We frequently hear the complaint that ministers are not wanted after they have passed the "dead line" of fifty years. Those who find themselves shelved are apt to put the blame altogether upon the people; but there are other reasons besides the fact that the people are not so much interested in religion as they were in former times. It is the fault of the men of the life who have done and, as a result, they grow dull and lose ground. The men who keep young are always in demand, even if they have long passed the meridian of life.

NEWS FROM MIDDLELAND, K. C.—An obliging correspondent (S. W. G.) writes from Middletown, Md., as follows:

Diphtheria is in this part of the Province. Last Monday the only child of Smith Street was buried. He was about five years old. His sister, the only daughter of the family, was also taken with the disease. The only daughter of Dr. Sharp has been very sick with diphtheria for a number of weeks; and for several days her life was despaired of. Although she is yet very weak, hopes of her recovery are entertained. There have been several cases about Norton Station, and one died at that place.

This place is being built up. Last summer two new barns were built, and this summer two more have been built, which present quite a fine appearance. They are now about finished, and one is already occupied. As these families leave their old houses and enter their new ones, they may remember that shortly the righteous will inherit an house not made with hands, eternal in heaven.

POLITICAL.—The Hamilton, Ont., Times is given as authority for the fact that Mr. Anglin is likely to enter the cabinet, instead of becoming Speaker. Mr. A. is not so well known in Ontario as in the Maritime Provinces. A despatch to the Telegraph says, it is rumored that the Dominion Parliament will meet about the 22nd of January. Mr. Laurier has been receiving numerous and hearty congratulations on his recent victory in Quebec last. It is reported that Hon. Dr. Parker and Hon. Robt. Roak will accompany the Nova Scotia delegation on Maritime Union, who are expected to meet the New Brunswick delegation next week.

We earnestly desire subscribers to send us prompt information of any irregularities or loss of papers. We cannot know that anything is wrong unless informed by the subscribers suffering the irregularity or loss. Every reported case receives prompt and careful attention.

## THE NEWS AND THE PRESS.

ST. JOHN, N. B., DECEMBER 14, 1877.

NEW BRUNSWICK.—A good many forgeries of the \$5 notes which were formerly issued by the Quebec branch of the Bank of British North America, are in circulation in St. John. Diphtheria has, in a great measure, subsided in Dorchester, but there are a few cases yet. The Telegraph says—Capitalists in Boston and New York have subscribed a large sum to rebuild the Victoria Hotel on Germain street.

Diphtheria prevails to an alarming extent in many parts of Kent County, principally among the French portion of the population. Upwards of sixty cases have resulted fatally in the parishes of Richibucto and Wellington. Eight children (all French) were buried at the Cossage Roman Catholic Chapel ground in ten days, and one family on the Cossage River lost three children between the hours of eight and twelve on Sunday night last. In Richibucto town there have been several cases, two of which resulted in death. Win. Devere has been committed for trial by the Montreal Police Magistrate, on a charge of robbing Alex. McLeod.

The advance says: The lobster fishing will be prosecuted with unusual vigor next summer by the operators at Richibucto. Henry O'Leary, Esq., has nine hundred boxes of tin coming from England. This, with the quantity of tin he has on hand, will enable him to put up more than half a million pounds of canned lobsters—provided the fish can be caught. The work at the Penitentiary has been suspended for the winter season, excepting that a few men are employed cutting stone in the sheds, &c. The contractors have been somewhat dissatisfied in procuring stone, many of the quarries having proven bad. A sum of money is to be spent in opening a large quarry on the grounds. The cost of opening it will be large, but when once opened there is not much doubt but a large body of stone will be found. At Harvey, Albert County, the other day, a young man named John C. Gray, belonging to Sand River, N. S., fell into the hole of the schooner *Ora*, of which he was one of the crew, and sustained a concussion, from which it is doubtful if he will recover. He was taken home in the vessel, which left that day. A King's County boy, has, according to the Telegraph, been committing a series of crimes. His name is James Mallory, about 16 years old, a resident at Smithville, K. C. He stole a horse, saddle and bridle from one of his neighbors, named Patrick McInnis, and rode him to Quaco, making efforts by the way to break open two stores, but was foiled in each attempt. He was followed by McBride, and found at Ingraham hotel in St. Marjoris, and was taken to Justice.

While the papers for his proper arrest were being prepared, he ran away, giving them leg bail for his money. Vaughan arrested, and found part of the goods and \$40 of the money in his possession.
