A MOST REMARKABLE CURE. PRILAPELPHIA, June 28th, 187.

SETH IANCE, Baltimore, Md.—Dear Sir: Seeing your divertisment, I was induced to try your Epileptic Pills. I was attacked with Epilepsy in July, 1885. Immediately my phylician was summoned, but he could give me no relief. Then consulted another physician, but I seemed to grow torse. I then tried the treatment of another, but without my good effect. I again returned to my family physician was cupped and bled several different times. I was generally attacked without any premaintory symptoms. I had from two to five fits a day, at intervals of two week. I was often attacked in my sleep, and would fall wherever I would be, or wintever be occupied with, and was everely in jared several times from the falls. I ad was everely injured several time outdence in mysas affected so much that I lost all confidence in mysas and I consider was affected so much that I lost all confidence in myself. I also was affected in my business, and I consider that your Epilotic Pilis cured me. In Pebruary, 1825, commenced tonse your Pilis, and only had two attacks afterwards. The last one was April 5th, 1825, and they were of a less serius character. With the blessing of Providence your meetine was made the instrument by which I was cured of that distressing affliction. I think that the Pilis as their good effects should be made known everywhre, that persons who are similarly affected may have the benefit of them. Any person wishing further aformation can obtain it by calling at my residence, o. 836 North Third St., Philadelphia, Pa.
