ACAPULCO surrendered to President Diaz's forces on the 16th ult., and then the forces frustrated and got on a general drunk. War in Mexico is a very ridiculous thing.

Rev. Joseph Cook, the famous Boston preacher, has ceased to be a bachelor. Newspaper report says he was married last week to Miss Hemiagum, of Fairhaven, Conn. Much joy to them.

Mr. D. B. McKenzie, of Boston, is in Halifax, where he is endeavouring to introduce the Reform Club movement, which in the States has accomplished so much for the Temperance cause.

The *Daily News* is out again in its old form and size, is published from the old site, a new building being in course of construction. The enterprise of our contemporary in this instance is remarkable and deserves success.

The ministers may do the *INTERLOUEN* a good and much needed service by urging on subscribers the importance of prompt payments just now. Some are helping us in this way, and we thank them. We would like all to do so.

On Monday, the evening *Globe* made its appearance in the old size and form. No complaint can be made against the burned-out newspapers of this city for lack of enterprise. Success to our daily contemporaries. They merit it.

Rev. Mr. Macrae, Pastor of St. Stephen (Pres.) Church, of this city, has gone to England, during his absence Rev. Mr. Mitchell will occupy the pulpit, and St. Andrew's and St. Stephen's congregations will worship together.

Mr. Anglin's majority in Gloucester was a little over 300 instead of 500, as at first reported. With the bishops and priests in his favor it was impossible to defeat him. Yet it is said if Mr. Burns had been his opponent instead of Mr. Turgeon, Mr. A.'s defeat would have been probable.

The Rev. Dr. Philip Schaff barely escaped with his life from the frantic rage of the Moslems at Hebron, as he sought to visit the cave of Macpelah, for he was more ready to help him into Abraham's bosom, than into the grave of Abraham.

And now a newspaper takes a summer vacation. *The Inquirer* it is that tries the experiment of resting from July 1st to September 1st. How it will work remains to be seen. If it should be a success who knows but bye and bye all papers will do the same.

There seems to be some opposition in England to Miss Rye's emigration scheme for children. The reason urged is not a reflection on Miss Rye. The chairman of the Local Government Board of London opposes further emigration because, as he alleges, there is necessity for retaining a supply of labor in London, and he thinks it will be more difficult to obtain this after a time if children are permitted to be sent away now.

News of the Week.

NEW BRUNSWICK.—Messrs. J. & A. McMillan have been authorized to offer, on behalf of Messrs. Belford Bros., publishers, of Toronto, one each of all their publications as a donation to a Public Library in this city....The vessels "Juan F. Pearson" and "Kate Agnes," wrecked near Yarmouth, have been sold at auction. Mr. Ed. Lantaulm, of this city, purchased the hull and material of the "Pearson" for \$1,200 and the cargo of deals for \$1,100. He also bought the hull and materials of the "Kate Agnes" for \$1,500....About a dozen of the short term prisoners in the Penitentiary, who had been sent across from the City Police Court, were released on Friday by order of the Police Magistrate to make room for others that may be sentenced to that institution. Those liberated had served about half their terms....*The News* say: It is stated that about two hundred horses are "laid up," their feet becoming sore by the time in the burnt district....*The Sentinel* says: Robert Lindsay, son of Hon. Wm. Lindsay, met with a serious accident at the railway station, Woodstock, on Saturday. He was on the top of a freight car which was being moved by hand, when he fell off, the wheels going over and badly mangle the bones of one leg....On Friday forenoon Maud, aged five years, daughter of Mr. James Ross, St. Andrews, was seriously, and it is feared, fatally burned. Some children had made a fire on the beach near Mr. Ross's residence. The child's dress took fire; she ran screaming towards home; her father met and clasped her in his arms, and with the assistance of Mr. Joseph Brown, Customs officer, tore the burning clothes off her. The child's arms and right side are badly burned....Maurice Doucette was drowned at Richibucto on Tuesday....A St. Stephen despatch says that a man named Henry A. Noble, of Milltown, Calais, had both of his legs cut off while lying drunk across the track of the St. Croix and Penobscot Railroad on the afternoon of the 4th. The train was coming around a curve, just below Milltown, and he was not seen in time to stop the locomotive....The libraries burned at St. John were not the cause of the losses. James Hannay's "History of Acadia," in a partial state of publication, together with a vast quantity of historical material, was burned. George Stewart's *Jr.*, manuscripts, and a portion of the material for his Life of Archbishop Connolly, perished in his iron safe....*Sackville Post*....*The Times* says that in consequence of a grossly criminal act committed by a resident of Point du Chene early in the week, some young fellows took the law into their own hands and punished the guilty party in a summary

Secretary Hill, and other distinguished persons took part in the proceedings.... Real and personal property have been assessed in Halifax this year at the valuation of \$16,196,942.... The value in 1876 was \$16,624,306, showing a decrease of \$227,944.... The Halifax Herald says on her last trip to this port from Boston, the steamer "Palmouth" brought about 150 passengers. Most of these were young girls from Pictou and adjacent counties. A car load of women went up on the International on Saturday morning. It needed but a glance at the girls as they sat crowded together in the car, to see that they were really disappointed lot of young persons.... Each one who has returned will constitute herself a committee of one to prevent other girls from leaving their homes, their sad experience will not have been purchased in vain. The fact that a "Palmouth" took hence last night but a comparatively small number of passengers may, perhaps, be taken as an indication that the young men and women are learning that there is no place like home—at least that the big cities of "the States" do not offer such great advantages as men, people in times past were too ready to believe they did.

GENERAL.—The Clinton Savings Bank of New York has failed with large liabilities. It is a shame for the Government of the United States not to take steps to protect the poorer class of depositors in the various savings banks.... A singular chapter of crime occurred at Toronto a few nights since. A resident of that place had an altercation with his wife, which led to his striking her. Their eldest boy, aged 16, being present, drew a revolver and shot his father in the groin, from the effects of which he died the same night. Before his death he sent for two cousins, to whom he willed the property, and they, after leaving the dead man's house at an early hour in the morning, quarrelled on the street, when one of them stabbed the other in the abdomen, inflicting a mortal wound. The boy and the other murderer are under arrest, and the tragedy will end with the execution of both.

BRITISH AND FOREIGN NEWS.

The Russian-Turkish War.

MOVEMENTS OF THE ARMIES, &c.

The *Post* has a despatch from Bucharest, July 4, stating that 2,000 Roumanians have crossed the Danube at Cettau.

The Governor of Erzerum telegraphs that the Turks, on Monday, ordered 10,000 Russians from their position at El-Kalliss.

A Vienna correspondent of the *Times* confirms the capture of Timova. This is important.

All able-bodied Bulgarians have been summoned to Russian camps to be organized into a force for the defence of the Danube.

Dernish Pasha will assume the offensive from Batoum.

The Russian Ambassador has had a long conference with Bismarck. One of the secretaries of the Embassy left for Bucharest with a special train for Prince Gortschakoff and the Czar's plenipotentiary, the Duke of Saxe-Coburg. The opinion is growing here that diplomatists are trying to fix conditions on which peace negotiations will eventually be constructed.

The Russians failed in their attempt to cross at Mentin, a few miles below Ruscuk.

LONDON, July 5.

A special says the position of the Russian army on the Danube, at Simnitza, is considered very critical. A despatch from Constantinople states that it is asserted the Russians are preparing to retreat across the Danube at Simnitza, as the Turkish frontiers are ascending the river to destroy the Prince Gortschakoff bridge at that point. It is also stated that the Russian army, as well as the Turks are advancing from Nicopolis and Ruscuk, as well as from the rear, and so threaten the Russians on all sides.

A large force of Roumanian troops attempted to cross the Danube at Widlin last night, but were repulsed by the Turks, and several thousand of their rifles destroyed.

A Constantinople despatch says a decree had been promulgated, authorizing the issue of a million plasters of paper money, redeemable in twenty years, at the rate of fifty millions annually.

At the termination of the recent successful campaign against Montenegro, it was asserted from Constantinople that a Turkish Governor will be appointed, and the country reduced to the position of a Turkish province; also that Serbia and Salt Pashas are about to march upon Cetinje, where they may further advance.

It is also stated that the Turkish plenipotentiary account for the change in the Turkish plan. It is now announced that Mahomet Ali has been appointed to command the army in Thessaly and Suleman Pasha recalled to Constantinople. These measures give point to reports recently current that the Turkish Government are about to bring a pressure at Constantinople to save Montenegro from being crushed, and also with a view of taking away from Servia one pretext for joining in hostilities against Turkey.

LONDON, July 6.

Frederick Wilhelm Hohenzollern, the German traveller and author, is dead.

Portugal having consented to act with England in suppressing the slave trade on the Mozambique coast, a British cruiser has been ordered thither. She will carry a Portuguese official and half all the honors of slaves, and be empowered to capture suspicious vessels, even when carrying Portuguese colors.

PANAMA, July 27.

The outbreak in Barranquilla interrupts the navigation of the Magdalena river, and 1,200 troops will be required to suppress it. The British frigate "Shikra" arrived on the 30th and sailed on the 31st for San Francisco.

A Lima letter of June 13, gives details of a combat between two British men-of-war and the Peruvian rebel ironclad "Kusuar," in which the latter, after three hours' fighting was worsted and the British were victorious.

The President of Peru has issued a proclamation in which he declares he will exact from Great Britain an explanation and satisfaction consequent on such wanton outrage on a friendly power.

LONDON, July 7.

The military situation now appears as follows:—The Turks have changed front and faced to the westward since the Russian entrance into Bulgaria. The Russian left flank rests on the Danube, facing the Turkish flank, from Ruscuk to Simnia. A general battle is expected, unless the Turks fall back to the Balkans or the Russians make the whole quadrilateral and turn it by passing the Balkans.

ERZERUM, July 8.

Following is the actual position of the forces in Armenia: The Turkish right wing, taking the British right flank and Carles, Tala, and Pasha has a fresh body 15,000 Russians opposed to him near Bayazid; another Russian division of 20,000 men is marching towards Aradahan. Mukhtar Pasha's advanced guard is within 14 miles of Kars. Battles are expected to occur in the near future.

SALMON FISHING.
SECTIONS 2, 3, and 4, are repealed and re-
placed by the following:
2. Before any net shall be used, the
owner or person interested in such net shall
obtain a license from the Minister of Marine,
the name of the owner or person interested, to
be filed with the local Fishery overseer, who,
on objection exists, may, in accordance with
instructions from the Department of Marine and
Fisheries, issue a Fishery License for the same
and any net used before such a License has been
obtained, and any net used in excess or violation
of the description contained in such License
shall be deemed to be illegal and liable to
forfeiture, together with the fish caught thereon,
and the owner or person using the same shall
also be subject to fines and costs under the Fisheries
Act.
3. The owner or owners of any net or nets used
for the purpose of taking Salmon, shall, on re-
ceiving such License, pay an annual License fee
on such net, to be legally used, which License fee
shall be paid to the Local Fishery Overseer, or
transmission to the Department of Marine and
Fisheries.
4. All Salmon nets shall have the name of the
owner or owners legibly marked, on two pieces
of wood or metal attached to the ends, and such
mark shall be preserved on such nets during the
season, in such manner as to be visible without
taking up the net, or, and any net used
without such mark shall be liable to forfeiture.
