stifle investigation. He entered quite fully into a history of the transactions of the Crown Lands Department, and charged that great blunders had been made, resulting in serious loss to the country.

The Surveyor General in reply gave a statement of the facts as they occurred, showed the errors into which Mr. Burns had fallen. He declared that in dealing with the seizures he had secured for the Crown as much money as would have been paid by Ferguson, Rankine & Co., if they had taken out licenses.

Monday.—Mr. Covert moved, seconded by Mr. Tweedie:

Resolved, That certain returns, in compliance with motions for addresses of the House of Assembly, made on the 13th and 24th of March, be carried to a select Committee with power to bring before them persons and papers, and that the said Committee shall have all the powers, rights and privileges conferred by the first and second sections of an Act passed in the thirty-third year of Her Majesty's reign, chap. 36, intituled an Act to provide for the attendance and examination on oath of witnesses before the Legislature, or Committee thereof, and that the said Committee shall have power to report the minutes of evidence taken before the said Committee to this House.

Hon. Mr. King moved the previous question. He contended that the motion was a distinct want of confidence in the Government. He referred to the practice in the British Parliament, saying that there such a motion would be so treated. A great many questions are asked the Government upon all sorts of matters, to which the Government give answers from time to time. To have a Committee appointed to enquire into the matter of their answers was a thing no Government would endure. The moment such a motion passed, it would be an express opinion of the House that they have no confidence in the Government.

Messrs. Tweedie, Davison, Leighton, Burns, Pickard, Cotterell, Smith, Johnston, Ryan, and the Provincial Secretary spoke, and the question—"Shall the main question be now put?"—was taken. Yeas 13, nays 24.

Hon. Mr. Fraser introduced a bill to divide the Parish of Dumfries, York, and petitions in support of the bill.

Mr. Burns introduced a bill to amend an act to provide for the establishment of a police force and lock-up house at Caraquet, Gloucester.

Mr. Ryan (Albert), submitted the report of the Committee on Agriculture.

Mr. Rogers moved the resolution of which he had given notice.

Mr. Cotterell, from the Committee to whom was referred a bill for the protection of moose, submitted a report recommending the bill with amendments.

Mr. Covert gave notice of motion that a select Committee of this House be appointed to cooperate with a similar Committee of the Legislative Council for the purpose of examining into the proceedings of the corporation of the People's Bank, as provided by the Act 27th Vic., chapter 34, section 28.

Order of the day, the adjourned debate, was continued, and speeches were made by Messrs. Keans, Smith, Fraser, Elder and Tweedie.

Tuesday.—Mr. Austin recommitted a bill to prevent vexatious suits, but some objection having been taken to the bill, on motion of Mr. Austin progress was reported, and leave asked to sit again.

Mr. Elder from the Committee to whom was referred a bill to enable the trustees of Mr. Robt. L. Hazen to convey certain lands, reported that they had made certain amendments and recommended the bill to the favorable consideration of the House.

Mr. Phillips presented the report of the Committee on Debates.

Mr. Burnes presented the report of the Committee on the petition of D. G. Smith.

Wednesday.—Read a third time and passed the bill to enable the trustees of Robert L. Hazen to convey certain lands; bill relating to the holding of Circuit Courts and in amendment to the practice of law and proceedings in equity; bill in amendment of an act to provide for the establishment of a police force and lock-up house in Caraquet.

House in committee, agreed to final chapter of Consolidated Statutes.

Mr. Keans recommitted a bill to prevent labor on the Sabbath.

Mr. Tweedie moved the bill be postponed three months. The motion was adopted.

DOMINION PARLIAMENT.

OTTAWA, April 7.—In reply to Mr. Mitchell the Premier said it was the intention to open the Intercolonial on strictly temperance principles.

Another debate seemed likely to be provoked on the subject of the Pacific Railway on the item of $281,000.

The amendment carried.

On the item of $500,000 for Pacific Railway surveys Mr. Plumb moved in amendment that words pledging the country to the due performance or the contract with British Columbia as quickly as possible without increasing the burden of taxation on the people of the Dominion be added to the original resolution.

Amendment lost and item granted.

The revenue of the Dominion for the month of March, on account of consolidated fund, was $1,614,000; expenditure $1,859,000.

OTTAWA, April 8.—Burpee (Sunbury) brought up the subject on the Baie Verte Canal. First he complained that no vote for it was put in the estimates. He proceeded to describe at some length the country through which the canal would have to pass, and alluded to the location of the Intercolonial Railway, which he ought to have been a commercial road, had been made a military one. The route might have been considerably nearer St. John without being taken away from Halifax. The Speaker went on to discuss at some length the necessity of the construction of the canal, but the Hon. Mr. Mackenzie interrupted after the speaker had had the floor for one hour, and the question was adjourned till Monday.

OTTAWA, April 10.—The motion to authorize the loan of rails to private railroads in New Brunswick, caused a discussion. Bowell moved an amendment directing them to be sold. Sir John A. McDonald supported this because the resolution did not state what roads should get the rails and this was objectionable on constitutional grounds taken by Mackenzie in the Ontario Legislature. The Premier stated what roads have applied for the rails. Several members of the Opposition condemned the proposal strongly, and insisted that the rails should be sold. Mitchell declared his approval of the Government policy and regretted that the opposition objected. The Government insisted on a division and there was a large majority against the amendment.

Mitchell spoke on the fishery question, and proposed to offer an amendment, but suggested as a compromise that a case on the question of riparian rights be submitted to the Court of Appeal. The minister asked time for consideration till tomorrow.

Charles Burpee resumed his speech respecting the Baie Verte Canal, but a point of order was raised and the Speaker ruled that he had no right to make a motion or discuss the question then. He complained much that opposition prevented his speaking on so important a subject.

OTTAWA, April 12.—The House was prorogued at 3 o'clock this afternoon.

The News and the Press.

ST. JOHN, N. B., APRIL 14, 1876.

NEW BRUNSWICK.—It is said that the contract for the Grand Southern Railway has been finally completed....At Sackville, on Thursday, three men went out goose shooting. When one of them, Wheeler by name, was getting over a fence, on the Tantramar Marsh, his gun exploded, the bullet striking him just behind the ear, killing him instantly. He leaves a wife and four children.... Twenty-seven millions of logs have been cut on the Nashwaak river and its tributaries, by the lumbermen of Alex. Gibson, Esq., during the past winter, he being the only operator on those streams. Of this quantity about seventeen millions were cut off his own lands, which can be made into deals and landed in St. John at a comparatively small expense, so that this season's operation will be a paying one to him. There is yet about three feet of snow and ice in the woods, and it is anticipated there will be good stream driving....The Annual Meeting of the Stockholders of the Fredericton Railway Company was held on Thursday, when the following gentlemen were elected Directors for the ensuing year, viz:—Thomas Temple, A. F. Randolph, J. L. Inches, E. R. Burpee, H. D. McLeod, Esquires. At a subsequent meeting of the Directors, Thos. Temple, Esq., was unanimously re-elected President for the ensuing year, and Mr. John Richards, Secretary-Treasurer; Messrs Fraser & Winslow, Solicitors.... The *Borderer* says the breach of promise case, which, it was expected would be tried at the late session of the Westmorland Circuit Court, has been postponed until the November Court. Another case of a like nature is about to be instituted, so report says, against a Fairfield farmer, named Crossman, who was married quite recently. With two breach of promise suits, and the usual number of civil and criminal cases, the meeting of the November Circuit Court for this county may be looked forward to with unusual interest....The Moncton *Times* reports the following accidents:—Alex. Carter had his arm so severely injured by being caught in a pair of cog wheels in the railway workshop, Moncton, that the arm had to be amputated below the elbow.—Geo. Jonah, of Moncton, was accidentally shot in the foot, and it was found necessary to amputate the limb above the ankle.—Wm. Forbes, son of Mr. Peter Forbes, while working in the railway carshed, got his arm caught in the wheel of the planing machine and considerably mangled.—On Thursday last, Mr. Geo. Taylor, Sr., employed in the machine shop, fell on a machine and broke three of his ribs....The St. Stephen *Journal* says: On Thursday last the body of a boy about fifteen years of age was found by some young men, while hunting on Ross' Island, near Grand Manan. The body recovered is supposed to be that of a lad who arrived late last fall at Grand Manan, from Yarmouth N. S., in quest of employment. He hired with the captain of a ship in the offing, and he and his employer started in a boat one evening for the vessel. The boat was driven back, and the boy was missing, the captain, whose name we have not learned, claiming that he fell overboard. There was some suspicion of foul play at the time, but it is now thought that the poor boy had really fallen overboard, and gained the shore of Ross' Island, where he had perished during the night from cold and exhaustion.....Mr. Moses' house at Welshpool, Campobello, was destroyed by fire on Sunday night. Insured in the North British for $1000....A daring robbery and attempt at arson was committed in Fredericton on Sunday morning. The clothing store of James Howie was entered and robbed of a quantity of clothing and one sovereign in money, and for the purpose of hiding traces of their crime the robbers set fire to the store in two places. Fortunately, however, Mr. Howie's family discovered the fire in time to prevent any considerable damage. The police were called in and the footprints of the robbers in the snow were followed which led to the arrest of Arney Brown, Jack Amos, and a Mrs. Belyea, in whose house a portion of the stolen property was found.... A. Chipman Smith was elected mayor of this city for another year, on Tuesday last.

NOVA SCOTIA.—The Amherst *Sentinel* says: The Messrs. Eaton have done a large business in the lumbering this winter, having hauled about 3,000,000 feet of logs for their steam mills, which will be started in a few days. They have 1,250,000 feet of sawn lumber on hand, and have effected large sales in England for summer delivery. In addition to the sawn lumber business they have put out and moulded, during the winter, the frame for a ship of 1500 tons register, and are now engaged in getting out another ship frame....The Amherst *Sentinel* reports that Messrs. Etter, Buckley & Co., of that town, have a pair of fat oxen which are believed to be the largest in the Maritime Provinces. The measurement is as follows:—girt, 9 feet; length, from root of horn, 9 ft. 6 in., height, at st oulder, 8 feet,.... The Halifax *Herald* is authority for the following:—A short time ago a married woman, who owned considerable property was found dead in her bed one morning at her residence in one of the villages in Cumberland Co. It was known that she intended to make a certain disposition of her property, dividing it among her relatives. But no will could be found. Recently however, a document which purports to be a will, was found, and by this document the whole of her property is left to her husband. This fact has caused some talk, and the relatives of the deceased are about to take steps to have the body exhumed and an inquest held, as they believe everything is not just as it should be. In such a matter as this it is not wise to publish names until there are further developments.

A TRIUMPH OF MEDICAL ART.

Yes, a triumph we call it, when medicine can be "fixed up" as to be pleasant to take and yet accomplish the object intended. Such a medicine is Dr. Pierce's Purgative Pellets, samples of which the writer procured and tested in his own family. The Pellets (little pills) are about one-fifth the size of an ordinary pill, made of highly concentrated root and herbal extracts, and sugar-coated.—*Frankfort (Ind.) Weekly Crescent.*

For Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the Mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feelings about Stomach, Rush of Blood to Head, and Gloomy Forebodings, take Dr. Pierce's Pleasant Purgative Pellets, or Sugar-coated, Concentrated Root and Herbal Juice, Anti-bilious Granules—the "Little Giant" Cathartic, or Multum in Parvo Physic. Sold by dealers in Medicines.

BRITISH AND FOREIGN.

LONDON, April 6.—The Earl of Sheffield died yesterday aged 74.

The following are the particulars of the disaster, yesterday, on the River Dee at Aberdeen, received. The day was sacramental last day, set apart by the Scotch Church for preparation for the Sunday Communion. The people celebrated it as a holiday and crowds were crossing from Aberdeen to Torry, a village on the opposite bank of the river, in overloaded ferry boats which are drawn across by wire ropes. One boat containing about sixty persons, despite the waterman's warnings, was pulled by the passengers into the middle of the stream, where it was swamped. The scene during the night was distressing. The relatives and friends were watching on the banks or searching in the river for the bodies, but up to 3 o'clock this morning none had been recovered. Twenty-two persons including men, boys and girls are known to be drowned. Thirty-two lives were lost.

LONDON, April 7.—The House of Commons will question the Government regarding the Canadian Premier's complaint of the construction put upon the Washington treaty by the United States.

Five thousand workmen in coal mines of North Derbyshire have struck in consequence of reduction of wages.

The Paris correspondent of the *Times* says it is thought that the site of the Universal Exhibition of 1877 will be on the Champs de Mars. The undertaking will probably be carried out by a private Company, the interest of which will be guaranteed by the State, so that it will not be necessary to ask any credit from the Chambers.

At the Central Criminal Court to-day Capt. Ferdinand Kohn, of the steamer *Franconia*, which ran into and sunk the *Strathclyde*, was found guilty of manslaughter. Sentence deferred, to await the decision of the Court of Appeals on the question of jurisdiction.

Veterinary Surgeons all over the country are recommending *Sheridan's Cavalry Condition Powders* for the following trouble in horses: Loss of appetite, roughness of the hair, stoppage of bowels or water, thick water, coughs and colds, swelling of the glands, worms, horse ail, thick wind, and heaves.

THE WAY "to minister to a mind diseased," is to take Peruvian Syrup, a protected solution of the protoxide of iron, which gives strength and vigor to the whole system, restores the digestive organs to perfect health, thereby restoring the mind to its natural vigor.

WHAT THEY SAY OF IT. A FEW FACTS FOR THE PEOPLE. There are but few preparations, of medicines which have obtained the impartial judgment of the people for any great length of time. One of these is Dr. Thomas' Eclectric Oil. Read the following and be convinced:—Thos. Robinson, Farnham Centre, P. Q., writes, "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Eclectric Oil, and since then have had no attack of it. I would recommend it to all."—J. H. Earl, Hotel Keeper, West Shefford, P. Q., writes, "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts, wounds, etc., and think it is equally as good for horse as for man."—A. Maybee, Merchant, Warkworth, writes, "I have sold some hundreds of bottles of Eclectric Oil, and it is pronounced by the public one of the best medicines they have ever used; it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Rusan, Township Percy, writes, "I was persuaded to try Thomas' Electric Oil for a lame knee which troubled me for three or four years, and I never found anything like it for curing lameness. It is a great public benefit."—A. M. Hamilton, Warkworth, writes: "For weeks I was troubled with a swelled ankle, which annoyed me very much. Mr. Maybee of this place induced me to try Eclectric Oil, and before one bottle was used I was cured. It is a most remarkable medicine.

For Spinal *Complaints*, GRAHAM'S PAIN ERADICATOR is the best remedy known for relieving the pain and restoring a healthy action. If applied before the bones have grown to the form of the curvature it can be prevented, but at any time affords great relief.

INDISPUTABLE FACTS.—If used faithfully and perseveringly, there is no Cough or Cold, however obstinate or long standing, but what will yield to Dr. Wilson's Pulmonary Cherry Balsam. Numbers of people who have tried all other remedies, and have been under the care of eminent physicians without deriving the slightest benefit, have been thoroughly cured by a few doses of this matchless Balsam. For Asthma, Bronchitis, Influenza, Whooping Cough, &c., there is no medicine that can be used with so good an effect. In fact, in the worst form of these diseases this Balsam is irresistible.

Whoever would be well must see that every organ of the body does its share of duty. Every one may insure this by taking an occasional dose of Dr. Wilson's Anti Bilious and Preserving Pills. Stomach, Liver, and Bowels, are all reached by the purifying powers of these Pills.

Many thousands of martyrs from Rheumatism have found human life but one long disease, and after consulting the most eminent physicians in vain, have grown weary of existence, and have ceased to hope for comfort on this side of the grave, until some lucky accident called their attention to Dr. Dow's Sturgeon Oil Liniment. This is a genuine remedy indeed. Persons bed-ridden with rheumatic pains, after applying the Liniment, have found themselves restored in an incredibly short space of time to perfect health.

Clark's Derby Condition Powders are the best medicine in existence to put a horse in good condition, giving him a coat soft and bright as satin, and purifying all the internal and urinary organs. They act directly upon the Blood, giving him a good appetite, regulate the bowels without purging, and are the desideratum so long sought for.
