A HEALTHY CHURCH. It is the mission of a church to do good. To this end it must be healthy. It is a fact-sorry we are to have to state it - that too many churches, so called, fall far short of doing the work they ought. They are not healthy. Some of them are very rich. During their whole existence some of them have been living at "a poor, dying rate;" not observe the laws of health. When a man violates well known health laws, he need not be surprised if he becomes weak and emaciated, spends his days in wretchedness and sinks prema-"two things that characterize every church that is on the minds of little ones who knew of mother's a view to usefulness in the cause of Christ. in the highest condition of spiritual health." The one is that they all worship, and the other that they all work. The first appertains more directly to the heart; the second appertains as well to the head, the hands, and the purse. The fullest combination of the two would almost realize the ideal of church-life in its highest form.

a certain time we are told that when the ark was It is too much a habit amongst Christians to think gods. Bacchus has set up his shrine in the midst removed to Jerusalem, David appointed a day of the work of winning souls must be crowded into of the idols, and he bids fair to outrival Krishna thanksgiving. Simply because "the people vain," had a mind to work." Every man did something. The merchants had their allotted share of the wall, tended the job at one point and the priest pil

oue, and every one in his place. These two pictures reveal the secret of a successful church. The secret does not lie particularly in any denominational rule or ritual; it is found in these two things: the whole people worship and the whole people work. In our view, there can be no genuine worship in a Christian assembly unless the hearts of that assembly are enlightened in it. There can be no spiritual growth unless the people reach the state of self-denying zeal where they are willing to labor " with a will " for the Divine Master. The people's hand must be busy; the people must all say Amen.

Paul himself could not build up a Church, with Apollos for his assistant, unless the members worshipped and the members worked.

His internal government has been greatly strengthened, the administration of law and of the prisons improved, the railroad system of the country enlarged, and its material wealth largely increased. It is said that he proposes to establish a regency during his retirement, at the head of which will be his son, through the death of his lamented brother, ten years since, now the eldest. He is 31 years of age. His title is the Czarvitch. His wife is the Princess Dagmar, Denmark. The Prince will have an opportunity to try his hand, with a strong arm still behind ready to take up the sceptre if it should tremble at all in the unwonted grasp of the young Czar.

J. HENDERSON. BRIDGEWATER, MAINE. - Dear Bro. McLeod : I thought that it might interest the readers of your gan to hold extra meetings the latter part of "Hell Corner," the burial place for the unbaptized. February, and kept them up for about four weeks, when we were obliged to stop on account of sickness. During the time the meetings were held many wanderers were reclaimed, and a number of sinners were converted. Twelve have already followed the Saviour in the ordinance of baptism, Arts who, having been educated at the Colleges, and a number more expect to go forward next Sunday. The church has been much strengthened by this work of grace, and we think stands well united. We hope the work may be permanent.

Pray for us, that it may still go forward. Yours in Christ, F. H. BUBAR.
