; She knows the name of every flower And makes some gorgeous posies; Grows peas, and radishes, and cress, And corn and squash, and herbs to press, This happy farmer's daughter.

Long may she bravely smile on us, Our darling household fairy, The Queen of garden, house and loft And princess of the dairy; And lead us by the pleasant way To love the things of every day, God bless the farmer's daughter.

EATON'S ACTUAL BUSINESS COMMERCIAL COLLEGE Ritchie's Building, St. John, N. B. THE COLLEGE is designed to educate young men for the various pursuits of life, by means of a complete system of ACTUAL BUSINESS Training. The course of study is comprehensively effective and interesting, and adapted not only to such as have enjoyed the best educational advantages, but also to those whose education is lefective from want or neglect of early opportunities. Every young man, no matter whether he intends to be a MERCHANT, BANKER, FARMER, MECHANIC, r to enter one of the learned professions, should have a od knowledge of business forms and usages, be well

equainted with the uses of commercial paper, and the aws which govern trade, and possess a clear and compresensive knowledge of bookkeeping, which will enable hensive knowledge of bookkeeping, which will enable him, in after years, so to arrange and classify his transactions as to be able to grasp, with equal ease, the minutest detail and the exact result of the most extensive operations. If such knowledge were general, not to say universal, it would not only promote economy and thrift, by introducing order, system, and management; but it would lessen anxiety and litigation, and largely increase the comfor, happiness, and enjoyment of life.

Description

Competition that has taken piece in the competition was instituted with the object of testing the workmanship and precision of chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers turned out by Genevese manufacturers, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching ordeal possible to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palm of excellence unanimously decided in favor of Messrs. J. M. Badollet & Co. [From the Swiss Times of May 30th.] WE have already drawn attention to the annual meeting of the Society of Arts, held on the 23rd current, under the presidentship of M. Th. de Saussure, and are now able to furnish some further details. Professor Soret, in delivering a most interesting repor passed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of having carried off the sole prize by exhibiting a chro-nometer which fulfilled in the highest degree every con-dition required, crowned their first success by gaining honorable mention for two other chronometers. The al-lusion to this triple honor was received with enthusiastic applause, and Professor Humbert, President of the Fine Arts Section closed the meeting with happy and humorous dissertation upon subjects connected with this department. lissertation upon subjects connected with this department.
