SCRIBNER FOR FEBRUARY.—Bret Harte's "Gabriel Conroy," in the February number of SCRIBNER'S MONTHLY, has an episode entitled "The Bulls of the Blessed Trinity," which is a remarkable and characteristic bit of description. Edward Everett Hale's story of "Philip Nolan's Friends" contains a curious account of a conversation by pantomime between white men and Indians. There are two articles in this number which may come under the head of discovery. One of them is concerning an important bust of Milton, very little known either in England or America; and the other is a hitherto unpublished letter from Robert E. Lee to Jefferson Davis, written after the battle of Gettysburg, and resigning the command of the Confederate forces. Charles Barnard has a paper fully describing the way of the working of the Philadelphia "Building and Loan Associations," by means of which, it is stated, one hundred thousand homes have been built in that city. Clarence Cook continues his illustrated papers on house-furnishing and decoration; and Moses Cott Tyler writes about The University of Michigan, giving an account of the woman experiment there. The Revolutionary Letters this month contain John Adams's view of "the currency question." There is an article on a singular convict island in the Atlantic Ocean, and a paper on "French Duels."

Dr. Holland writes about "The School Question," acknowledging a change of opinion with regard to to the reading of the Bible in the public schools; and discusses "The Philosophy of Reform." The Old Cabinet is devoted to "Friendship;" the Bric-a-Brac republishes a lately discovered poem by Wordsworth, to the Queen, as well as a letter by Browning to the editor of Woodsworth's prose on the subject of "The Lost Leader Home and Society tells about "Two ways of Teaching at Home," and other matters. In the World's Work a number of new processes are described.

WIDE AWAKE for February is a very noticeable number of this rapidly-growing magazine for the children and young folks. The engravings are unusually fine. The magazine opens with an excellent picture by Miss C. A. Northan, illustrating a charming Valentine story by Mrs. Mary E. Bradley, "How They Made it Up." Of the two serials, "The Cooking Club," by Ella Farman, the editor, is full of deeper wisdom than commonly goes to the making of a juvenile story, while "Young Rick" by Miss Eastman, is delightful. In depicting a dual little child-life, Miss Eastman has few equals. Fanny Roper Feudge, the accomplished traveler furnishes an entertaining paper, "Among the Parsees." But the two distinguishing features of WIDE AWAKE this month are the long letter in the "Poets Homes" series, relative to MRS. A. D. T. Whitney, and the initial paper of the "Behaving" series. The latter is prepared by the author of "The Ugly Girl Papers." It is not made up of stale injunction and Chesterfieldian maxims, but is thoroughly live and modern, like WIDE AWAKE itself. None of our young people can afford to be without the magazine while these articles upon etiquette are being published. The remaining contents are varied, story, poem and paper, with several admirably sustained departments. Dr. Tourjee's musical pag contains a hint of infinite value to every person who teaches music to children. Only $2.00 pe annum. D. Lothrop & Co., Boston.

NEW BRUNSWICK.—Messrs. Rogers and Ryan were last week re-elected in Albert County. . . .

A correspondent of the *Sentinel*, witing from Canterbury Station, York Co., says that diptheria in its most malignant form, has been revailing here for some time past, and has taken many of this place as its victims. The deaths so far are as follows; A little girl of Mr. James Smith's; Thos. Smith, a boy; John Brown, five, some of them young women; George Graham, a young man. George Grant, three, all the children he had. Adam Seymour, three, all he had; Fred Grant, and Whitfield one each, making sixteen in all. The disease is still raging. NOVA SCOTIA.—A most brutal and cold-blooded murder was perpetrated at Colter's Settlement, near Wallace, Cumberland County, N. S., on the night of the 13th inst. A man named Abram Betts murdered James Thomas, a well known and highly respected citizen of that place, without any known provocation. . . .Several days ago a young man who was imprisoned in the Halifax County Jail, for debt, married his betrothed in that institution. A friend of his then stepped in and paid the debt, and the happy couple left. . . .The Halifax *Recorder* says: When the steamer *Dacien* was wrecked near Herring Cove, on the 9th April, 1872, there was considerable unlawful wrecking indulged in, and many valuable goods thus lost to the rightful owners. After four years, proceeds of at least a portion are heard from. Messrs. T. R. S. DeWolf & Son, agents of the Anchor line of steamers at this port, beg to acknowledge the receipt of two sums of money, amounting to nearly $100, through the Rev. Mr. Kennedy, of Herring Cove, being restitution money in connection with the wreck of the steamer Dacien, and, in the case of another steamer also wrecked on our coast, S. Cunard & Co. acknowledge the receipt of $7.53 from Rev. Father Kennedy, of Herring Cove, restitution money on account of steamship *Atlantic*. . . .The Kentville *Chronicle* says: On Saturday, last, while the express train was coming east, Conductor Clarke found on board a young man who represented himself as a sailor, and who, as he said, had no money but wished to go as far as Windsor Junction. Clarke rehearsed to him the rules by which he was governed, and put the man off at Lawrencetown. No more was seen of the stowaway until the train arrived at Kentville, where the Car Inspector was examining the wheels of the first-class carriage, he found a man seated on the brake beam of the car underneath the platform. After being put off at Lawrencetown, he crawled underneath the car and came to Kentville. He was ordered "out" and interviewed by Mr. Sutherland, who sent him into the smoking car, with orders to stay there until he arrived at his destination. The position while under the car was an exceedingly dangerous one, irrespective of the blinding snow that drifted around him, and the severe cold

BLEEDING FROM LUNGS, CATARRH, BRONCHITIS, CONSUMPTION. A WONDERFUL CURE.

ROCHESTER, N. Y., Jan. 13th, 1874.

R. V. PIERCE, M. D., Buffalo, N. Y.:

Dear Sir—I had suffered from Catarrh in an aggravated form for about twelve years and for several years from Bronchial trouble. Tried many doctors and things with no lasting benefit. In May, '72, becoming nearly worn out with excessive Editorial labors on a paper in New York City, I was attacked with Bronchitis in a severe form, suffering almost a total loss of voice. I returned home here, but had been home only two weeks when I was completely prostrated with Hemorrhage from the Lungs, *having four severe bleeding spells within two weeks, and first three inside of nine days.* In the September following, I improved sufficiently to be able to be about, though in a feeble state. My Bronchial trouble remained and the Catarrh was tenfold worse than before. Every effort for relief seemed fruitless. I seemed to be losing ground fast. I continued in this feeble state, raising blood almost daily until about the first of March, '73, when I became so bad as to be entirely confined to the house. A friend suggested your remedies. But I was extremely skeptical that they would be good as I have small heart in remedies, and began to look upon medicine and doctors with disgust. However, I obtained one of your circulars, and read it carefully, from which I came to the conclusion that you understood your business, at least. I finally obtained a quantity of Dr. Sage's Catarrh Remedy, your Golden Medical Discovery and Pellets, and commenced their vigorous use according to directions. To my surprise, I soon began to improve. The Discovery and Pellets, in a short time, brought out a severe eruption, which continued for several weeks. I felt much better my appetite *improved*, and I gained in strength and flesh. In three months every vestige of the Catarrh was gone, the Bronchitis had nearly disappeared, had no cough whatever and I had entirely ceased to raise blood; and, contrary to the expectation of some of my friends, the cure has remained permanent. I have had no more Hemorrhages from the Lungs, and am entirely free from Catarrh, from which I had suffered so much and so long. The debt of gratitude I owe for the blessing I have received at your hands, knows no bounds. I am thoroughly satisfied, from my own experience, that your medicines will master the worst forms of that odious disease Catarrh, as well as Throat and Lung Diseases. I have recommended them to very many and shall ever speak in their praise.

Gratefully yours,
W. H. H. SPENCER.

The memorial of the anti-Slavery society to the Earl of Derby on the Cuban question states that they have reliable information that Spain is willing to place Cuba in the same relation that Canada occupies toward England, on the condition that slavery is retained. The memorial points out that in view of the recent American circular, the obstacle no longer exists which was advanced by Earl Derby last year, — that Great Britain's interference in the Cuban question would cause jealousy in the United States.

ELECTRICITY! THOMAS' ECLESIOR ECLECTRIC OIL!—WORTH TEN TIMES ITS WEIGHT IN GOLD.—Pain cannot stay where it is used. It is the cheapest medicine ever made. One dose cures common sore throat. One bottle has cured bronchitis. Fifty cents' worth has cured an old standing cough. It positively cures catarrh, asthma and croup. Fifty cents' worth has cured crick in the back, and the same quantity lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which we think, should be sufficient to satisfy the most sceptical: J. Collard, of Sparta, Ont., writes, "Send me 6 dozen Dr. Thomas' Eclectric Oil, have sold all I had from you, and want more now; its cures are truly wonderful." Wm. McGuire, of Franklin, writes, "I have sold all the agent left, it acts like a charm—it was slow at first, but takes splendidly now." H. Cole, of Iona, writes, "Please forward a dozen Thomas' Eclectric Oil, I am nearly out, nothing else sells it. It is highly recommended by those who have used it." J. Bedford, Jamesville, writes, "Send at once a further supply of Eclectric Oil, I have only one bottle left. I never saw anything sell so well and give such general satisfaction." J. Thompson, Woodward, writes, "Send me some more Eclectric Oil. I have sold entirely out. Nothing takes like it." Miller & Reid, Ulverton, P. Q. write, "The Eclectric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay." Lemoyne, Gibb & Co., Buckingham, P. Q., write, "Send us one gross Eclectric Oil. We find it to take well." Sold by all medicine dealers. Price, 25 cts.

MR. JOHN N. COLEMAN, Woodville, Cornwallis N. S., had *Rheumatism* in his knee for ten years; was cured by one application of GRAHAM'S PAIN ERADICATOR in 1862. Remains well.

A dose or two of Dr. Wilson's Anti-Bilious and Preserving Pills, administered as soon as the symptoms of disease are felt, will, in nine cases out of ten, prevent serious sickness. This fact is particularly worthy the attention of those who cannot conveniently procure medical aid.

Dr. Dow's Sturgeon Oil Liniment has become so generally used that no stable is complete without it. The promptness and certainty with which it acts renders it invaluable to those who have the care of horses. It is better than any Liniment in use, no matter under what name it may be called.

Our Veterinary Surgeons throughout the Dominion recommend Clark's Derby Condition Powders for several reasons; one, because they know that Professor Clark would not associate his name or introduce any article that was not the very best of its kind; and again, from experiencing the good esults that follow their use.
