Act will hereafter rapidly secure the establishment low and vulgar, but the paper is not meant for things be on them all. No doubt the bad condimakes it as gloomy as the cloister. The drains an institution for the education of poor boys.

One very important result of the operation of the Common Schools Act is seen in the enlarging, repairing, and erection of school houses. The progress in this branch of the service has been very terest has been centered on the Prince of Wales' in providing suits are being estimated. The general opinion seems to be that expressed by the Scottish American Journal, which says it is impossible to speak in language too exalted of the reception with a stronger Christian, and a nobler preacher, if he had a better home. The idea is becoming obsolete that damp rooms and foul sewers promote growth in grace.

Society.

Dear Bro. McLeod:—The flight of another month reminds one that a report is due. Soon after month reminds one that a report is due. Soon after my last report I left home, and returned to my last report I left home, and returned to my last report I left home, and returned to my last report I left home, and returned to my last report I left home, and returned to my last report I left home, and returned to my last report I left home, and returned to my last report I left home, and returned to my last report I left home, and returned to my last report I left home, and returned to my last report I left home, and returned to my last report I left home, and returned to my last report I left home, and returned to my last report I left home, and returned to my last report I left home, and returned to my last report I left home, and returned to my last report I left home, and returned to my last report I left home, and returned to my last report I left home. The idea is becoming obsolete that damp rooms and foul sewers promote growth in grace.
