> THOMAS' ECLECTRIC OIL! WORTH TEN TIMES ITS WEIGHT IN GOLD. DO YOU KNOW ANYTHING OF IT? IF NOT,

IT IS TIME YOU DID.

There are but few preparations of medicine which have withstood the impartial judgment of the people for any great length of time. One of these is Thomas' ECLECTRIC OIL, purely a preparaeach one possessing virtues of its own. Scientific physicians know that medicines may be formed of everal ingredients in certain fixed proportions of g.eater power, and producing effects which could never result from the use of any one of them, or in different combinations. Thus in the preparation of this Oil a chemical change takes place, forming a-compound which could not by any possibility b made, one which produces the most astonishing than any medicine ever before discovered. It contains no alcohol or other volatile liquids, cons quently lose nothing by evaporation. Wherever applied you get the benefit of every drop; whereas with other preparations rearly all the alcohol is lort in that way, and you get only the small quantity of Oils which they may contain. S.
