other day the dog died, and mule is now full heir to the estate. We suggest that Mr. Bergh be appointed executor of that estate.

A proposition has been introduced into the Connecticut Legislature to give the right of voting in city and town elections to women paying taxes on property valued at three hundred dollars. The State of New York, previous to the ratification of the Fifteenth Amendment to the United States Constitution, gave the right of suffrage in all elections, to colored men worth three hundred dollars. The ladies of Connecticut must feel grateful to the solons of that State who have the generosity to propose such distinguished political promotion.

The Old Testament Company, at the conclusion of their forty-second session, February 2, had finished the revision of Ezekiel, and proceeded with that of First Kings as far as chapter x. 29. They have now revised the Pentateuch twice, and the Books of Joshua, Judges, Ruth, First and Second Samuel, the Psalms, Isaiah, Jeremiah, and Ezekiel, for the first time. The New Testament Company have held their sixty-sixth session, at which they were engaged on the Epistle to the Hebrews, chapter x.

A Universalist pastor lately asked Mr. Moody whether he was invited to join in the revival movement. The answer, though not intended for publication is so conclusive and simple that it ought to put an end to open letters and secret complaints. Mr. Moody said in substance, "I invite every minister in sympathy with this movement. I love every man on the face of the earth. You know the doctrines I preach. If you can stand me I can stand you. Only let us have no controversy. We have no time to fight. If you are not in sympathy with the movement, you work in your own way, and let us alone in our way."

Ex-Pere Hyacinthe delivered a lecture in Geneva the other day, in which he stigmatized that capital as being the most infidel and immoral city in Europe. He says he bases his judgment upon the desecration of the Sabbath, the general tone of the press, public opinion as manifested in the clubs, and the spirit that animates the education of youth. He has thereby excited the indignation of a certain Prof. Nicolle, who in a letter just published, and addressed to the Father himself, says that, as a foreigner having resided in Geneva for the last fifteen months, he can testify that in no other town of Europe are the four matters condemned by the illustrious orator of a more edifying nature than in Geneva.

Yes, 'tis true, "the Lord will provide;" but it is equally true "the Lord help those who help themselves." Many good people appear to expect simple prayer to accomplish what, in God's providence, can only be effected by some of their money. Many possesses the power to answer their own prayers. The *enfant terrible* is oftimes quite a philosopher, and sees through things with wonderful alacrity. A boy passing a candy store, in the window of which was displayed the motto, "The Lord will provide," was heard to remark, "nickle is the only stuff what gits the gum drops." So it is when we pray the Lord to provide for those whom we can supply from our own purse. Let us remember that the expenditure of a little of our money may sometimes secure the blessing.

Harper's Magazine for April comes to its host of readers richly laden with even more than its accustomed variety of instructive and entertaining matter. The leading article, by Harriet Prescott Spofford, is an eloquent history of Renaissance Decoration, as applied to furniture, illustrated with twenty-one superb engravings. Dr. A. L. Gihon concludes his beautifully illustrated paper on the Atlantic Islands—treating this month the Canaries and Cape Verds, mingling with his entertaining information observations that are of the utmost importance to invalids. Mary Treat contributes one of her chapters of gossip about birds, in another illustrated article. In "Shoemaker and Naturalist," also illustrated, S. S. Conant gives us a charming narrative of the adventures of Thomas Edward, a Scotch naturalist, and the subject of a recent biography by Smiles. Dr. John W. Draper continues his very interesting description of remarkable experiments made by him—this time in connection with flame and the combustion of substances. The experiments are fully illustrated. In Fiction this Number is one of marked interest. Besides the two best serial novels of the season, "A Woman-Hater" and "Erema," there are four excellent short stories by John Esten Cooke, A. P. C., T. L. M'Cready, and Rebecca Harding Davis. Mr. Cooke's story is effectively illustrated by Abby, and Mr. M'Cready's humorous narrative, entitled "Uncle Zeke's Conscience," receives added interest from Mr. Sol Eytinge's admirable illustrations. Henry W. Longicllow contributes a poem, entitled "Vittoria Colonna." Elizabeth Stuart Phelps is the author of another poem, entitled "A Song of the Garden." Anna C. Brackett, in a brief but vigorous article, makes a strong plea for the Liberal Education of Women; and Edward Holland, in an able paper, traces the development in our Public Libraries. The Editorial Departments are full of interesting matter on new themes, new books, new facts in science, the current events of the month, and timely humors. The *Drawer* is especially amusing, and contains seven illustrations.

INTERNATIONAL CONVENTION OF THE Y. M. C.—The Twenty-Second Annual International Convention of the Young Men's Christian Associations will assemble at Library Hall, in the city of Louisville, Ky., at 11 o'clock, A. M., Wednesday, June the 6th, and continue in session five days.

The General Secretaries will meet for conference upon their duties and the general work of the Association, on Saturday, June the 2d. This meeting will not be public, but ministers and prominent laymen will be invited to attend.

The preparations making by the Louisville Association for the reception of delegates, are well under way. No difficulty has been encountered in raising the funds necessary to defray the expenses of the Convention, and from what is already known, the accommodations for the entertainment of delegates will be complete and ample.

The General Secretaries' Conference will be composed of about eighty general secretaries. The Convention will number about five hundred delegates, representing Associations in all parts of the United States and the British Provinces. Visiting delegates will also be present from Europe.

The News and the Press.

ST. JOHN, N. B., MARCH 30, 1877.

NEW BRUNSWICK.—A fire at Indiantown on Monday night, destroyed a number of sheds and other property belonging to Messrs. Tapley, Mr. D. V. Roberts, Messrs. Brown and others. A number of schooners in one of the slips narrowly escaped destruction, two or three being slightly scorched. Some of the firemen were injured by a falling chimney. The owners of the properties will lose heavily, the insurance in all cases being only partial, but the work of rebuilding has already commenced.... The parties who recently emigrated to California from Fredericton, are not writing very encouraging letters to their friends in New Brunswick, but there are still some young men, not over fond of work, who are about trying the Pacific Slope for even a lazier life than they had been living at home.... Mr. Solomon Chambers, a much respected and well known resident of Sussex, died at Mr. John Virtue's on Saturday morning, March 23, at the advanced age of 107 years, retaining his faculties till the last. Mr. Chambers emigrated to this Province from Ireland fifty-six years ago, and settled on what was then a dense forest, now called New Line Road, King's County.

NOVA SCOTIA.—The Court for the trial of causes against the Government in the matter of Intercolonial contracts will meet at Halifax on Monday next, Judge Ritchie presiding. His Honor was in St. John Tuesday, and in the afternoon he paid a visit to the Circuit Court, where he was received with every mark of respect by the members of the Bar in attendance, and by the Chief Justice.... A few nights ago the shop of Mr. J. A. Elliot, Pugwash, was burglariously entered, and relieved of goods to the value of about $300. A sled track was followed to the house of George Amoor, where the goods, together with a quantity taken some time ago from the store of Mr. A. Wilson, were found. ....Capt. Merritt, of the Bear River brigt. *Annie Bogart*, which arrived at Digby, yesterday, from Antigua, (46 days round passage), reports:—On Saturday last, Charles Clark, son of Edward Clark, of Bear River, while walking on the house, was thrown overboard by a lurch of the vessel and drowned. The vessel was heaving heavily at the time, and he had been warned against walking on the house by the second mate. Every effort was made, unsuccessfully to save him.... The sureties of Mr. Benjamin Killam, as assignee of Young, Kinney & Corning, recently have handed to Mr. Rowley, who is winding up the estate, a cheque for seventeen thousand dollars, to cover the amount found missing under Mr. K's administration.

GENERAL.—The number of fishing arrivals at Cape Ann the past week has been 30, including 1 from Fortune Bay, Nfld., 4 from Grand Banks, and 25 from Georges. The receipts of cod and halibut have been about 565,000 lbs. The weather has been unfavorable for curing fish, and the movements have been light ... Mrs Ellen McLeod, who died at Mount Thom, P. E. I., on the 23rd of February, was born in Sutherlandshire, Scotland, in 1775, and was therefore, in her one hundred and second year.

EUROPEAN & NORTH AMERICAN RAILWAY.—For Extension from St. John, Westward:—J. MURRAY KAY and E. R. BURPEE, Receivers. Trains run as follows:—BANGOR EXPRESS, connecting with trains of Fredericton and N. B. & C. Railway, will leave St. John at 8.15 A. M., and Accommodation for Fredericton and Freight, will leave St. John, at 3 P. M. The Bangor Express from Bangor, Fredericton, Woodstock, &c., will be due at St. John, at 6.30 P. M., and Freight from Fredericton &c. will be due in Carleton, at 12.45 P. M.

H. D. MCLEOD, Supt.

ENGLISH AND FOREIGN.

LONDON, March 22.—An English steamship, with arms and ammunition from New Haven for Constantinople has been lost.

The Manchester *Guardian* says: "The Roman Catholic members of Parliament yesterday resolved to present an address to the Pope on the fiftieth anniversary of his episcopate. Probably the deputation will go to Rome to present the address."

CONSTANTINOPLE.—March 22.—The armistice between Montenegro and the Porte has been prolonged until April 13.

LONDON, March 23.—In the House of Commons last night Lord Northcote, replying to a question, said that at present no foreign consuls in the United States had power to settle disputes between masters and crews of ships of their own nationality. Negotiations have been commenced for consular combination between England and the United States.

In the House of Lords Earl Dudley asked for information respecting the Eastern question, and said that, although the signing of the protocol would secure peace, it would provide no better guarantee for better treatment of Christians.

Derby censured Dudley for raising without formal notice questions of magnitude. He said, "The noble Lord protests against an understanding which, he says, we are on the eve of concluding. If he knows this, he knows a great deal more than I do." He continued, "The wording as well as the conditions under which the protocol shall be signed, if signed at all, are still under the consideration of the Government Ministers, who are acting on their responsibility as advisers of the Crown, and when steps have been taken will submit them to Parliament without one hour's unnecessary delay."

The birthday anniversary of Emperor William in Berlin yesterday, was a brilliant affair.

The Prince and Princess of Wales leave for the continent to morrow.

Rinderpest is again at Hull.

The *Daily News* St. Petersburg correspondent asserts that if peace be not signed between Turkey and Montenegro before the middle of April, Russian army will cross the Pruth.

LONDON, March 24.—In the House of Commons the Eastern question was discussed. Gladstone, Fawcet and Hartington argued that Turkey should be required to guarantee reforms and protection to her Christian subjects.

Lord Northcote said the Government had never departed from the policy of striving for a better government for the Christians in Turkey, but he could not speak out in the midst of delicate negotiations so firmly as he might at a future time. He had been struck with the injustice displayed toward Turkey during the debate. Turkey could not disarm or proceed with her reforms, nor could England ask her to disarm, while a war cloud was hovering on her frontier.

Prof. Schlieman gave an account of his excavations before the Society of Antiquaries last night. Gladstone, in supporting a vote of thanks, regretted the jealousy of German scholars.

The Cambridge and Oxford boat race is said to be the grandest ever rowed. The crowd was less dense than usual. Oxford broke a rowlock, which apparently made a little difference in the result. The spurt at the close was terrific, Oxford striving for the lead and Cambridge to head them from the ship to the winning post, which was stationed some distance above the ship. The two crews raced past the judge's level amid a scene of the wildest excitement ashore and afloat. Time 24 min. 10 sec. The judge declared the race a dead heat.

LONDON, March 26.—The fast mail train from Scotland, known as Flying Scotchman, ran off the rails yesterday, near Morpeth. The engine and forward coaches were dashed to pieces, five persons killed, many injured, ten seriously.

The bark *Loreaa*, from Marseilles, saved from a small boat Capt. Young and four men of the British schr. *Rieulet*, from Brazil for England, which they abandoned sinking.

A despatch from Rome says that the condition of the Pope's health is serious. Cardinals Simeoni and Valetta, are already preparing for the conclave.

LONDON, March 27.—A despatch from Rome says the Pope is so feeble he has to be carried from one room to another.

LONDON, March 28.—The House of Commons adjourned to April 7th.

The *Post* speaks hopefully of reaching unity of purpose by England and Russia on Eastern question.

The *Times*, reviewing situation, says:—"When we see how our Government does nothing, promises nothing, and exhibits only distrust and condemnation of Russia by restricting itself to the faintest phraseology in which an agreement can be couched, we cannot wounder that negotiations are interrupted."

A Vienna despatch says that Ignatieff expresses himself with much bitterness at what he styles prejudice and false traditions of the policy of Great Britain. The Conference cannot end in smoke, he says, and the sole question is whether its decisions are to be enforced by Europe or Russia alone. To remark that he wanted Constantinople he replied that Russia would not accept that city were it offered to her on a golden dish.

A Vienna despatch says:—All measures are being taken here to mobilize, in case of need, 220,000 men on the frontier in a fortnight, to be followed by another 220,000 in a fortnight afterward.

Ignatieff is greatly oppressed by the decided attitude of Austria, supported by such powerful means of action.

THE IMPORTANT QUESTION.

Of all the loathsome diseases Catarrh stands preeminent. It renders its victim as disgusting to himself as to others. And the most humiliating of all is the consciousness that his presence is offensive to those around him. If any disease deserves the name of universal, it is this. Dietetic errors and the follies which Fashion imposes upon us tend to foster and disseminate it. To the pitiful cry of its victims, *is there any cure for Catarrh?* there is but one answer consistent with Christian reason, God has never sent one evil into the world for which he has not sent the remedy. For the greatest of all spiritual or moral evils, the Great Physician has prescribed a potent and never failing remedy. He has given explicit rules for the treatment and preservation of the spiritual and moral man, but He is silent in all matters relating to the physical man. It would be an unwarrantable detraction from His beneficent character to suppose that he has afflicted the greater portion of humanity with an incurable disease. The day of plagues is past. The God of Christianity is a God of Love, of Mercy. His message is "good will to all men." The earth and all contained therein was intended by the great Designer to supply man's wants; and surely he has no greater wants than remedies for his infirmities. Science is rapidly proving that the earth is fitted to supply man's uttermost need. New medicinal plants are constantly being discovered and new properties developed from those already known. For Catarrh, the most potent remedy yet discovered is Dr. Sage's Catarrh remedy. Its efficacy has been tested in many thousand cases with uniform success. Cases that had been repeatedly pronounced incurable, readily yielded to it. In confirmed, or obstinate cases, Dr. Pierce's Golden Medical Discovery should be taken in connection with the use of the Catarrh Remedy. Full particulars in Pierce's Memorandum Books. They are given away by druggists.

UNITED STATES.

NEW YORK, March 22.—James Kilpatrick, arrested for having $100,000 of forged Missouri Pacific bonds in his possession, and James McKay, arrested for complicity, have arrived in the Alsace from Glasgow.

NEW YORK, March 23.—One hundred live cattle, two hundred and fifty sheep and six hundred quarters of beef were shipped per steamer *Holland*, to-day for London.

Senators and Congressmen are excluded from Commission to examine affairs of Louisiana and South Carolina.

Brigham Young denies Lee's statement implicating him in Mountain Meadow massacre.

NEW YORK, March 24.—Lee, the Mormon murderer, was shot at Mountain Meadow, the scene of the massacre. A document of several columns, certified by U S., District Attorney Howard as having been written by Lee, has been made public. The main points which differ from the statement published yesterday, are that Lee asserts that he did everything in his power to avert the slaughter of the emigrants, and that he incurred thereby the enmity of the heads of the Mormon church. He relates that it was agreed at a solemn council that the emigrants should be lured by a flag of truce, and then slaughtered, but says he tried to keep out of the butchery and was with the teams carrying the children and wounded when the firing began. He describes the horrible scene of the massacre, and says Bishops Smith, Higbee and others robbed the dead bodies of the slain. The Indians stripped the bodies of clothing, and the wolves devoured the flesh, leaving the bones lying exposed until afterwards buried by the military forces. His reiterates his story of his interview with Brigham Young, and charges him with responsibility for the massacre.

Eleven persons were wounded, and one of them mortally, by a railway casuality near Worthington, Ind.

The *Times* says Tweed will be released next week. He restores property valued at $250,000. The claims against Keyser, Garvey and Ingersol are as good as settled. Similar arrangements are expected in regard to Sweeney. Connoly's son-in-law is now in Europe, probably to arrange terms for the former's return.

NEW YORK, March 26.—The village of Madrid, St Lawrence, Co., New York, was fired by a gang of thieves on Saturday night, and nearly destroyed.

The *J. B. Walker*, is the British steamer reported lost carrying arms to Turkey. Cargo valued at one million dollars. She cleared from New Haven, Conn., Feb 15.

NEW YORK, March 27.—High tides have caused the North and East Rivers to overflow, and considerable damage has been done along the docks by the storm. There are several wrecks the New Jersey coast, among them the steamer *Rockaway* from Norfolk. There is no loss of life.

The North River is open to Albany.

A Washington despatch says: "It is very evident that the end of existing troubles in South Carolina is at hand."

An enthusiastic public reception was given ex-President Grant at Cincinnati yesterday.

A. K. RICHARD.
Chewalla, McNairy Co., Tenn.,
November 28, 1876.

N. B.—This remedy speaks for itself. One bottle will satisty the most skeptical. Ask your druggist to get it. HEMP also cures night sweats, nausea at the stomach, and will break a fresh cold in 24 hours, $2.50 per bottle, or three bottles for $6.50. Pills and Ointment, $1.25 each.

Address, CRADDOK & CO.,
jan. 1.—1y. 1,032 Race Street, Philadelphia.

CHARLES MCMANN Esq., of Little River, Q. C., writes, May 2nd, 1870: "I have been completely cured of Rheumatism, by the use of SPENCER'S VESUVIAN LINIMENT, and recommend it to all the afflicted, as a sure, safe and speedy remedy."
march 2. 4w.

SACKVILLE, N. B., Feb. 13, 1877.

J. H. Robinson, Esq.,
Dear Sir:—Early in October last I took a severe cold which settled on my lungs. After having a bad cough for about six weeks I had a very severe attack of bleeding from the lungs while on a passage from Queenstown to Dover. I had daily spells of bleeding for some days until I had lost about two gallons of blood, and was so weak as to be scarcely able to stand. I put back to Queenstown, where I received such medical assistance as enabled me to get home.

I saw an advertisement of your Phosphorized Cod Liver Oil Emulsion in a paper. I immediately sent and got a half dozen bottles; after taking which I feel myself a well man again. My weight which was reduced to 120 pounds, is now up to my usual standard of 152 pounds. Seeing what it has done for me I can confidently recommend it to others afflicted with lung diseases.

Yours very truly,
(Signed) JOSHUA HARPER,
Of the bark *Mary Lewerison*.

Robinson's Phosphorized Emulsion of Cod Liver Oil, with Lacto-Phosphate of Lime, is for sale at the Drug Stores: price $1.00 per bottle, six bottles for $5 00.

WHAT THEY SAY OF IT? A FEW FACTS FOR THE PEOPLE.—There are but few preparations of medicine which have withstood the impartial judgment of the people for any great length of time. One of these is Dr. Thomas' Eclectric Oil. Read the following and be convinced:—Thos. Robinson, Farnham's Centre, P. Q. writes, "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Eclectric Oil, and since then have had no attack of it. I would recommend it to all."—J. H. Earl, Hotel Keeper, West Shefford, P. Q., writes, "I have been troubled with liver complaint several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts, wounds, etc., and think it is equally as good for horse as for man."—A. Maybee, Merchant, Warkworth, writes, "I have sold some hundreds of bottles of Eclectric Oil, and it is pronounced by the public, 'one of the best medicines they have ever used;' it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Rusan, Township Percy, writes, "I was persuaded to try Thomas' Eclectric Oil for a lame knee which troubled me for three or four years, and I never found anything like it for curing lameness. It is a great public benefit."—A. M. Hamilton, Warkworth, writes, "For weeks I was troubled with a swelled ankle, which annoyed me very much. Mr. Maybee of this place induced me to try Eclectric Oil, and before one bottle was used I was cured. It is a most remarkable medicine.

S. N. THOMAS, PHELPS, N. Y.
And NORTHROP & LYMAN, Toronto, Ont., Sole agents for the Dominion.

Note.—*Eclectric*—Selected and Electerized.

☞ Sold, wholesale, by BARKER & SONS and A. C. SMITH, St John, N. B., and all medicine dealers. (feb 9—2m)

With this changeable weather will come trials to the delicately constituted, over which any one, moderately observant, may pass, provided Dr. Wilson's Pulmonary Cherry Balsam be taken when the first symptoms of disordered Lungs show a departure from health. This mild and powerful expectorant is especially adapted to all liable to diseases of the Throat, and for all whose occupation, by confining them to the house, renders them particularly liable to catch cold. With moderate attention, and a supply of this Balsam, they will be enabled to regain good health, and point out to others similarly situated how this remedy is their best and surest friend.

As Dr. Wilson is anxious to meet with the approbation, not only of the public at large, but also of his professional brethren, he begs leave most respectfully to suggest to the medical world that the use of his Anti-Bilious and Preserving Pills is expressly confined to diseases having a common origin, or at least a bond of connection sufficient to justify their very general, if not universal, adoption.

In strains of the Shoulder and obstinate cases of lameness, Dr. Dow's Sturgeon Oil Liniment not only giver relief to the horse, but by persevering in its use, effects a permanent cure. On the first attack of stiffness in any of the joints or cords, recourse should be immediately had to the Liniment which will assuage the painful part, reduce the swelling, and subdue the inflammation.

Professor Clark writes to the agent of Clark's Derby Condition Powders, "By extraordinary care in selection of the ingredients, and by the closest attention in compounding them, with all the skill a life-time has given me, I feel warranted in saying that the Powders I am now introducing to the American public are as effectual a remedy as it is possible to produce, and will prevent distempers of various kinds to which horses are liable during the spring and summer months."

DR. A. JOHNSON, one of the most successful practitioners of his time, invented what is now called *Johnson's Anodyne Liniment*. The great success of this article in the cure of Bronchitis and all diseases of throat and lungs, will make the name of JOHNSON not less favorably, if less widely, known than that of Louis Napoleon.

CODFISH AND POLLOCK.

IN STORE—100 qtls. Bright Codfish; 300 qtls. Bright Table Codfish; 500 qtls. Pollock. For sale low.

Vaudreuil, P. Q., Feb. 28, 18 2.

I had been a great sufferer with *Rheumatism* for more than two years, without being able to find a remedy until I tried GRAHAM'S PAIN ERADICATOR which soon gave relief and in a short time made a complete cure, as I have remained well since using it more than a year ago.

It excels any thing we have ever found for *Sore Throat, Coughs*, colds, and most forms of *Pain*.

JOHN TAYLOR.

CONSUMPTION.

While calling at the office of a friend the other day, we were handed a letter from which we read the following: *Friend Craddock*—My best friend, for thus I must address you, as you have done me more good than any one on earth under God, and I believe I owe my life to you, and thank you from the bottom of my heart for all that you have done. It would take several sheets of paper to enumerate all my sufferings, so will only speak of the most important. For four years I had hemorrhages, beginning in February and lasting until fall; palpitation of the heart; soreness of the breast-bone and short ribs; pain in the back and lower part of the abdomen; cold hands and feet, even in August; constipation and headaches. I had tried doctors, far and near, but all in vain. Some said I had consumption; others liver disease. I quit all doctors, and wrote to you for help, and obtained it from your great "East India Hemp." I depend upon you alone for a perfect restoration to health, and feel that I shall not be disappointed. Please send two more bottles, with Pills and Ointment, which will do the work.

Yours truly,
A. K. RICHARD.

Note.—*Eclectric*—Selected and Electerized.

☞ Sold, wholesale, by BARKER & SONS and A. C. SMITH, St John, N. B., and all medicine dealers. (feb 9—2m)

With this changeable weather will come trials to the delicately constituted, over which any one, moderately observant, may pass, provided Dr. Wilson's Pulmonary Cherry Balsam be taken when the first symptoms of disordered Lungs show a departure from health. This mild and powerful expectorant is especially adapted to all liable to diseases of the Throat, and for all whose occupation, by confining them to the house, renders them particularly liable to catch cold. With moderate attention, and a supply of this Balsam, they will be enabled to regain good health, and point out to others similarly situated how this remedy is their best and surest friend.

As Dr. Wilson is anxious to meet with the approbation, not only of the public at large, but also of his professional brethren, he begs leave most respectfully to suggest to the medical world that the use of his Anti-Bilious and Preserving Pills is expressly confined to diseases having a common origin, or at least a bond of connection sufficient to justify their very general, if not universal, adoption.

In strains of the Shoulder and obstinate cases of lameness, Dr. Dow's Sturgeon Oil Liniment not only giver relief to the horse, but by persevering in its use, effects a permanent cure. On the first attack of stiffness in any of the joints or cords, recourse should be immediately had to the Liniment which will assuage the painful part, reduce the swelling, and subdue the inflammation.

Professor Clark writes to the agent of Clark's Derby Condition Powders, "By extraordinary care in selection of the ingredients, and by the closest attention in compounding them, with all the skill a life-time has given me, I feel warranted in saying that the Powders I am now introducing to the American public are as effectual a remedy as it is possible to produce, and will prevent distempers of various kinds to which horses are liable during the spring and summer months."

DR. A. JOHNSON, one of the most successful practitioners of his time, invented what is now called *Johnson's Anodyne Liniment*. The great success of this article in the cure of Bronchitis and all diseases of throat and lungs, will make the name of JOHNSON not less favorably, if less widely, known than that of Louis Napoleon.
